"ST. AUGUSTINE" Sacramental Wine.

The REV. DR. COCHRANE writes:—

BRANTFORD, May 23rd, 1895.
Messrs. J. S. Hamilton & Co.
GENTLEMEN,—The St. Augustine Wine used in my own church on sacramental occasions, as well as in many other churches, I have always heard spoken of in the highest terms and is admirably suited for the purpose. Its deservedly high reputation for purity can be relied upon. The unfermented grape juice also commends itself to those who prefer that the wine should not be fermented and should have a large and increasing sale in our Presbyterian and other Churches.

WM. COCHRANE.

This shows a decrease of £4,000, the total being the lowest for something like seven years. On the other hand, the membership has advanced from 68,997 to 67,632, an increase of 635.

THE LAND OF EVANGELINE.

ONE OF THE MOST ROMANTIC SPOTS IN CANADA.

But it is No More Free from the Ills to Which Flesh is Heir than Less Favored Localities—An Account of a Strange Malady From Which a Gaspereaux Farmer Suffered.

From the Acadian, Wolfville, N.S.

Perhaps there is no more beautiful or picturesque spot in Nova Scotia than the valley of Gaspereaux, in the "Land of Evangeline." Winding its way through the centre of the valley is a beautiful little river, while nestled at the foot of the mountains which rise on either side to the height of hundreds of feet is the romantic looking little village of Gaspereaux. About two and a half miles from the village resides Mr. Fred J. Fielding, one of the most thrifty farmers in this section of the country. Your correspondent called upon him and found a very genial, intelligent and apparently a very healthy looking man. In reply to our question, Mr. Fielding said, "Yes, I was near to death's door at one time, but thank God I am a new man to-day. You see, he went on, that pump in the kitchen, beneath is a well about 20 feet deep, which was the cause, I think of all my illness. I went down last fall (1894) in it to clean it out and was only a short time at the bottom, when I took with a severe pain at the back of my head and a burning sensation in my throat and lungs, such as caused by the inhalation of brimstone. A sort of stupor also was gradually coming over me when by a huge effort, I succeeded in regaining the kitchen once more. A lighted lamp let down became extinguished, thus showing that the accumulation of gas had caused the trouble. The pain at the back of my head continued to trouble me and one day while working in a back field I suddenly lost the use of my left eye, right arm and left leg. At times I could not speak but towards evening I began slowly to grow better. The next day at about the same time I was seized again in the same manner. I now called in our family physician who told me that a blood vessel had burst in the back of my head. He left me medicine. The pain in the back of my head never left me and I continued to feel miserable. About two months after this second attack while sitting in the post office of the village I was suddenly seized again and getting out my horses and wagon started for home. I had not gone far when the lines dropped out of my right hand and I again found myself blind in my left eye and the right arm and left leg paralyzed. The horses now carried me home but passed the house in the direction of the barn. My wife thinking I had gone on to the barn paid no attention for perhaps 15 minutes, when she sent one of the children to see what was keeping me. At this time I was unable to speak and had to be assisted into the house. Before bed time I began to recover somewhat and felt fairly well the next morning, but was again seized during the day in same manner and the report reached the village that I was dead. Neighbors came flocking out expecting that it was true. As the medicine I had tried seemed to do me no good, I now thought I would try Dr. Williams' Pink Pills, and by the time I had used six boxes the pain had left my head and I felt as good as new. I now ceased using them for about a month when I thought I felt a recurrence of the pain at the back of my head. I sent again and got three more boxes and used them. It is now about five months since I used the last pill, and I have never had a recurrence of the attack, besides I feel myself a new man. I am now 39 years of age, and have always worked on a farm and never enjoyed work better than last summer and autumn and am positive Dr. Williams' Pink Pills cured me. I now always keep them in my house and when my wife or children have any sickness our resort is to this medicine and always with the very best effect."

Dr. Williams' Pink Pills are offered with a confidence that they are the only perfect and un-failing blood builder and nerve restorer and when given a fair trial disease and suffering must vanish. Sold by all dealers or sent by mail on receipt of 50 cents a box or \$2.50 for six boxes, by addressing the Dr. Williams' Medicine Co., Brockville, Ont., or Schenectady, N.Y. Beware of imitations and refuse trashy substitutes alleged to be "just as good."

WORKED WONDERS

IN THIS WOMAN.

Never Knew a Medicine that Did So Much Good.

A JOYFUL EXPERIENCE.

Joyfully and Gratefully Told by a Nova Scotia Lady.

We all dread specific diseases, like fevers, that are prone to turn disastrously before their length has been run. And yet, in their worst form, despite the immediate danger that at certain stages may show itself, they cannot be compared to the distress that comes to the victim of nervousness and the sufferer from general debility. Let the system become run down, without one knowing just what may be the cause of it, and there is nothing surprising that those so afflicted lose heart, and suffer physically and mentally, as those laid on serious beds of sickness do not suffer. For one long year Mrs. James A. Publicover, of Lunenburg, N.S., ranked among this class. She dragged out a miserable existence, arising in the morning wishing it were night, and retiring at night wishing it were morning. Completely prostrated, she had not energy for any work. Her appetite had failed her, and strength was gone. Of course she tried doctors' medicines, and various other medicines, but over her own signature she tells those who suffer like her that she found no relief until she had learned of South American Nervine, and taken it herself. Fully restored to vigorous health, it is not surprising that she should say that this is the very best medicine in the world, and this experience she backs up by recommending it to her friends, whom, she says, have also found it good. As a health-builder, a flesh-builder and a strength-builder South American Nervine is pre-eminence a wonderful medicine, and there is not another remedy that possesses the singularly effective properties that it does for all cases of this character.

Elaborate preparations are being made in Edinburgh for the next annual Scottish convention of the Y.P.S.C.E., to be held there this month.
