The Silent Heroes of the War

THE men of the Merchant Marine—do you ever give them a thought?
 The whole submarine campaign is aimed to frighten this non-combatant force off the seas.
 For then—
**Britain, France, Italy would face starvation.
 Our armies could not fight.
 Canada would be wrecked commercially.
 The fight for liberty would be lost.**

Yet governments make no official recognition of this heroic body of 300,000 men who toil day and night in danger of death. No provision is made for pensions, or relief for their dependents.
 We must admit our debt to the widows and orphans of the 15,000 men of the Merchant Marine, who have gone down, victims of the U-Boat. Our cry must be—

"They Shall Not Want"

In his famous speech of August 8th, 1918, Premier Lloyd George said:
 "During the past two years Germany has made two distinct attempts to force a decision—one on the land and one on the sea. The land offensive might have been disastrous, but the sea offensive, if it had succeeded, would have been final. If the submarines had succeeded, our armies in France would have withered away. No Americans could have come over to assist us and the French troops. Ammunition could not have been shipped and we could not have sent the necessary coal and material to enable France and Italy to manufacture munitions.
 "If France, Italy and Great Britain were threatened with starvation the war would have been over before this stage had been reached."

THE soldier is rightly remembered with gifts, separation allowance and pension. He is honored, as is his due.

The men of the Navy are provided for and their dependents are not allowed to suffer want.

But the seamen of the Merchant Marine—facing death in a hideous form at their daily work, risk all at the call of duty.

It would be a lasting disgrace to allow the widows and orphans of the noble 15,000 to suffer hardship, other than the loss of their dear ones. Those who died on the sea are calling to you now.

AN OIL THAT IS FAMOUS.—Though Canada was not the birth-place of Dr. Thomas' Electric Oil, it is the home of that famous compound. From here its good name was spread to Central and South America, the West Indies, Australia and New Zealand. That is far afield enough to attest its excellence, for in all these countries it is on sale and in demand.

AN ALWAYS READY PILL.—To those of regular habit medicine is of little concern but the great majority of men are not of regular habit. The worry and cares of business prevent it, and out of the irregularity of life comes dyspepsia, indigestion, liver and kidney troubles as a protest. The run-down system demands a corrective and there is none better than Parlee's Vegetable Pills. They are simple in their composition and can be taken by the most delicately constituted.

The bureau of standards has found that better glass melting pots can be made of clays found in United States than of clays imported from Germany, heretofore considered necessary.
