Wife Cured by Lydia E. Pinkham's Vegetable Compound

Des Moines, Iowa. - "Four years ago I was very sick and my life was nearly

stated that I would never get well without an operation and that without it I would not live one year. My husband objected to any operation and got e some of Lydia E. Pinkham's Vegetable Compound. I took it and commenced

to get better and am now well, am stout and able to do my own housework.

I can recommend the Vegetable Compound to any woman who is sick and run down as a wonderful strength and health restorer. My husband says I would have been in my grave ere this if it had not been for your Vegetable Compound."—Mrs. BLANCHE JEFFER-

son, 703 Lyon, St., Des Moines, Iowa.
Before submitting to a surgical opera tion it is wise to try to build up the female system and cure its derangements with Lydia E. Pinkham's Vegetable Compound; it has saved many women from surgical operations.

## NOTE AND COMMENT

The Military Service Act provisions against inciting to disobedience of its provisions are to be put into effect in Montreal. The irresponsible agitators may not now go beyond certain limits without risking heavy penalties. Fortunately the great majority of Canadians can continue to express their opinion on the Military Service Law without being liable to arrest.

The most remarkable effect of the cold which a member of one of the Antarctic expeditions noticed was the loss of sense of touch in the fingers. It was almost complete. Suppose you wanted to look for a knife in your kit-bag," he said, "you would get it in your hand and not know it. It was the same with everything we handled. We saw that we picked it up, and saw that we held the article; we could not feel that we had He added that it was not possible to shave because the skin became irritated and sore, while if the beard grew too long it attracted moisture and then froze into a block. For the woman whose chief business is housekeeping, the uncooked cereals will make the greatest return for the money spent. A cent's worth of oatmeal when cooked is as much as the very heartiest laboring man can eat. Two cent's worth of answer. One came down a Russian, he cornmeal makes a breakfast for him said; the other landed on the telegraph wires and came down a Pole. and there will be some left to warm over for supper. Two cents' worth of ready-to-eat cereals contains less nourishment. For uncooked cereals the housekeeper expends time in preperation, and for the ready-to-eat cereals she expends money. If one wants to be economical, use more bulk cereals.

#### Man Who Stole Blanket

An officer, writing on the British Tommy at the front, stirs some thought.

The modern soldier, who is just the ordinary Englishman in uniform, under discipline and living in the presence of death, is, of course, no plaster saint. One man stole a blanket without the slightest concern, but risked his life to save the owner of the blanket. Not in any spirit of remorse, but for the simple fact that whereas it would be unreasonable to suffer cold and discomfort instead of another man, it is necessary to risk wounds and death itself in order to save the same man's life. The willingness to give life itself appears greater than the willingness to live without those things commonly accounted to make life worth living.
What will be the lasting effect on

those who pass through the furnace of war and survive? The sense of comradeship and fellowship that has grown up in the field will not vanish. But there may be trouble for profiteers at home.

There is no fear of any persistence of militarism. The soldier believes in discipline and recognizes its value, but he does not like it. He would hardly be human if he did.

When peace comes the man of the upper class and the working men, who have made equal sacrifices and have given alike so gloriously will unite in an effort for peace, and for a new and more blessed England. But there is a note of uncertainty and anxiety in their prognosis.

## Heroic Deed of an Alberta Man

The Canadian Press correspondent, writing from the Canadian Headquarters in France, says: One of the most heroic deeds put on record in the Canadian corpse since the war began is that of a runner of Colonel Ormonde's Alberta battalion. The company to which he was attached was hotly engaged near the chalkpits, and he was given a message to take back to the battalion headquarters, over ground on which shells were falling continuously. He had not gone far when he was seen to fall, and another runner was at once sent out with a duplicate of the message. The second messenger was killed midway on his journey, but two hours afterwoods the first one arrived at the battalion headquarters with his left arm blown off near the shoulder. His terrible wound had been roughly dressed in the field, and the messenger, far spent from loss of blood, had then staggered on to his duty. He was removed in a dying condition, but carried his message to its destination.

In some cases they cause vomiting through their action in an unsound stomach, but this is only a manifestation in their cleaning power no indication that they are hurtful. #### What "Boche" Means

The term "Boche" as applied to the German soldiers, isn't a complimentary one, nor anything new. It is an old term in France and means "thick-headed." It is about equivalent to our American term of "bone-head." In fact, the word comes from the Italian "boccia" and means a round ball of exceptionally hard wood used in playing ten pins. But just how it came to be applied to the German soldiers we do not know. As a general rule, nicknames given to soldiers are not unkindly. The French soldier is called "poilu, which means hairy, because in the early French wars, the soldiers had no opportunity to shave or have their hair cut, and when they returned from the army, they had a rough, hairy uncouth appearance. But there was nothing unkindly in calling them "poilu." The English are call ed "Tommies" because of a fictitious popular British soldier made immortal in verse and given the name cf "Tommy Ackins." During the Civil War the Union troops were called "Yanks" as an abbreviation of the word "Yankee," and the Confed-erates were called "Johnny Rebs," from "rebel." But never was there bitterness of sarcasm in the terms But now we have the German soldlers generally called "Boches," or "Boneheads," and certainly not as a term of endearment. The appellation "Hun," which one sees in print frequency, also is a term of reproach and means that the Germans' present warfare and tactics savor the barbarity of the Huns, who, under Attila, came near overrunning Europe and destroying civilization. There were many of the Huns left in the region that has since become Germany, but the German people, as a people, are not descendants of the Huns.—Columbus Dispatch.
