He Was the Fool, .

"I don't understand why women dress that way," said a man, pointing at a lady who passed along the street.
"I don't either," replied a bystander.
"That woman," continued the first speaker, "is dressed ridiculously. Her husband

must be a tool. 'I know he is," said the bystander.

"Do vou know him ?" "Oh, yes. I'm the blamed fool myself."

She Never Did. "I can't carry this bundle," said a wife to her husband.
"I can't," the husband replied, "for I have to carry the two children."

But you ought to have some consider-on for me," the wife continued, "you must think I'm a waggon."

Cable advices to Searth, Cochrane & Co. quote Hudson Bay shares at 212, and North-Nest Land at 72s. in London to-day. Cox & Worts report 242 and 68s. 9d, respectively.

There seemed to be no inclination to transact business on Change to-day, and some thought it advisable to adjourn until Monday, but it was finally decided to let matters take their own course, Prices generally were easy, and no doubt will remain much about the same for the balance of the week unless something reliable should be learned of the fortneoming bank statements. That these latter will be favourable no one doubts, and the speculation will hinge entirely on the question of how favourable. Sufficient has been learned to render it certain that in some cases at least they will prove highly satisfactory to all but the most unreasonable sharehoiders, Once more the filling of investment orders furnished the principal business of the day, and left the market without special feature, unless it be the continued strength of Toronto and Outario bank stocks.

FLOUR—There has not been much change in the situation; sales have been small, and usually at former prices. Superior extra, guaranteed, sold in the latter part of last week at equal to \$5.18 and \$5.25 here, the latter for choice, and on Tuesday at equal to \$5.15 for average. Extra has been in fairly good demand, with sales last week and on Tuesday at equal to \$5. The market yeaterday was steady: extra continued in demand, and sold at equal to \$5; no movement reported in superior, but former prices probably obtainable.

been made at \$4.25 here. Small lots usually going about \$4.75.

WHEAT—Inactivity has remeined the rule all over; no export demand has been heard in consequence of the high prices, and supplies have been very small in consequence—it is now generally feared—of a small crop. OATS—Offerings have been very small but no advance in prices reported. Cars on track sold last week, Monday and Tuesday, at \$7c.; but a car of bagged sold yesterday at \$30c. On street \$3\text{to \$3\$C. was paid.}

Extra No. 3 changed hands on Thursday at 61c. and 62c., and at 62c. on succeeding days until Tuesday inclusive. RYE—Firm. with sales of car-lois at 61c., and 63c. paid for street receipts.

ENGLISH GRAIN TRADE,

The Mark Lane Express of Monday, in its weekly review of the British grain trade, says:

"Sowing is nearly completed. Wheat is steadier, but the business transacted was small. Flour is in poor demand. Fine barleys retain values on account of a scarcity; moderately glop! has declined is, to 2s; grinding qualities declified 6d, early last week, but are rather firmer to-day, Foreign wheat has not improved. The large amount of wheat in sight in the United States is regarded as a reservoir which may burst at any time with disastrous effects. The 1833 crop in Northern Russia, being untouched, tends to depress trade. Mixed American maize has advanced is, and round maize 6d. Six cargoes of wheat arrived, four were sold, and three remained. The sales of English wheat during the week aggregated 63,782 quarters at 40s. 3d. per quarter, against 47,328 quarters at 40s. 1d. per quarter during the corresponding week last year.
