WOOL.—There has been quite a marked advance in imported wools since we last reported in this line, due to scarce supplies and improved demand, together with a strong market in England. Holders are now asking as high as 20 to 21c. for Cape, and 20 to 23c. for Australian.

TORONTO MARKETS.

TORONTO, Sept. 4th, 1890.

DRUGS.—Business generally is reported on the quiet side. We note that nitrate of silver is again advanced in price, in sympathy with the increased values of silver-bullion. Glycerine is likely to be easier; there is no reduction in camphor; cream of tartar and tartaric acid are firm. Castor oil is sustaining its price well. Heavy chemicals are very firm. Prices all round may be said to be unchanged.

DRY GOODS.—There has been a large influx of buyers into the city this week, and the common report is that they are buying sparingly, but are all in hopeful spirits. The purchases of dress goods are generally made up of henriettas, plain French goods, velveteens and cashmeres; cashmere hosiery and gloves are also moving well. There is rather an active demand for mantle materials in new woollen fabrics for ulsterings and long mantles. In trimmings, black silk velvets and mantle plushes have had a good sale. In men's goods, overcoatings and underclothing are among the lines in request. Travellers are all in attending to their customers and kept pretty busy. This is the best week for the dry goods houses; for during exhibition week the city is too crowded for merchants to put up with the accommodation available. Prices of cotton

goods appear firmer; in domestic woollens, too, there is a good feeling. The millinery openings this week are well attended and the overflow from them brings some griet to other mills.

FLOUR AND MEAL.—An encouraging amount of business is being done in both flour and meal. Prices of flour are generally the same as last week, with the exception of Manitoba strong bakers, which is now quoted at \$6.00 to 6.30 per barrel, an increase of 25 to 30c. Straight roller has changed hands at \$4.60 and 4.65; extra at \$4.35. The meal market is a little more active, with prices as quoted per current list, and bran is very scarce and dearer, car lots selling at \$14 per ton, smaller quantities \$14.50.

GRAIN.—The local wheat market is quieter and easier, in sympathy with the English and American markets. No. 2 fall has brought 97c. on Grand Trunk West, and \$1 on Northern last week. There are no changes in quotations to note, although prices are firm at present figures. Barley has not commenced to move yet, and prices are purely nominal. Oats are easier, and have receded somewhat in price. They are now selling at 41 to 42c. per bushel. The recent high prices for oats brought into the market a large supply, which caused something of a glut. Stocks are still comparatively large. Peas are scarce, firmer, and in demand; not many offering, which will be remedied as soon as the new crop begins to move. Corn and rye purely nominal; no transactions recorded.

GROCERIES.—Business is reported as a rule of satisfactory volume, with improving prospects based largely upon the crops. In canned goods, the special feature worthy of note is the small quantity of peas put up this season, which is so short that prices are already on the upward movement. We quote Bowlby's 2's at \$1.20, an advance of 5c. per lb. over last week's quotations. The last fortnight has been very unfavorable for the tomato crop, and unless we are favored with more genial weather during the next two or three weeks,
