

March 13th, 1925.

Hon. Mr. Justice Embree,
Regina, Saskatchewan.

My dear Embree:-

I am attaching herewith copy of
a letter I have sent to McAra.

Will you help me to straighten
out the trouble at Regina, if there is any. Last
Post Fund is an institution with a Dominion Charter
and rules and regulations which have been approved
by the Government. We must transact our business
in a regular way and there are certain returns
called for which we must make to Ottawa. We cannot
complete these unless we have complete returns from
all the branches. I may say that all branches
throughout Canada promptly comply with the regulations
except Saskatchewan, and every meeting our Secretary
reports either no returns or incomplete returns from
that branch.

I am satisfied the existing
organization is a good one and is doing good work.
I may say, for your information, that Headquarters
Branch here has nothing whatever to do with the
amount of money each province gets from the Dominion
grant. The Department of Soldiers' Civil Re-establish-
ment sends us the amount and also tells us how much
must be sent to each province. We here in Montreal
supplement the Dominion grant by collections from
the citizens, otherwise we would not have nearly
enough to keep going. Head Office Branch also has
buried many all over the continent. The obituary
