DK-2	Dog Kennels		x

Expo Centre Preview:

During the 1985 Expo Centre operating period, we had four merchandise facilities operating. Two were run by a concessionaire and two were operated by the Corporation. None of the food facilities open were run by concessionaires. This was an excellent opportunity to test our procedures and systems as well as to give our staff hands-on operating experience and to train supervisors for the main period. All of the units produced better than projected results.
