Sell to the City NEW TREATY Have Nothing to

Messrs. Alexander & Budd Have No Water Privileges on the Bow River.

Yesterday morning the Albertan asked about the titles which Alexander & Budd had for the property upon which they proto develop power and light to the Calgary citizens. Mr. Alexander stated at the metting of certain members of the Calgary Board of Trade that he had secured the title for the land on the place where power was to be developed. They were getting the title for the other side. He also said that they also had

Mr. Jones, representing Messrs. Alexander & Budd cal-Albertan office and office and said that Messrs. Alexhad secured an option on the land on one side. He had telegram from Winnipeg, signed by an official of the C.P.R., that the a telegrams of P.R was prepared to deal with them on the other side.

his was supposed to dispose of the ownership of the property On Tuesday the Albertan wired Hon. F. Oliver, minister of the Interior, informing him that Alexander & Budd had applied for a franchise to nower to the city of Calgary, which power would be developed from the Bow River and asking him if the government had given them concessions upon the Bow River, as had been claimed by them. Here is a copy of the telegram sent by Mr. Oliver: Ottawa, January 30th.

W. J. Budd has applied for water power on Bow River near Radnor, but there is a prior application from the Alberta Portland Cement Company, which will be granted if the company will comply with the requirements of the department.

That seems to effectually dispose of the claim that these gentlemen have anything to sell to the city.
