Bring in Immigrants.

The solution of more than half of the politiall troubles that now beset Canada lies in the early and rapid settlement of our great Northwest. What Canada wants, in fact what every Province wants, is a steady stream of immigration, either made up of our own people who, have settled in the States, or if pesible from the people of Europe, who are believe it will pay all the incial governments, and certainly e Federal Government, to go actively into the business of securing immigrants of the

right stamp for our unoccupied lands. Money liberally spent, and efficiently spent in this direction, will pay tenfold. Never mind what the sgitators and the preachers of despair may say in opposision to such a course, but go shead and get the people on the land. What Canada now wants to make a country, is people more than anything else, and people can only be got to come into the country by treating them liberally and showing them its

"What's in a Name ?" Shakespeare said there was nothing, but there is. Would Cassar have had such notoriety if his name had been Catel W. Pickerssill? Think of Patti drawing \$700 a night if the bill-boards announced her as Jane Brown! The idea is absurd. Dr. Pierce's Piessant Purgative Pellets is a name that has made a record these tiny, sugar-costed pills cure sick and billous headache, howel complaints, internal fever and costiveness.

When a manufacturer, from years of observation, has so completely satisfied himself of the universal satisfaction given by his products, that he feels fully warranted in selling them under, a certificate of guarantee, it is very natural to believe that such a producer has implicit confidence in the merits of his goods, and that, too, not without good reason. Such confidence is possessed by the World's Dispensary Medical Association of Buffalo, N.Y., in Dr. Pierce's Family Medicines, and hence his "Favorite Prescription" is sold by druggists, as no other medicine for similar purposes ever was, under a positive guarantee that it will in every case give satisfaction or money paid for it will be refunded. It cures all those distressing and delicate ailments and weaknesses positiar to women. It is not necessary to enumerate the long catalog of detangements, both functional and organic, of the female system which this marvelous remedy overcomes. They are, aims I but too well known to most females who have attained womanished to need mere than a him to make them plain to their understanding.

The evil's resulting from habitual costiveness are many and serious; but the use of harsh, drastic purgatives is quite as dangerous. In Ayer's Pills, however, the patient has a mild but effective aperient; superior to all others, especially for family use.

Constipation

Is a universal and most troublesome dis order. It causes Headache, Mental De pression, impairs the Sight and Hearing, destroys the Appetite, and, when long continued, causes Enlargement of the Liver, Inflammation of the Bowels, and Piles. Constipation is speedily cured by Ayer's Pills.

For a number of months I was troubled with Costiveness, in consequence of which I suffered from Loss of Appetite, Dyspensia, and a disordered liver. My eyes also troubled me. I was compelled to wear a shade over them, and, at times, was unable to bear exposure to the light. I was entirely CURED BY USING

three boxes of Ayer's Pills. I have no hesitation in pronouncing this medicine to be the best cathartic ever made.— James Eccles, Poland, Ohio. I suffered from Constipation, and, consequently, from Headache, Indigestion, and Piles, for years. Ayer's Pills, which I took at the suggestion of a friend, have given me effectual relief. I commenced taking this remedy two months ago, and am now free from Constipation, the removal of which has caused my other troubles to disappear and creatly im-

troubles to disappear, and greatly improved my general health. — W. Keeler, Amherst. Mass. I suffered from Constipation, which assumed such an obstinate form that I feared it would cause a stoppage of the bowels. Two boxes of Ayer's Pilis curied me, completely.—D. Burke, Saco, Me.

This is an age of progress. Science, art and literature have all made gigantic strides. The earth now wears Shakespheare's girdle. Ma chinery has been brought to a pitch of perfection that would make our grandfathers wink if they could but see it But to our mind one of the most marvelous improvements of the age has been brought to our notice recently. A wealthy and well-known outlen with a large and philauthropic heart has surveyed out a large tract of land to the north of Toronto in lots 25 to 33 feet by 125 to 100 feet deep and is selling them on the following remarkable terms. The price at present is \$185 per lot, including all interest, payable \$6.50 down and \$1.50 per month until balance is paid, but should abe purchaser die at any sime after one year, his wife, or father or mother, or any relative the may appoint will receive a clear deed without any turther payment whatever. The remarkable feature about this scheme is that the market value of land to-day is from \$5. to \$6 per foot, and the great question is how this grand, achievement is accomplished, as long before the land can be possibly paid for it must be worth at least four times the present price. Mr. McQuarrie, No. 4 Shafteabury-place, Shaftesbury-avenue, or C. W. Deimis, 337 Yonge-street, or Herbert Clarke, 563 Front-street east, Toronto, will be happy to give all further particulars and take all intending purchasers to see the lots.

A Toronto Real Estate Baron's Salmon Fishing.

[From The St. John, N. B., Sun.]

Although in the first of the season the Nepisiguit River made a poor show, the record of the past two weeks has done much to sustain its reputation as a salmon river. The late rain had its effect. There are several parties camped at the fishing grounds from the Rough Waters to the Grand Falls and their luck during the past fortnight has been unmistakably good. As an instance, Messrs, J. J. Threlskeld of Toronto and Charles Shoriff and Drs. Kingsbury and Gerchell of Philadelphia fished the Fist Rock Pool at Papineau Falls, the two parties fishing one red every alternate day from the Sth to the 13th lust, viz., five days, the result being a catch of 76 salmon and grilse to say nothing of a quantity of excellent trout. The Flat Rock Pool was leased by the Nepisiguit Angling Club of Bathurst to Messrs. Threlkeld and Sheriff, who enjoyed their sport hugely. Do no violence to the liver and general system by repeated doses of mercury in the shape of calonical and bine pill. Many persons thus dose themselves even without the advice of a physician. The best substitute for such pernicious drugs, and the use of which is never followed by disastrous effects upon the general health, is Northop & Lyman's Vegetable. Discovery and Dyspeptic Cure, which permanently tones the stomach, regulates the blowles, purifies the blood, and gives a healthful glow to the cheek.
