The Liverpool Corn Trade News estimates that the reserves in importing and exporting countries on Aug. 1, 1898, will be 111,000,000 bushels, or 154,000,000 bushels less than the average of the dast four years.

Crop Estimates.

Reerbohn estimates the world's wheat crop at 344,000,000 bushels more than in 1897.

Modern Miller says: The winter wheat crop shows no material change from last week, many sections advising improvement of late, while others are to the contrary. It is plainly evident as threshing proceeds that former crop estimates have been exaggerated, both as to quantity and quality. Export business light.

strong, with gains for the day.

A New York wire says; Granger stocks were inactive, only 8000 shares of St. Faul and R.I. and about 12,000 of B.Q. being dealt in. The stocks, however, were well held, and it was easy to advance prices. The dissolving of the injunction obtained by St. Paul against the South Dakota Railway Commissioners may be important, and certainly was a surprise. The Commissioners desired to put into effect lower rates, but were enjoined. Developments will be watched with interest. Rubber stocks were quite active yesterday, and stocks were quite active yesterday, and their friends promised that this activity will increase. They say that both the pre-ferred and common stocks are good pur-chases.

Canadian securities ruled quiet to-day, but strong in sympathy with New York and London. C.P.R., Richelleu, Cable, Northwest Land preferred, and Toronto Electric were a fraction to 1 per cent, higher than at yesterday's close. On the Montreal Board, Montreal Gas, Bell Telephone and Toronto Railway were up.

Wall-street securities exhibited a very strong tone to-day, and advances were chronicled throughout the list. The Vanderbilt stocks led the way, and the persistent reports that Spain will sue for peace helped the appreciation in the prices of these to extend to the other stocks.
