"LIKE A SUBURB OF HELL"

A Description of Concentration Camp in Philippines

By a United States Officer—Every Living Thing Outside Was Shot.

Washington, D. C., May 20.—The subject of the concentration of the inhabitants in the Philippines into camps was a leading topic of the discussion of the Philippine bill in the senate today. Mr. Bacon of Georgia, attacked the policy of concentration, likening it to the reconcentration camps established by Gen. Weyler in Cuba.

"Is it," Mr. Bacon asked, "the purpose of the United States to retain the Philippine Islands in colonial dependency or to grant them a government of their own? That, he thought, was the great central question around which all other questions relating to the islands must revolve.

"If," said he, "we have the high and noble purpose of giving the Philippines a free government—whether partial or absolute—then now is the time for congress to act on that purpose."

He declared the responsibility for the situation—including the outrages committed, the burning of towns and the reconcentration of Filipinos—must be laid upon those who authorized and justified the policy of the government.

"LIKE SOME SUBURB OF HELL." Mr. Bacon read a letter from an army officer, for whom he vouched, and whom he described as a man of high character, describing in vivid language a reconcentration camp. The letter said this camp was located in a soggy place, where rain fell outside the walls of which every living thing was shot.

In that camp there were 30 cases of smallpox and five cases were added each day. Clouds of vampire bats, circled softly over the place, awaiting the dead coming to them every day. The camp was "like some suburb of hell."

Mr. Foraker said that Mr. Bacon had likened the concentration camps in the Philippines to those in Cuba, established under Gen. Weyler. The establishment of the camps, Mr. Foraker said, was not an act of brutality, as had been charged, but an act of mercy and kindness and a means of protecting the people from the ravages of banditry.

Mr. Hoar said everybody knew and it was useless to try to disguise the fact that it was difficult to get the army officers to do what was right, which reflected on the administration of a war. They were brave men, but they flinched from making such criticism. They were apt to fear that their promotion, their place would be constantly striving, would be affected.

CLAPP UPHELD POLICY. He declared that the guerrilla warfare naturally followed the attempt of the United States to impose its authority upon the Filipinos. He protested against concentration camps and declared his purpose to accept the word of Gen. Bell and Gen. Wheaton and other United States officers concerning these camps rather than that of a man whose name was not given.

Mr. Hoar said everybody knew and it was useless to try to disguise the fact that it was difficult to get the army officers to do what was right, which reflected on the administration of a war. They were brave men, but they flinched from making such criticism. They were apt to fear that their promotion, their place would be constantly striving, would be affected.

DEATH OF A VETERAN. Hamilton, Ont., May 21.—Mr. Alexander Gardiner died Monday night at his late residence, Caroline street, after a long and serious illness. Mr. Gardiner was a native of Innerleithen, Peebles, Scotland, and came to this country with the 1st Royal Canadian Rifles to Kingston, where they disbanded, and coming on to Hamilton, he had resided here ever since. He was a veteran employee of Wood, Vallance & Co. for over 26 years, and was a man of unassuming and kind disposition, and deservedly well liked by everyone. He

leaves two daughters at home and one son, who went to the Klondike some four years ago, and who has been telegraphed for, but it is feared he has not returned to his home in New York City, as no word has been received from him.

STATE OF SOCIETY IMPROVED IN CHINA

Young Manchus and Mongols Sent Abroad to Study—Want More Bibles.

New York, May 21.—Rev. Dr. John R. Hykes, agent of the American Bible Society, in Shanghai, China, has submitted a report to the society on conditions and the outlook in China. Dr. Hykes says the question of a recurrence of the recent troubles in China depends on whether the government of the empire wants another outbreak. It is, however, the opinion of the society that the young Manchus and Mongols shall be chosen to go abroad and study, there has been no movement for foreign books. Scriptures included. One government college has applied for the grant of fifty copies of the Bible, and the other old scholars are scattered over the world in the government service in the capacity of translators, interpreters and teachers of English. "One of the signs of the times," says Dr. Hykes, "is the movement on the part of some of the highest officials in the land to make a re-translation or revision of the Bible in Chinese. This work is being done with imperial sanction. The officials hope just to acquaint the official class with the contents of the Bible, and to remove their prejudices against it, and thereby against Christianity."

Mr. Hykes said that in the last three months of this year there would have been considered ample stock for eight years' demand.

Will You Allow A Relative or Friend to Pass Into the Dark Valley Simply Because the Doctor Desires to Cling to Medical Etiquette?

PAINE'S CELERY COMPOUND Is Daily Saving Precious Lives After Pronounced Failures of Physicians.

The months just passed of the present year have brought bereavement and dark clouds of sorrow to many homes in our land. Fathers, mothers, sisters and brothers have been forever removed by the grim reaper death.

The large majority of such cases have been saved had their friends given them Paine's Celery Compound, instead of the worthless medicines the sick ones were forced to swallow.

Dr. Paine's Celery Compound is a true life-saver from the sick and dying ones. Past records of marvelous cures are everywhere to be seen. Paine's Celery Compound were ignored by medical men; in a word, it was unprofessional in their estimation to introduce the life-giving Compound.
