You should never neglect a cold, how ever slight. If you do not treat it in time it will, in all possibility, develop into bronchitis, pneumonia, asthma, or some other serious throat or lung trouble On the first sign of a cold or cough it is advisable to cure it at once, and not let t run on for an indefinite period. For this purpose there is nothing to

equal Dr. Wood's Norway Pine Syrup, a remedy that has been universally used by thousands for over twenty-five

You do not experiment when you buy

Mrs. W. G. Paquet, Smith's Falls, Ont., writes:—"I was troubled with la-grippe. I caught cold, and neglected it, and was sick for several months. I took three bottles of Dr. Wood's Norway Pine Syrup, and before I finished the last one I was entirely cured. I would not have any other cough medicine in the house.

It also cured my baby, who was very sick with bronchitis. She had the doc-tor three times, and he recommended 'Dr. Wood's.' I highly recommend it to those who need a quick cure." in all lines of Footwear, we bought large quantities of all our staple lines.

See that you get Dr. Wood's Norway Pine Syrup when you ask for it. Do not accept a substitute. It is put up in a yellow wrapper; three pine trees the trade mark; price 25c. and 50c.; manu-factured only by The T. Milburn Co., Limited, Toronto, Ont.

You must have Good Yeast »IEEEEEEEEEEEEEEEEEEEEEEEEEEEE

() OOD BREAD is, without question, the most important article of food in the catalog of mun's diet; surely, it is the "staff of life." Good bread is obtainable only by using the Best Yeast, the best flour, and adopting the best method of combining the two. Compressed Yeast is in all respects the best commercial Yeast yet Jiscovered, and Fleischmann's Yeast is indisputably the most successful and best leaven known to the world. It is uniform in quality and strength. It saves time and labor, and relieves the housewife of the vexation and worriment she secessarily suffers from the use of an inferior or unreliable leaven. It is, moreover, a fact that with the use of Fleischmann's Yeast, more loaves of bread of the same weight can be produced from a gven quantity of flour than can be produced with the use of any other kind of Yeast.

sexplained by the more thorough fermentation and expansion which the minute particles of flour undergo, thereby increasing the size of the mass and at the same time adding to the nutritive properties of the bread. This fact may be clearly and easily demonstrated by any who doubt that there is economy in using Fleischmann's Yeast.

If you have never used this Yeast give it a trial. Ask your Grocer for a "Fleischmann" "Recipe. Book.

ad won him over.

should keep in mind and practice for progress. Select a chair without arms on else very low ones, because any uppediment in the way of the
