it their intention to only admit to their clation those makers of wheels who unfacture all the parts that go to make their blcycle in their own factory and ar all assemblers? I understand that all makers in Canada are merely assemblers of cycle parts. Not one makers of cycle parts. Not one makers in unfactures his own tubing, tires, balls, s. fork sides, spokes, nipplers, cork, ps. valves, pumps and many other acceptance of the chains or pedals for their cels. Some of those firms who have in invited to join this proposed Simonarce organization do not even make their a drop forgings or hubs. I do not ink it would take up very much space enumerate the parts that go to make a wheel that the firms of the above sociation do manufacture.

J. C. Graham, is in difficulties, owing to a writ having been issued against Mr. Graham by Mr. H. P. O'Connor of Walkerton, at the instance of the trustees of the Crystal City Lodge of Oddfellows. In a former statement, he showed assets of about \$28,000, against liabilities of \$19,000. Included in the assets were a 200-acre farm, with buildings, valued at nearly \$7000, and loans amounting to \$19,000. He then owed the Merchants' Bank \$14,000, but the latter institution would be fully secured.

received the following despatch from New York to-day:

The stock market was dull this afternoon and steady to firm in tone. There was no feature and no material changes. The advance in Lake Shore is now explained by the announcement that a syndicate has been formed to take \$50,000,000 of the company's new 3½ per cent. first mortgage gold bonds at 102½ to replace the old outstanding mortgages, which mature during the next five years. This proposition has already been accepted on behalf of some \$8,000,000 of the old bonds. The general holders of the latter are to have an option to exchange them for the new bonds before maturity. The transaction, of course, involves an enormous saving of interest to the company, and the expectation is that the dividend rate on the stock will be advanced to 7 or 8 per cent. Loans on foreign exchange, it is said, are being renewed. Foreign exchange is quoted at 4.87 to 4.87% for demand sterling. The President has vetoed the Immigration Bill. The Manhattan directors met to-day, but did nothing important. President-elect McKinley has arrived in Washington. In the closing transactions stocks were steady at slight reactions.

CHICAGO GOSSIP. Henry A. King & Co., 12 King-street east, eccived the following despatch to-day rom Chicago: received the following despatch to-day from Chicago:

There was a brisk trade in all speculative markets at opening, and better feeling was noticeable in all the pits. The cables, consols, the foreign prospect and statistics were all helpful to wheat, and the advance would have been less surprising, had it been four times as great. The wheat trade had enough bull news to-day to send wheat considerably higher. The Liverpool cables were very strong, showing id advance for the day. The European political muddle looks more serious than at any time previous. Bradstreet's showed a decrease of 4,000,000 bush. Cables reported heavy rains over France, and conditions such as may easily result in further crop injury. Minneapolis reported an advance of 10c in flour and sale of 15,000 barrels. The Northwest cars were 359, against 319 last year. The clearances were equal to 214,000 bush. St. Louis wires that the crop reports coming in from the field are the worst ever heard of for this time of the year. These reports are coming from the most reliable millers and grain dealers in the trade, who are backing their reports by buying wheat in large quantities. We see nothing in the situation to change our opinion regarding the advance in wheat.

Corn and Oats—Both markets ruled steady within a narrow range of 4c. There

Corn and Oats—Both markets ruled steady, within a narrow range of 4c. There was a little selling reported of corn by Baldwin and Farnum. Receipts were 476 cars corn and 299 cars oats. Provisions—Were only barely steady, with a lower tendency. The volume of trade is light. There is a good cash demand, and we think soft spots are the only places to buy on.
