

# **BIG BUTTER CONTEST**

**National Buttermakers' Association**

WON AS USUAL BY USERS OF

## **De Laval Cream Separators**

On March 11th, 12th and 13th there was held at Minneapolis, Minn., the big annual butter scoring contest of the National Buttermakers' Association. 504 of the best buttermakers in the United States competed in this contest, which makes the results especially interesting and important. The first prize was won by J. C. Post, Hector, Minn., with a score of 98%; the second prize by E. A. Blomquist, Center City, Minn., with a score of 97½%, and the third prize by G. P. Sauer, East Troy, Wis., with a score of 97%. All three of these victorious buttermakers, of course, use De Laval cream separators. This contest, as has every similar contest held within the past sixteen years, shows a complete victory for butter made from De Laval separator cream. A clean sweep of all highest prizes was made by De Laval butter at the big National Dairy Show held in Chicago last October, as well as at sixteen of the more important state fairs of 1907. Going further back, De Laval made butter received the Grand Prize at the St. Louis World's Fair, as well as the Grand Prize at the Paris Exposition. Invariably in these big contests more than 90% of the contestants who receive a score of over 90% on their butter have been found to be DeLaval users. In hundreds of such contests the world over during the past twenty years, the superiority of the De Laval Separator over all others for making fine butter has been conclusively proven. A postal card will bring our handsome new catalogue illustrating and describing the new 1908 improved De Laval machines in detail, and affording a complete education in the production of the finest quality cream for making prize winning butter.
