

CITY AND COUNTY.

Crisp Notes for London and Middlesex Readers.

To keep the head cool in hot nights, says a medical authority, a folded newspaper, or a pamphlet, between the head and the pillow, is a good thing and handy.

When George McCullum, farmer, Mapleton, got up Friday he found that his hired man and \$30 had disappeared. This is the fifth time in six months that Mr. McCullum has been robbed by hired men.

A navy on the C. P. R. named John Teggart, aged about 45, died of delirium tremens at the C. P. R. boarding shanty, Hyde Park, Wednesday. As he had no known friends his remains were turned over to the county.

Jan. Bogus, 46 1/2, com. 3, London township, lost a valuable horse Thursday. The horse was enclosed with a fence with a picket gate. This horse attempted to jump over the gate and landed on the pickets, dismounting himself. He was valued at \$100.

Wm. Sofronov, a young Englishman, who attended the school at Delhi on Friday evening, apparently as usual, while in the hospital, was taken ill and went into convulsions. The doctors think he has hydrophobia, as he barks and snaps like a dog, and is only kept quiet by the use of chloroform. It is thought that he had taken down and seems to suffer very much.

William Daville, one of the oldest settlers in this vicinity, died at the residence of his grandson, Mr. Joseph A. Childs, Beecher street, London, Monday. He came here upwards of 50 years ago, and has been a well-known and popular resident ever since.

Sheldon Walls, general merchant of Wilton, has called meeting of his creditors. His trouble is the result of indorsing for friends. Mr. Walls' total liabilities will reach between \$30,000 and \$50,000, the London wholesale houses being largely involved. It is now known whether Mr. Walls will accept an extension or offer a compromise.

Johnny, the 4-year-old son of Mr. Harry Pearson, St. Thomas, while in attendance at Knox Church Sunday school, put his collection, a 2-cent American piece, in his mouth, and accidentally swallowed it. The lad was taken to a physician, but the course of the doctor's medicine. The swallowing of the coin is not likely to in any way injure him.

A report from Dutton says that at the meeting of the High School Board last Saturday the Board was split to discharge the whole staff of teachers. A. C. Crosby, of Smithville, has been engaged as principal. The assistants have not yet been selected. Interest in the meeting was high while the meeting was in progress. At about 12 o'clock at night, when the news became known, the crowd was yet large.

Orders Continued. At the recent ordination held at the Grand Seminary, Montreal, Rev. Dr. Zaire, archbishop of Montreal, conferred the order of deacon on Mr. R. J. McLooney, son of Mr. P. McLooney, of Anson's township, and Mr. J. Kelly, of Kinrossville, and sub-deacon on Mr. P. McCabe, formerly teacher of the separate school, Guelph. Drowned at Gt. Horn. William Corley, was drowned in the Thames, about a mile east of Chatham, near Pike's Mills. He was a son of the late John Corley, who was a member of the depth of the water and unable to swim. He was found floating, in which were his brother and three others, but failed to reach the shore, and his companions, excited and bewildered, could not get to his assistance till he had drowned. It is believed he was about a month from England.

Destroyed by Fire. The large barn and granary of the farm owned by Sidney Jackson, on the town line, near Dutton, was destroyed by fire about midnight Wednesday. A couple of wagons, a quantity of hay and straw, 50 bushels of oats, a large number of sugar-corn, and a few chickens, were saved. A Stothorn's bull was also saved. There was \$3000 insurance on the barn and \$1000 on the granary. Mr. Jackson's loss will be heavy, but understanding, to say nothing of the serious inconvenience, as he has just begun, and the harvest will be just begun, and the loss of the hay, presents to the eye a rare, if not unrivaled, scene of rural beauty. Nearly opposite the new and stately parsonage, in a beautiful grove on the grounds of the Rev. J. H. McLooney, a young and promising parson, who took advantage of the good thing which took occasion proffered, and the opportunity of youth and beauty who gipped cream, or, as he is usually pronounced in the grateful shade listening to the sweet strains of the Dorchester Band, although the most beautiful and brilliant as even the most sanguine could anticipate. The ladies who took a prominent part and to whom great credit is due for the arrangement and success of the entertainment were Mrs. Corvill, Miss Hart, Mrs. J. Stanfield, Mrs. Corvill, the Misses Ralph, Mrs. Smith, Misses Robinson, Webster, the Dorchester Band. Speakers invited for the occasion were Rev. Messrs. Muxworthy, Lanouey and McGillivray.

Suicide at Jordan. JORDAN, Ont., June 5.—Geo. Craub, living in this village, committed suicide yesterday by taking Paris green. Before his death he remarked that he had known it was going to give him no much pain he would not have taken it, but he expected he would fall over just like a potato; but himself by getting onto the house-top and rolling from the roof. That time he only succeeded in a slightly hurting himself.

No Use for the Pins. This is an age of invention, and every little while someone makes a strike, and the community has long ago concluded there was no such thing as no improvement. In the minds of all housekeepers, at least, the possibility of getting a clothes line without the world's hold the clothes line, and enduring the everlasting annoyance of continually dropping the clothes in the mud and dirt, while you struggle for a peg to pin it on, was a thing that was a thing devoutly to be wished for, but never thought of. Such a result has been brought about by the invention of Pinsless Wire Clothes Line, with automatic lock. It is made of galvanized steel wire, which never rusts, and the tighter the garments hold to the line, and the clothes do not freeze to it in winter. In the United States the Pinsless Wire Line has had an immense sale and Wire Line has had an immense sale and Wire Line has had an immense sale and Wire Line has had an immense sale.

A Flood in Oxford. The residents of West Zorra, about five miles north of Woodstock, were visited on Tuesday by the greatest flood ever seen there within the memory of the oldest resident. The Mad Branch Creek, which ordinarily carries but a small stream, but yesterday it became swollen to enormous proportions by the heavy rainfalls, and as it tore through the country it carried with it bridges, culverts and fences. The number of bridges destroyed in a short distance was no less than seven, while almost every culvert on the route suffered. The bridge on the Port Dover Railway near Strathlain was carried away, and traffic on that road prevented for a time. Even adjoining fields suffered considerably. The earth was

British Grain Trade. LONDON, July 8.—The Mark Lane Express, in its review of the British grain trade during the past week, says: "English wheat is slow of sale, at a fractional advance. The sales of English wheat during the week were 29,100 qrs., at 28s 4d, against 29,200 qrs., at 31s 1d, during the corresponding period last year. Flour is stronger and 6d higher. There is a fair inquiry for foreign wheat which is 6d better. Corn is firm and 3d dearer. Rye is 6d dearer on a report that the Russian and German crops are below the average. A demand for rye and prices have advanced 6d. At today's market English wheats were firm and 6d dearer; Californian wheat was 6d to 1s dearer. There was an inquiry for flour and 6d higher. Peas were 6d higher. Barley, oats and beans were 6d higher.

British Live Stock Trade. EDINBURGH, June 29.—John Swan & Sons' weekly report says: "The number of homebred fat cattle offered this week has been under an average. For the best descriptions trade has been good, and prices showed a decided upward tendency, secondary classes quite maintained previous rates. The supplies of sheep have been fairly good. Trade on the whole has been the same, worse, and prices for nice shop sheep about 1s and for secondary sheep 1s lower. Lambs have also shown a fair number and about previous rates obtained. The supply of calves was generally of good quality. This class of stock suffered a reduction of about 1s 2d per cwt. The demand for pigs has been fairly good and previous rates well maintained. Six hundred States cattle at Yorkhill met a fair trade for the best class at 10s. 5s to 5s per cwt, but but secondary bullocks made considerably lower prices. About 200 Canadian cattle were shown in Glasgow, a considerable number of which were of a good class for short keep, and met a good demand at near as may be last week's prices, rougher cattle would be a shade cheaper. Owing to the exceedingly dry weather, the demand for store stock has not been so good, and to effect sales, prices suffered a reduction of quite 10s, and a considerable proportion of the cattle were left unsold. Sheep have also had a more dragging trade, although there are a few large sales of which some in Edinburgh, of which about 180 were from Denmark. The best class would suffer a reduction 10s and secondary 20s a head. Best beef, 7s 3d, in some cases 5s 6d; secondary, 7s 3d; inferior, 6d to 7s per stone. Best mutton of heavy weights, 8s 4d; ewes, 6s 4d to 7s; lamb, 9d to 10s per pound.

Commercial. Considering we are just entering upon the driest season our farmers have had, and the fact that the cattle market has been under an average, it is not surprising that the grain department experienced very few changes, with regard to the wheat being offered this week, and to effect sales, prices suffered a reduction of quite 10s, and a considerable proportion of the cattle were left unsold. Sheep have also had a more dragging trade, although there are a few large sales of which some in Edinburgh, of which about 180 were from Denmark. The best class would suffer a reduction 10s and secondary 20s a head. Best beef, 7s 3d, in some cases 5s 6d; secondary, 7s 3d; inferior, 6d to 7s per stone. Best mutton of heavy weights, 8s 4d; ewes, 6s 4d to 7s; lamb, 9d to 10s per pound.

Local Markets. Reported by A. M. Hamilton & Son, Wednesday, July 10. WHEAT—Receipts, 50,000 bushels; exports, 10,000 bushels. Market quiet but firm, at unchanged rates. Flour—Receipts, 300,000 bushels; exports, 100,000 bushels. Market quiet but firm, at unchanged rates. Corn—Receipts, 100,000 bushels; exports, 50,000 bushels. Market quiet but firm, at unchanged rates. Beans, non-official. Fruit met a good demand and sold readily at good prices. Provision unchanged. Wool was supplied liberally and met a good demand, but with a few exceptions, the lots were sold at 15c and others that were real time at 22c to 23c. Hay quiet. Quotations are as follows:

Table with columns for various commodities and their prices. Includes items like Flour, Corn, Beans, Fruit, and Wool.

Sheldon Walls, general merchant of Wilton, has called meeting of his creditors. His trouble is the result of indorsing for friends. Mr. Walls' total liabilities will reach between \$30,000 and \$50,000, the London wholesale houses being largely involved. It is now known whether Mr. Walls will accept an extension or offer a compromise.

Johnny, the 4-year-old son of Mr. Harry Pearson, St. Thomas, while in attendance at Knox Church Sunday school, put his collection, a 2-cent American piece, in his mouth, and accidentally swallowed it. The lad was taken to a physician, but the course of the doctor's medicine. The swallowing of the coin is not likely to in any way injure him.

A report from Dutton says that at the meeting of the High School Board last Saturday the Board was split to discharge the whole staff of teachers. A. C. Crosby, of Smithville, has been engaged as principal. The assistants have not yet been selected. Interest in the meeting was high while the meeting was in progress. At about 12 o'clock at night, when the news became known, the crowd was yet large.

Orders Continued. At the recent ordination held at the Grand Seminary, Montreal, Rev. Dr. Zaire, archbishop of Montreal, conferred the order of deacon on Mr. R. J. McLooney, son of Mr. P. McLooney, of Anson's township, and Mr. J. Kelly, of Kinrossville, and sub-deacon on Mr. P. McCabe, formerly teacher of the separate school, Guelph. Drowned at Gt. Horn. William Corley, was drowned in the Thames, about a mile east of Chatham, near Pike's Mills. He was a son of the late John Corley, who was a member of the depth of the water and unable to swim. He was found floating, in which were his brother and three others, but failed to reach the shore, and his companions, excited and bewildered, could not get to his assistance till he had drowned. It is believed he was about a month from England.

Destroyed by Fire. The large barn and granary of the farm owned by Sidney Jackson, on the town line, near Dutton, was destroyed by fire about midnight Wednesday. A couple of wagons, a quantity of hay and straw, 50 bushels of oats, a large number of sugar-corn, and a few chickens, were saved. A Stothorn's bull was also saved. There was \$3000 insurance on the barn and \$1000 on the granary. Mr. Jackson's loss will be heavy, but understanding, to say nothing of the serious inconvenience, as he has just begun, and the harvest will be just begun, and the loss of the hay, presents to the eye a rare, if not unrivaled, scene of rural beauty. Nearly opposite the new and stately parsonage, in a beautiful grove on the grounds of the Rev. J. H. McLooney, a young and promising parson, who took advantage of the good thing which took occasion proffered, and the opportunity of youth and beauty who gipped cream, or, as he is usually pronounced in the grateful shade listening to the sweet strains of the Dorchester Band, although the most beautiful and brilliant as even the most sanguine could anticipate. The ladies who took a prominent part and to whom great credit is due for the arrangement and success of the entertainment were Mrs. Corvill, Miss Hart, Mrs. J. Stanfield, Mrs. Corvill, the Misses Ralph, Mrs. Smith, Misses Robinson, Webster, the Dorchester Band. Speakers invited for the occasion were Rev. Messrs. Muxworthy, Lanouey and McGillivray.

Suicide at Jordan. JORDAN, Ont., June 5.—Geo. Craub, living in this village, committed suicide yesterday by taking Paris green. Before his death he remarked that he had known it was going to give him no much pain he would not have taken it, but he expected he would fall over just like a potato; but himself by getting onto the house-top and rolling from the roof. That time he only succeeded in a slightly hurting himself.

No Use for the Pins. This is an age of invention, and every little while someone makes a strike, and the community has long ago concluded there was no such thing as no improvement. In the minds of all housekeepers, at least, the possibility of getting a clothes line without the world's hold the clothes line, and enduring the everlasting annoyance of continually dropping the clothes in the mud and dirt, while you struggle for a peg to pin it on, was a thing that was a thing devoutly to be wished for, but never thought of. Such a result has been brought about by the invention of Pinsless Wire Clothes Line, with automatic lock. It is made of galvanized steel wire, which never rusts, and the tighter the garments hold to the line, and the clothes do not freeze to it in winter. In the United States the Pinsless Wire Line has had an immense sale and Wire Line has had an immense sale and Wire Line has had an immense sale.

A Flood in Oxford. The residents of West Zorra, about five miles north of Woodstock, were visited on Tuesday by the greatest flood ever seen there within the memory of the oldest resident. The Mad Branch Creek, which ordinarily carries but a small stream, but yesterday it became swollen to enormous proportions by the heavy rainfalls, and as it tore through the country it carried with it bridges, culverts and fences. The number of bridges destroyed in a short distance was no less than seven, while almost every culvert on the route suffered. The bridge on the Port Dover Railway near Strathlain was carried away, and traffic on that road prevented for a time. Even adjoining fields suffered considerably. The earth was

Wm. Sofronov, a young Englishman, who attended the school at Delhi on Friday evening, apparently as usual, while in the hospital, was taken ill and went into convulsions. The doctors think he has hydrophobia, as he barks and snaps like a dog, and is only kept quiet by the use of chloroform. It is thought that he had taken down and seems to suffer very much.

William Daville, one of the oldest settlers in this vicinity, died at the residence of his grandson, Mr. Joseph A. Childs, Beecher street, London, Monday. He came here upwards of 50 years ago, and has been a well-known and popular resident ever since.
