STEWART'S Home Made Bread,
THE BREAD MY DADDOY LIKES.
Daddy is evidently not one of those back number lords of creation who believes that woman's place is in the home—and only there. His taste in a wife is an up-to-date woman who will prove herself a real companion. He knows that if she is a slave to her kitchen she can't enjoy the poise or have the interest in world affairs that a little extra leisure would make possible; and so he is pleased to eat MRS. STEWART'S HOME MADE BREAD—the loaf with the home made flavor.
The smiling, well-nourished kiddie doesn't look as though suffering because mother is progressive enough to buy good bread made by a bread specialist, instead of wearing out her life in the kitchen.
Eat Stewart's Home Made Bread.

Hints to Home Decorators.
The decorating of the home is a fine art, the best results can only be obtained by careful study of surroundings the following hints may be helpful:
If your room faces North use a Warm Coloured Paper such as Brown, Yellow, or Red.
For rooms which get a good deal of sunshine, papers of cooler shades such as Greys and Blues may be used.
Care should be taken to Harmonize Your Wall Papers with the Paints, Furnishings and Tans usually used in the room with natural wood finish on grained doors and wood-work.
Remember Green is Nature's Colour for a Decaying Background, and Green Papers of the softer shades usually contrast well with rugs, curtains, and pictures particularly if the latter have gilt frames.
Small Rooms may be made to look Larger by the use of Striped Papers.
On low ceilings, or perhaps by narrow bordering, or perhaps by a drop ceiling of white paper which, oins up almost unnoticeably with the white ceiling, and so gives the room the appearance of more height than it really has.
It is important to buy your Papers at TEMPLETON'S who keep a Splendid Selection of the Newest Patterns at Prices which defy Competition.

Sturdy Simplicity
Dunham Traps are made with extreme care and accuracy. The result is sturdy simplicity. Nothing could be more simple than the two-piece Dunham Trap; and judging from service records of those in use since 1903, Dunham sturdiness is exceptional.
The Dunham Radiator Trap maintains a radiator at its maximum heating efficiency by permitting the passage of all air and water from the radiator and holding all steam within the radiator until it gives up its heat.
DUNHAM SPECIALTIES—Packless Radiator Valves, Radiator Traps, Drip Traps, Blast Traps, Air Line Valves, Vacuum Pump Governors, Reducing Pressure Valves, Oil Separators, Suction Strainers, Air Valves, Rotary Traps, Check Dampers, Damper Regulators.
