CHINA DECLARES WAR AGAINST

LONDON, Aug. 16.—The late edition of orders to police commissaries to disinfect this morning's Times contains cablegrams suspected houses. At Arles three deaths suspected houses. At Arles three deaths purporting to be direct from Hong Kong and to convey information up to date. This information was of the most startling nature, and contained the deliberate statement that China has formally declared war against France. They asserted that France had rejected the mediation of any power; that China flatly refused to pay the demanded indemnity and declared war; that Admiral Courbet was hurriedly assembling troops at Foo Chow; that the Chinese had just landed 6000 soldiers at Holhow, and that the war ships of both nations had steam up and the decks cleared for action. In the above despatches the Times had a clear "beat" on all of its morning rivals, and it cannot be denied that the news produced a profound sensation in all the newspaper offices in London. All the afternoon papers issued early special editions with reprints of the Times story fell flat. Few people believed it and the publishers of these afternoon edition on the hands of the publishers.

The first evidence that the news lacked purporting to be direct from Hong Kong occurred yesterday; at Aix, two in lunatio

The first evidence that the news lacked foundation was shown in the stack morthe merchants and financiers having had possession of reliable information from private sources of their own which led them to utterly discredit the statements by the Times. The Paris bourse placed as little faith in the news as did the London exchange. A corresp ondent in Paris to-night visited all the diplomatic head-quarters and ascertained that at each of them the story that China had declared war against F.ance was regarded as ab-

At the Chinese embassy the story was invention which did not concern the embasy at all. The Marquis Tseng is still in Switzerland, but his enterty, Dr. MacCartney, remains in London. Dr. MacCartney said that if a collision should occur between the Chinese and French fleets the Chinese vessels would give a good account of themselves. Their guns, he said, were equal in number and calibrate those of of the French squadron, and their men were smart and well officered by capable foreigners.

Through the Marquis Tseng, Chinese ambassador to England, and the British embassy at Pekin, Earl Granville is urging China to concede the indemnity demanded by France, provided the French fleet shall immediately leave Kelung. It is con-sidered doubtful whether Prime/Minister Ferry would surrender Kelang on the payment of the indemnity, as it is believed the real object of France in making the claim was to secure permanent possession of the coal mines of Kelung. It is reported that in case France should refuse to give up Kelung on the payment of the indemnity, England has promised to interfere in support of China. It is confidently asserted that no offer of meditation has been made

In the meantime, there is great curiosity as to the import to England of the ence at Varzen conference at Varzen between Prince Bismarck and Count Kalnoky, the Austro-Hungarian premier. It is freely asserted that the German chancellor is so disgusted with the failure of the Egyptian conference, and with the Chalance and with the Cha between Prince Bis and with the Gladstone policy generally, that he is planning a joint note from Austria and Germany to England demanding the prompt settlement of the Alexandria indemnity claims and the enforcement of proper sanitary regulations in Egyptian

LONDON, Aug. 16 .- An important and sensational trial has just been concluded after occupying several days at Carlsruhe, in Baden. The accused was a money lender named Housman, who had a terrible reputation for usurious practices and cruelty towards those who were in his power. There were seventy witnesses who testified to his unjust extortions of money, and almost all of them were debtors who had been gradually stripped of all their possessions by him. The public prosecutor in his address to the jury said that the prisoner had been a curse to the country and had been shown to be without a trace of humanity. The team from the capital proved to be much stronger than the boys expected to meet, and it kept the Ontarios busy to win in three games out of five, although if they had not relied so much upon confidence they might have won in better style. The match was a fine exhibition of lacrosse, and was contested in the most friendly spirit. The only objectionable feature was the conduct of two prominent members of the Toronto lacrosse club, who guyed and jeered at the Ontario players whenever opportunity offered, much to the disgust and annoyance of spectators and the men engaged in the game.

The result of Dr. Schlieman's excavations at Tiryns turns out to be very important. The buildings he has discovered consists of a palace and two temples. The arrangement, size and position of these agree in the most remarkable manner with those of the temples and palaces of the second prehistoric city at Hissarlik, and thus help to settle the date of the latter. In spite of the wall paintings, the remains at Tiryns must be older than those at Mycenee, since, besides the archaic pottery found among them, large numbers of obsidian implements have been disinterred.
