

INDUSTRIAL STOCKS FAVORED BY BUYERS

Interest in War Shares Also Continued Unflagging at New York.

STEEL ISSUES SOUGHT

Motor, Tobacco and Petroleum Also Figured Prominently in Transactions.

NEW YORK, Aug. 9.—The demand for industrial stocks again determined the character of the market today.

In the early transactions the market was chiefly characterized by the buying of steel issues.

Steel issues again were the favorites. U. S. Steel was traded in heavily, and touched a new high mark for the day.

Motor, tobacco and petroleum shares developed pronounced strength. These high records were established by General Motors.

The report that war contracts amounting to more than \$200,000,000 were to be let was kept up by the bullish interest in the market.

Headlines appeared in Canadian papers, stating that the regular dividend was not received from Montreal until after the close.

There was an unusual break in exchange rates. Exchange on London declined 4.75% a new low record for the day.

United States and Panama bonds advanced a quarter to a half on call.

CERTAIN INDUSTRIALS ABSORB INTEREST

Toronto Speculation Entirely Given Over to a Few Specialties on Stock Exchange.

FORECAST OF YIELD DEPRESSED WHEAT

Government Crop Report, However, Less Bearish Than Was Expected.

ALL CEREALS LOWER

Favorable Weather and Heavy Receipts Pulled Corn Down.

CHICAGO, Aug. 9.—Wheat sagged in value today, owing largely to prospects of a bearish crop report from Washington.

As a matter of fact, however, the government figures, which were made public after trading hours, did not prove so big as the more radical bears had predicted.

Closing prices were unsettled at 1/4 to 1/2 to 3/4 to 1/2 down, and oats off 1/4 to 1/2 to 3/4 to 1/2 down.

Suggestions which were current that the government crop report would indicate a yield of a billion bushels, appeared to fascinate many traders in wheat.

Washington authorities a month ago, aside from the government report, heavy receipts here tended to weaken the market, and so also did flustering crop reports from the spring wheat states and from Canada.

Favorable Corn Weather. In corn, as in wheat, the government estimate failed to meet fully the figures expected by the bears.

In time, however, to prevent the corn market from easing off, account of favorable weather, and a material increase in receipts.

Oats, like other cereals, made less bearish showing in the government report, being held back by the better conditions for threshing and a material increase in receipts.

Headlines appeared in Canadian papers, stating that the regular dividend was not received from Montreal until after the close.

There was an unusual break in exchange rates. Exchange on London declined 4.75% a new low record for the day.

United States and Panama bonds advanced a quarter to a half on call.

BETTER PRICE FOR RASPBERRIES PAID

Most of Those Coming to Toronto Market Were Wet, However.

FINER QUALITY CAME

Nicer Grade of Cherries Received, But Only Few Black Currants.

Raspberries were a better price yesterday on Saturday, selling at from 8c to 12c per box, the bulk going at from 10c to 12c, but were mostly wet.

Cherries were not very good quality and sold at from 8c to 10c per box. Black currants were not shipped in small quantities, and the bulk of them sold at \$1.40 to \$1.50 per 11-quart basket.

Cherries were a little better quality than have been coming in, and brought from 10c to 12c per 11-quart basket.

Black currants were not shipped in small quantities, and the bulk of them sold at \$1.40 to \$1.50 per 11-quart basket.

PRICES ARE EASIER

Little Speculative Interest on Standard Exchange and Trading Becomes Dull.

The mining market showed no improvement yesterday and if anything was exceedingly lethargic with the public participation still small.

Trading in the stock market was comparatively free, but there were few without much effect on the price.

There was a general feeling of ease in the market, and the price of wheat was higher.
