MISTRESS OF THE SEA AT ANY COST

British Government Has Naval Program—Double That Of Germany

London, Aug. 24.—Eight has thrown upon some of the great political mysteries both in England and in the Anglo-German relations. It cannot be denied that the growing alarm in the diplomatic circles in London and in the House of Commons, greatly disturbed all Europe. The meeting of King Edward and Emperor William did something to allay the apprehension, but the situation was such and still is in fact, that the peaceful intentions of monarchs did not suffice to remove the danger. Popular antagonism in modern days is a more potent element in international relations than the policies of monarchs. Moreover, competition in armaments had reached a crisis beyond which it could not go without a change of policy. Germany's great naval programme, under these circumstances, was announced three or four years have made her a fair match for Great Britain on the seas. This was a serious matter, and the effect was soon seen in the exultant talk of the German people, and the national alarm which began seriously to affect the prosperity of England. The situation in the world has now become almost panicky.

It is now disclosed how it will be dealt with. According to semi-official accounts of the discussion between Sir Charles Harding and the Kaiser, the State British Secretary intimated that the British intention practically was to double the German naval programme in a scheme to be announced next winter. The subject was frankly threatened out, and the Emperor in the friendly spirit declared this policy would be regarded with entire equality by himself and his government. It was explained also that the enormous expense involved probably would be met by a large loan. In other words the Liberal government in time makes heavy addition to the national debt to pay current expenses. The government is not yet openly committed to this policy, but a series of articles in the Liberal press this week makes it clear that it will be adopted unless popular protests are overwhelming.

DEVOTE THEIR LIVES TO ALBERTA MISSIONS

Eight Noble Catholic Missionaries Who Have Spent a Part of Year in Missionary Work in This Province, Are at Present Meeting Together in Edmonton—A Remarkable Gathering.

A notable group of workers in the early opening and civilization of the West has assembled at the Ottawa Hotel in Edmonton in the past few days. To greet these noble workers, His Lordship Bishop Leonard, a patriarchal dignity, "old and gray" and who has been among them for 27 years, spending his first years here among them Blackfoot tribes, building his own simple cabin and with the Indians going through the days of want after the buffalo disappeared. Among those who are assembled here preparatory to the departure of some for France and the meeting of the General Chapter of the Oblate Order, is Father Lacombe, the oldest living missionary of the West, who came to Alberta 56 years ago, having spent some four years previously at the Red River. Still another is Bishop Leonard, a patriarchal dignity, "old and gray" and who has been among them for 27 years, spending his first years here among them Blackfoot tribes, building his own simple cabin and with the Indians going through the days of want after the buffalo disappeared.

Among those who are assembled here preparatory to the departure of some for France and the meeting of the General Chapter of the Oblate Order, is Father Lacombe, the oldest living missionary of the West, who came to Alberta 56 years ago, having spent some four years previously at the Red River. Still another is Bishop Leonard, a patriarchal dignity, "old and gray" and who has been among them for 27 years, spending his first years here among them Blackfoot tribes, building his own simple cabin and with the Indians going through the days of want after the buffalo disappeared.

Bishop Brynat, of the Mackenzie River district, is still another of this interesting group. Although still a comparatively young man and only 16 years in the north, he has the appearance of age, because his health was broken with the hardships endured the first winter he went in. It was particularly severe season and he was perfectly trying to the young priest, who had come direct from "La Belle France." He brought with him from Fort Providence, Father Groulx, who went into the Mackenzie district 26 years ago, and who has never been out before until this year.

Another of this group, and one well-known in Edmonton, is Rev. Father Lohr, Vice-General of the diocese of St. Albert, who is still a strong and very capable man after 43 years of missionary work in Alberta. He has recently returned from Winnipeg, and during his absence went to visit the old site of Fort St. Charles, built by the explorers in 1846. Yerandry, who two hundred years ago on the Lake of the Woods. He saw the skulls of the 19 Frenchmen, and the Joseph priest, massacred there, on Isle de Massacre, a few years earlier.

DISTINGUISHED SOLDIER DEAD

Colonel T. B. Evans Succumbs to After Effects of Sunstroke at Battle Creek, Mich.

Battle Creek, Mich., Aug. 24.—Col. T. B. Evans, commanding tenth military district, with headquarters at Winnipeg, died here at 1:30 o'clock on Sunday from after effects of sunstroke. He had a most distinguished career, joining the Duke of Cornwall's Rifles in Ottawa many years ago. He served in the war of 1885, for which he received a medal and in South Africa, 1899-1900. Returning to Canada, he was selected for another command in the war in 1902, for which he received a medal and four clasps. Returning, he had since served with ability and distinction, having been instrumental in raising two regiments of infantry in Western Ontario, four regiments of cavalry in the prairie provinces, besides a battery at Lethbridge. He has also reorganized the Western Infantry regiment and one at Fernie and Rossland, also companies for army service, and medical corps, signaling and intelligence departments. His efforts for efficiency brought him in close contact with all the best military men. He was appointed to district 13, Col. Evans was also Commander of the 43rd, acting district commander, probably will be confirmed in the post.

BAPTIZED 219 PERSONS.

Ag. Indiana Pastor Remains in the Water for Two Hours.

Laporte, Ind., Aug. 24.—An unusual spectacle was witnessed at Laporte today, when Rev. M. Stamburgh, pastor of the United Brethren church, baptized 219 persons. Several thousand persons lined the shores of the creek to witness the ceremony. The minister remained in the water for two hours and was exhausted as the result of his labors. It is believed he is the largest number of baptisms ever performed at one time by a minister of the gospel.

BIG BOSTON PRISON OPENING.

Five Hundred and Fifty-One Prisoners Freed at One Time.

Boston, August 24.—A record for releasing prisoners was made at Boston today, when the mayor freed five hundred and fifty-one prisoners at one time because of the wholesale arrest of crooks, yegs and tramps in the crime wave sweeping over Massachusetts. The police station and city jails are crowded to saturation. Des. Island, holding a thousand prisoners, is crowded with fifteen hundred and fifty-one. The mayor said that those charged with major misdemeanors.

HELEN MALONEY INSISTS UPON MARRYING DASHING YOUNG ENGLISHMAN.

Philadelphia, Pa., Aug. 25.—Helen Maloney, who some months ago eloped with Samuel Clarkson, a dashing Englishman, is now held a prisoner by her family at Spring Lake, Mar. Helen Maloney's case. A high bridegroom is bitterly anxious to marry Clarkson, but the church, in the person of Archbishop Ryan, has no intention of hastening the ecclesiastical court to allow the girl to marry under the sanction of the church. Nor is it likely during the coming winter. "I'll marry him soon as I can meet him, whether the priest performs the ceremony or not," says the defiant girl to her parents and guards. Clarkson is said to be in the country doing an Irish-American and has a passport.

CALGARY NEWS NOTES.

Labor Men Meet—Gas is Discovered and Trains Wrecked on the C. & E. R. P. Petipiece, western organizer for the Trades & Labor Congress of Canada, spoke last night at a meeting in the Trades & Labor Hall. Last night he spoke on the ineffectiveness of the C.P.R. strike situation and labor congress work. On Tuesday morning he leaves for Edmonton. Hundreds of people have left the city to take in the opening day of the duck season.

It is reported that there are three wrecks between Calgary and Lethbridge. One is a lumber train of five cars piled up; another is a caboose and an engine lying across the tracks; and the third is a wreck train lying in a jumbled mass on the rails.

Saturday night all branches of organized railway labor sent delegates to a meeting here to discuss the strike situation. The meeting lasted from eight o'clock until midnight and all phases of the situation were thoroughly discussed. A resolution was passed endorsing the action of the strike and ordering that necessary steps be taken to give them the proper support. Yesterday the well-known outfit on the eastern edge of the city struck at a depth of 600 feet, and the work of pushing the big drill deeper is being hastened more than ever now. As Manager Dingman believes that at last his perseverance is to be rewarded and that the true gas-bearing strata will soon be reached.

THEY DISCLAIM RESPONSIBILITY

Railways Contend They Are Not to Blame for Flooding Country With Harvesters.

Winnipeg, Aug. 25.—According to reports received here a very unusual number of harvesters have been unable to secure work and although conditions may improve slightly as the late grain is ready for cutting it appears that already there is a surplus of harvesting laborers in the country beyond all possible requirements with the inward flow not yet checked. For this it is hardly fair to blame the railways companies entirely, for the conditions have been peculiar. At the same time the first estimates of the labor needs were sent out, on which the excursions were based, there was good prospect of a very big crop with a possible total wheat average of nearer thirty than twenty bushels. The unexpected drought coupled with the unusually early frosts have winnowed down the wheat average to nearer fifteen than twenty bushels and has cut the oat crop in half. At the same time these conditions have resulted in a crop very easy to harvest with unusually short straw. Added to this the desire on the part of farmers to cut down harvesting expenses to a minimum and sufficient reasons are present for the wide margin between the original estimate and the actual requirements in the harvest field.

THE FIRST OF ITS KIND.

Vancouver Widow of Thirty Becomes White and a Hindu Occurred Monday Morning at the Church.

Vancouver, B.C., Aug. 25.—The first wedding in this country between a white woman and a Hindu occurred Monday morning at the Anglican Church. The ceremony was performed by Rev. H. G. F. Clifton, rector of the church. The bride was Mrs. Annie Wright, an attractive looking woman, several years an attendant at that church. The bride was Mrs. Annie Wright, an attractive looking woman, several years an attendant at that church. The bride was Mrs. Annie Wright, an attractive looking woman, several years an attendant at that church.

FOUR SUSPECTED YEAGMEN.

Winnipeg, Aug. 24.—The city police have arrested four men, Wm. Duffy, Pat Murphy, John McDonald and Bob Scott, suspected of being concerned in the safe burglary which occurred in the city two former men have records already, but the latter two are young men. There has been regular vigilance of crime today, save blowers apparently working all town within a week of Winnipeg. The men arrested have been handed over to the provincial authorities.

MAST MANUFACTURE AT DOOR OF MARKET

New Patents Act Will Benefit Great Britain to Extent of \$125,000,000—Foreign Manufacturers Holding British Patents Must Manufacture on British Soil.

London, August 24.—According to an estimate of Sir Alfred Gresham, Britain will benefit to the extent of \$125,000,000 by the working of the new Patent Act, which is to become fully operative next week. The new law stipulates that foreigners who may obtain British patents must manufacture the goods in question "exclusively or mainly" outside the United Kingdom. As United States and German manufacturers are doing this, they stand to be forced to expend millions of dollars in the construction of plants here, as provided by the new Act. Last year Great Britain granted 2,500 patents to Germany and 2,750 to the United States. Of these 20,000 British patents have been granted within the past three years to foreigners. Not one of these patents has hitherto been adequately "worked" in the United Kingdom.

Among United States manufacturers who are particularly hard hit by the new law are the makers of typewriters, cash registers, all kinds of fine steel working, machinery, elevators and pneumatic tube parts; in addition to a thousand and one small articles sold by the United States makers under the protection of English registered patents.

Many United States and German firms have arranged to manufacture in Britain to comply with the law. Others will overcome the difficulty by means of a system of royalties. In either case Great Britain will receive material benefits. Several German manufacturers of aniline dyes, pottery and steel tools have factories in London and vicinity. A United States safety razor company has acquired a factory in Leicester.

BUILDINGS DAMAGED BY BLAST.

Great Quantity of Powder Placed Under Rock at Prince Rupert.

Prince Rupert, B.C., Aug. 21.—Another big shot on the construction work of the Grand Trunk Pacific at was fired last Thursday when four holes, drilled to a depth of thirty-three feet in solid rock of the bluff, fifteen feet apart, were loaded with one hundred and fifty kegs of powder and fifty boxes of dynamite. It was a grand sight for the onlookers on the hill above the town, the whole mass rose one hundred and fifty feet or more into the air, then crashed down on the eastern end of Foley, Welch, and Stewart's big shed, which is used by the Pacific Coast Steamship Company as a warehouse; tearing off the new plank roof and knocking in the roof of the building. Huge rocks were sent flying in every direction, and the big sheds weighing half a ton were hurled clean through the building, tearing up the wharf on the opposite side.

WIDOW OF THIRTY BECOMES WHITE.

Vancouver, B.C., Aug. 25.—The first wedding in this country between a white woman and a Hindu occurred Monday morning at the Anglican Church. The ceremony was performed by Rev. H. G. F. Clifton, rector of the church. The bride was Mrs. Annie Wright, an attractive looking woman, several years an attendant at that church. WHY SHOULD "The Wise Men of the West" look for Stephens name on a can of Paint? Simply because Stephens means paint that is unbeatable for withstanding the peculiar Western climate.

Let us give a reason or two why:

FIRST of all, the oil selected for Stephens Paint is a distinctly superior quality of pure Manitoba Linsseed. Its acknowledged that the "life" of the paint depends on the oil on the quality of the oil. Therefore, the greater body-toughness and elasticity of the oil we use give Stephens Paint extraordinary durability—"longer life".

WITH this oil are thoroughly incorporated pure White Lead and pure Oxide of Zinc in the exact proportions to produce a paint remarkable for density, opaqueness and covering capacity. A paint so thoroughly elastic that it will withstand the cracking cold of 40 below and the blistering heat of 100 degrees.

FROST NIPPED CORN.

In Northern Iowa Last Night—Extent of Damage Unknown.

Des Moines, Iowa, August 25.—Jack Frost made his first visit of the season in Iowa last night. Early reports indicate that in the low lands of Northern Iowa corn got more of a nipping last night than was good for the crop at this time of the year. Just what the damage will be cannot be told at this time. Freezing temperatures were reported from the lower sections of Northern Iowa.

REGINA DOESN'T WANT UNIVERSITY.

Regina, Aug. 25.—A meeting called to arrange steps toward securing the University of Regina brought out only a small crowd and little interest was manifested.

SPANISH AMBASSADOR MISS HIM ON ARRIVAL.

London, Aug. 25.—King Alfonso arrived last night and will join Queen Victoria who is visiting her mother, Princess Beatrice of Battenberg. His majesty's arrival was marked by his usual erratic behavior. The Spanish ambassador went to meet the Dover boat at 5 o'clock to welcome the king while the other members of the Embassy met the train from Dover at Victoria station at 7 o'clock. None of them saw His Majesty, and it was considered his speculation as to what had become of him. It turned out that he had arrived at Folkestone Victoria and reached Victoria station at 11 o'clock last night.

DETERMINED TO END LIFE.

Port Arthur, Aug. 25.—Alfred Halverson is locked up on a charge of attempted suicide. He tried four times within an hour to kill himself. First he tied his own hands in preparation to jump off Booth dock, but was not allowed to do so. Then he went to the hotel, where he tried to strangle himself with the bed clothes. The police were called, and took him to the station. On the way he pulled a knife from his pocket, but the officers prevented any damage, and later while he was in the hospital he tried to strangle himself with his fingers. No damage was done in any case. He was remanded three days to inquire as to his sanity.

HONORS FOR DICK CROKER.

His Name Placed on the Roll of Honorary Burgesses of Dublin. Dublin, Aug. 25.—Richard Croker yesterday became an honorary burgess of Dublin. He signed the roll and received from the Lord Mayor a certificate granting him the freedom of the city. The roll is limited to distinguished persons who have rendered service to the city or to the cause of liberty at home and abroad and bear the names of three American patriots prior to that of Mr. Croker, Gen. Grant, Edward Fisher, captain of the ship Constitution which brought relief to Ireland in 1880, and the late Patrick J. Collins, who was at one time mayor of Boston. Among the British burgesses are Gladstone, Parnell, Dillon and Ripon.

A HEINOUS ACT.

Vancouver, B.C., Aug. 24.—The ten year old daughter of Wm. Holden, hospitalist, while coming through Stanley Park, homebound, on Friday afternoon was accosted by a man who dragged her behind a log. The last she remembers was that she choked her. Half an hour later she was found wandering in a dazed condition on the road. The sounder probably thought he had killed her and fled after disarranging her clothing.

YOUNG GIRL SUICIDES.

Brantford, Aug. 24.—A young girl named Day, aged eighteen, an inmate of a lunatic asylum, committed suicide this morning with carbolic. The police are investigating.
