Annals of
Saint Anne de Beaupré

Chronicle of the Shrine

Pilgrims in January. — The month of January also brought its contingent of pilgrims. The railway carried an average of 20 a day making a total of 600 pilgrims who visited the shrine of Beaupré during the first month of the year 1900. Many of these devout servants of Good St. Anne came from the most remote parts of Canada and even from the United States. Thus, on the 10th January, the register bears the signature of a pilgrim from Grand Rapids, Michigan. A religious from New-York, who was ill and given up by the physicians, came to ask the great Thaumaturga of Canada to cure him.
