Polish Party Had Hoped to Obtain Autonomy by It.

[Canadian Press.]
St. Petersburg, June 27.—A dispatch from Warsaw states that the congress of the national democratic party today decided to discontinue the boycott of Government schools in Poland. The boycott was inaugurated in 1905 when the hope of obtaining autonomy for Poland was entertained. It was enforced vigorously, and in many instances Polish youths continued to attend the University of Warsaw were fired upon. Private Polish schools were established, but their certificates were not recognized by the Government unless the instruction was carried on in the Russian language. These schools also failed to obtain sufficient financial support. For several years there has been an increasing agitation against the boycott on the ground that it deprived tens of thousands of the means of an education.

INSURANCE COMMISSIONS RAISED ALL OVER

New Scale Does Not Apply to London Alone—Tariff Company Representatives Clear Up Misconceptions.

Representatives of the tariff insurance companies point out, in answer to statements published in The Advertiser, that while it is true there has been an increase of 50 cents in the rate following the Western fire two years ago, a reduction of 20 cents was subsequently made last year, before the new scale was in full operation. The underwriters then promised a further reduction if the system satisfactorily increased the pressure, and if a fire charge were purchased. The New England mutuals, which have entered the local field, cater to the sprightly business. Their rates are the same as those of the tariff companies, though, of course, under the mutual plan they distribute profits to policyholders.

BASEBALL FANS DEMANDING BETTER STREET CAR SERVICE

Manager King Points Out the Difficulties of Meeting the Wishes of the Patrons of Tecumseh Park.

Manager King, of the London street railway, has been in the receipt of complaints from baseball fans of this city regarding the car service to the grounds when ball games are played in Tecumseh Park. The matter was taken up at a meeting of the local directors, and a letter was sent to Mr. King. The Advertiser has also received several anonymous communications on the subject. Today Mr. King told a reporter that as far as was consistent with business methods, the company will strive to satisfy the patrons of the ball games. He pointed out that it is a difficult thing to provide cars for the fans when they want them. A game may be over in an hour and a half, and it may take two hours. If men and cars are kept waiting, the bill of expense to the company is very great, and the number of people who ride not sufficient to warrant the expenditure.
