The One Best Sugar for Preserving

When you pay a good price for your strawberries, and spend a lot of time preparing, cooking and bottling them, isn't it too bad only to get after all, preserves that "might have been better"?

Yet that is what you do get, unless you use the very best sugar as well as the finest fruit.

Every trace of impurity in the sugar has a bad effect on the flavor and the keeping qualities of the preserves. Add Extra Granulated Sugar is refined to absolute purity, and put

up, without being touched by human hand, in 2 and 5 pound Sealed Cartons and in 20 and 100 pound bags.

Buy Sugar in these original packages and you get Canada's finest sugar, at its best. Make your preserves, jellies and jams with Extra Granulated and you'll get the most gratifying returns from your time, skill and money.

Try this way of preserving Strawberries -it works splendidly.

Hull and clean the strawberries and put them into jars which have been sterilized with boiling water. Filleach jar, but do not pack the fruit down.

Make a thin syrup by boiling for ten minutes 3 parts of REDPATH Extra Granulated Sugar in 5 parts of water. You will need nearly as many pints of syrup as of fruit.

Pour the syrup over the fruit, filling the jars. Screw on the covers, without the rubbers, stand the jars on strips of wood in 2 wash-boiler, and cover them to within an inch of the tops with cold water. Bring this water to a boil and cook for from 15 to 20 minutes, according to the ripeness of the berries. Watch closely after they have boiled 15 minutes, and when cooked remove

Have the syrup, which was left over, very hot. With a fork gently stir the fruit so as to get out all the air bubbles, then fill each jar up with the hot syrup and seal, being careful no leave no air inside.
