Perhaps you are one of the not infrequent men who think they are unable to buy clothing ready-to-wear, from stocks, because of their build. If so, we have some very concrete arguments to offer in the form of handsomely-designed, well-made, ready-to-wear suits and coats, cut according to the new and perfected system, which makes a good fit all but infallible. The cloth used in these garments is as good as you will usually obtain from custom tailors in suits costing well nigh twice the amounts. The workmanship and styles we will vouch for.
