These gentlemen were well known for their ability and that they gave full measure of devotion to the duties of their office no one will dare question. The first thing Mr. W. F. Lloyd does is raise his own salary to \$5,000, over twice that received by Whiteway or Bond. Mr. Lloyd's love of country and Empire was that brand which pays and pays well. He just receives ONE HUNDRED AND FIFTY PER. more salary than any previous Minister did. Besides this the Hansard for 1918 is published to move the Hansard for 1918 is published to move the Hansard for England the expenses of which have to be paid for by the taxpayers to this colony. Just what the total amounts to only God knows. The people never will, while the present condition of things hold out. It is safe to say that his expenses, while he is away from this colony, will not be less than £10 per day. This, then, is the great sacrifice Dr. Lloyd made for Empire and Country. This is his contribution towards winning the war. This is why Mr. Lloyd is such a but I do know that he had several excursions the cost of his Department in the cost of his Department is the elaborate which the cost of his Department is the elaborate which the cost of his Department is the elaborate which the cost of his Department is the cost of his Department in the cost of his Department is the elaborate which the cost of his Department is the elaborate which the cost of his Department is the cost of his Departm

Being a shipowner he has been able to hire out steamers to the government, and if he has not been two conscientious, his official position has given him many valuable opportunities to manipulate tonnage to the advantage of himself, his company and his friends. So much for Mr. Crosbie's nationism.

As regards his knighthood I really cannot assess its true value. I am unable to arrive at any conclusion as to what its commercial value would be. Judging from the value placed on Knighthoods by Canadian statesmen and others who refused to sully their good names with such tinsel titles—I will leave its specific value to the general public to place their own valuation on it. Sir Patrick McGrath has been paid and WELL PAID, for whatever work he has performed the past three years. Take his action in forcing, what he himself termed "HOG FOOD," on the public of this country. Let him go around the Island and visit the homes of the people who were compelled to purchase this feed at high prices as substitutes, and which is now given to cattle and pigs to eat, and I promise him he will soon know how his services are appreciated by the sons of toil who know only too well how Sir Patrick McGrath has made good at the expense of the sacrifice and self-denial of our people.
