

Aside from the somewhat unique market for Gaspé cure, there is a general preference for choice medium and small, both white and black wings, of moisture content equivalent to the European 7/8. There is also interest in "filetoni", or salted cod fillets of 1 1/2 to 2 lbs size. It must be stressed that the product must be comparable to the Norwegian in both quality and price, particularly in view of the Norwegian advantages of reputation, ease of transport/communications, and the relatively stable currency exchange rates enjoyed by EEC and EFTA country suppliers.
