A convention of the party has already been summoned to meet next Tuesday, when in all probability a strong candidate, in full accord with the Liberal party and policy, will be placed in the field. The Liberals of Westmorland can do great things when they try, as evidenced by the last local contest in that eounty. And if they will go into this contest in dead earnest, with a determination to win, their efforts will be reward ed with a victory that will call down upon their heads, the plandits of all lovers of good government from one end

of Canada to the other. There is some talk of H. A. Powell, M. P.P., chief owner of the Moncton Times. being the government candidate. Nothing ought to give the Liberals of Westmorland greater encouragement to go into a contest than to have Mr. Powell, with the Manitoba school bugbear upon his shoulder, as the Tory standard bearer.

Dr. Parkin is an author of some repute in England, where his words have been printed. His book on the Great Dominion is recognized as one of the best books on Canada that has yet appeared, and it has been highly spoken of by the leading papers both in England and Canada. He has acted as special correspondent for the London Times on two occasions, the last being at the time of the Ottawa conference. A text-book of his for the use of schools, for which the Earl of Rosebery wrote the preface, has had an immense sale and is being used in a very large number of schools in England. Dr. Parkin's life-long experience as a head master of a school, his great influence in moulding the character of boys, the fact of his being a Canadian and thoroughly understanding Canadian feelings and instincts, added to the vast experience of the last few years in the old country, would seem to fit him peculiarly for such a position as that of principal of Upper Canada college. He is about fifty years of age; of great force of character, an eloquent and powerful speaker, a graceful writer, and one whose influence over boys would be of the highest kind. The college is to be congratulated upon its new

THE great conflagration - an account of which will be found in our news columns - which has befallen the town of Springhill, N.S., is to be deplored. Springhill, which only attained its najority a few days ago, has been singularly unfortunate the past few years. The big explosion in the colieries, five years ago, whereby over one hundred lives were lost, is still fresh in the public memory. Last winter fire destroyed the mammoth trestle work forced to leave the place. The depres-

The World, Conservative, also goes so far as to say 'The government at Ottawa, it would appear, is not disposed to trust parliament, and not even a great bulk of the Conservative party in connection with its railway policy."

WILL HOLD THEIR POSITION. So Says the Winnipeg Tribune, Organ

of the Greenway Government The Greenway government is evidently unwilling to help the troubled heads at Ottawa out of the difficulty into which

they have blundered. The Winnipeg Tribune, organ of the government, has this to say in its latest issue: As the attitude of the Manitoba gov-

ernment toward the remedial order, as well as its suggestion regarding an investigation, have been entirely ignored by the Dominion government, its latest communication would seem to savor somewhat of insolence. The Dominion government should be informed in the most unmistakable language that the province of Manitoba declines to be an actor in the farce which the Ottawa combination is now putting on the boards. The province of Manitoba has nothing whatever to do with the execution of the judgment of the Imperial privy council. That judgment was simply a declaration that certain privileges enjoyed by the Roman Catholic minority having been affected by the legislation of Manitoba in 1890, that minority have a right of appeal to the Dominion government and parliament. facts and circumstances justified the Manitoba legislature in withdrawing the privileges manifestly lay upon the Dominion government. They made no effort circumstances. They simply acted like a pack of reasonless and obsequious lackeys on an expression in the judgment of the asking whether the privy council was not exceeding its function and infringing on their rights by using such an expression. Neither have they made the slightest attempt to demonstrate by argument or by a citation of facts that unsound or unjust, politically, economirally or morally. They have simply abdicated all their rights and obligations

tutional and within its right to enact. The feeling of the people here is that the whole farce should cease. The bunince is not called upon to enter into any stipulation to extend to any sect special concession when demanded as a right, however disposed it might be to voluntarily do anything in the way of concession consistent with the absolute integrity of the single school system. Sir Mackenzie Bowell and his colleagues must know that no government in Manitoba which would recede from the position which the province now oc-

cupie on this question, could live one week after it should meet the legislature. Let Sir Mackenzie and Sir Hibbert carry out their foolish and reckless programme; let them introduce remedial legislation in the Canadian parliament, and let us see what the result will be The province of Manitoba can gain neither in dignity nor in any other way by joining in this absurd game of burlesque 'diplomacy,' with which the Ottawa 'statesmen' now seek to cover up the incompetency and dishonesty which culminated in the remedial order. HAND FORCE PUMPS.

E have sold the above Refriger tors for several years and we know from observation as well as experience they possess improvements that others do not. Many years of experience of the manafacturers warrant us in saying they are superior to any now offered in this or any other market. The cold, dry air circulation is perfect. We have several sizes in stock, together with some Canadian manufacture. Call in and look them over.
