CANADIAN ART EXHIBITION

Magnificent Collection of Pictures Being Shown at Galleries of the O. S. A.

NOTABLE PERSONS' PORTRAITS

Are a Feature of the Exhibition—Blair Bruce's Picture in Place of Honor.

Last evening the twenty-second annual exhibition of the Royal Canadian Academy of Arts was opened in the gallery of the Ontario Society of Artists and it is a magnificent collection of pictures. The best products of Canadian art are shown, as the rule excluding all pictures previously exhibited was put in abeyance, so as to permit of the Canadian display for the Pan-American being exhibited.

Portraits are taking a more prominent place of late and this year there is a considerable number of them. Robert Harris has several excellent ones. E. Wyly Grier has one of Mrs. J. K. Kerr and one of Mr. Frederick Wyld; also A. D. Patterson's portrait of Dr. Watson of Kingston might be mentioned. M. J. Foster's most important one is that of John Wesley. In a portrait of Mr. Alf. Larocque, J. W. St. Charles of Quebec shows a good deal of character.

Two good samples of pastels were contributed by Miss Tully, while two other ladies, Misses Hilliard and Bell, have some excellent portraits. Miss Ethel Heaven's "Fisherman's Wife" is well arranged in color and catchy in the simple and natural attitude.

The Place of Honor.

Among the other paintings, the principal attraction from the artistic point of view is a splendid work, "The Bathers," by H. Blair Bruce, who has received the place of honor from the Hanging Committee. Another successful one is "Crossing the Ford" by Homer Watson, who has grasped the aspect of a passing storm. Horatio Walker, William Hope, St. Thomas Smith, and McGillivray Knowles are well represented.

In the water colors are many excellent works. William Brymner has a realistic scene, "Clearing Weather." The one that will attract the most attention, however, is by J. D. Kelly, entitled, "The First Ship on Lake Erie." Among others are "Monte Carlo" and "A Distant View of Venice," by C. J. Wray; and a fine piece, "Sunny Summertime," by M. Matthews.

Sculpture Exhibited.

Sculpture is quite strong. Excellent busts of Lord Strathcona and the Countess of Aberdeen are exhibited by Mrs. Hamilton MacCarthy, while Miss Ward and Messrs. Banks, Alward and Mackenzie have some creditable work.

In the ante-room a fine collection of decorative designs completes an excellent exhibition of art.

TRIED TO SUICIDE.

Napanee Woman Took Carbolic Acid in Kingston, But Will Recover—A Sudden Death.

Kingston, April 12.—The Kingston Board of Education have refused to rescind a resolution making the vaccination of Public School children compulsory; 200 children will not be admitted unless medical certificates are produced.

Mrs. Harriet Greaves was found dead in her bed this morning. Death was caused from heart disease.

Agnes Abrams of Napanee attempted suicide in this city last night by taking carbolic acid, as the result of a quarrel with her lover. She will recover.

The Great Turkish Rug Auction.

Special attention is called to the gigantic auction sale of the largest and most magnificent collection of Turkish and Persian rugs and carpets ever offered by public auction in Canada. The sale takes place, commencing on Wednesday afternoon at 2.30, at No. 40 East King-street (near Toronto-street). Catalogs may be had on Monday on application. The entire stock will be on view on Tuesday afternoon, from 2 till 6 o'clock. Mr. Chas. M. Henderson will conduct the sale.

The Most Popular Pill.—The pill is the most popular of all forms of medicine, and of pills the most popular are Parmelee's Vegetable Pills, because they do what it is asserted they can do, and are not put forward on any fictitious claims to excellence. They are compact and portable, they are easily taken, they do not nauseate nor gripe, and they give relief in the most stubborn cases.

Chas. M. Henderson & Co.'s Sales.

Attention is called to the list of coming auction sales under the management of Messrs. Chas. M. Henderson & Co. Parties requiring their services would do well to give early notice to secure dates.

MR. DANDURAND'S MISTAKES

As Pointed Out by The St. John's, Quebec, News, Referring to the Hamilton Speech.

TOLERANCE OF FRENCH PEOPLE

Was Extolled in Warm Terms, But Some of His Statements Were a Bit Wild.

Montreal, April 12.—(Special.)—The St. Johns News says:

In a speech delivered before the Young Liberal Club of Hamilton on Monday, Senator Dandurand is reported in The Herald to have said, among other things, that, "In St. Johns, where about one-tenth of the people were English-speaking, the mayor was a good Scotchman, Mr. Duncan Macdonald, and before him had been Mr. James O. Cain. In Iberville there were only two English-speaking citizens and one of them had been elected mayor."

Mr. Macdonald, the good Scotchman referred to, has filled an honored grave for 15 months, and it is 15 years since our lamented townsman was chief magistrate of St. Johns, and it will be a surprise to the people of the opposite town of Iberville to learn that there are only two English-speaking citizens in that municipality, or that an Englishman is mayor of the town, altho Mr. Jones is mayor of the neighboring parish of Sabrevois. If the other statements of the learned Senator are as misleading as the foregoing, he would take higher rank as an orator than a statistician.

St. George's Society.

The St. George's Society met last night and completed arrangements for their annual church parade to St. James' Cathedral on the 21st inst. The annual dinner of the society will be held in St. George's Hall on the 23rd inst.

PUBLIC ACCOUNTS COMMITTEE.

Engineer Richardson Examined Yesterday at Ottawa, But Nothing Was Made Out.

Ottawa, April 12.—At the meeting of the Public Accounts Committee this morning, Mr Richardson, electrical engineer, was examined. He was with, but not employed by, Mr. Charleson in the Yukon district. He was employed by the Department of Public Works, and was in the country from March to November, 1899.

At one time there were about 100 men employed. He was examined as to the supplying of the telegraph poles and the utilization of the trees for poles. Mr. Richardson said that from 30 to 40 poles were used per mile, and the line was 600 miles long. This would mean about 21,000 poles.

The Auditor-General's report shows that 6673 poles were paid for. He had finished the work in six weeks' shorter time than was estimated, and, so far as construction went, $20,000 less cost than the estimates. He was promised a bonus by Mr. Charleson, but this had not yet been paid.

He saw a number of parties delivering poles, but did not know under whose direction they were. The placing of the poles was in his charge. He understood the delivering of poles was under contract, but he did not know who was the contractor. Mr. Rochester seemed to be assisting Mr. Charleson in getting out the poles.

Mr. Clancy: Did you hear that he had a contract?

Mr. Richardson: Do you want hearsay evidence from me?

This gave rise to a discussion; and Mr. Tarte said there was no secret, as the Deputy Minister would give the names of the contractors.

Mr. Lancaster pointed out that the contracts might be verbal, and it was perfectly proper that the witness should be examined.

Witness did not know whether Mr. Rochester was engaged as a bookkeeper or not. He had seen him working at the books. He had had conversations with Mr. Rochester in regard to the delivery of poles. He had given him certificates as to the poles delivered, and they did not always agree as to the number delivered. He looked upon Mr. Rochester as representing Mr. Charleson.

As to the trees used, it was a question of economy for the witness, whether it was cheaper to utilize a tree or carry a pole from the river bank, where they were delivered. He directed—where the line would be located, and it was impossible for the party which preceded cutting the poles to tell where he should locate the line. There never was much difference in regard to the number, and he never refused to testify. He testified that all supplies to the party were furnished free by the department. "My expenses were paid," he added.

Mr. Sifton cross-examined the witness, and the latter said he never had any reason to believe that Mr. Rochester or anyone else attempted fraud in connection with the delivery of poles.

Mr. Taylor examined the witness as to the proportion of trees and poles used, and his opinion was that it was about 20 per cent. of trees. The spruce trees were harder than those in the East.

Mr. Taylor examined him as to the spurs used. The straps used on the sample supplied by Mr. Taylor, he said, were lighter than those used. They never used spurs so light as those on the C.P.R., except for a very light man.

AUCTION SALE

Farm Property.

There will, under instructions from Mrs. Thomas W. Smith, be offered for sale (subject to a reserve bid and the existing tenancy) by Henry Russell, at Lambton Mills (Frank Winter's Senate Hotel) on Saturday, April 27th, 1901, at the hour of 2 o'clock, afternoon, the following freehold property, containing about 173 97-100 acres of land and being composed of Lot Number 11, and parts of Lots 9 and 10 in Concession "B" of the Township of Etobicoke, in the County of York.

The farm is on Dundas-street, immediately west of the Village of Lambton Mills and is about 8 miles from Toronto Market, and 4 miles from the Western City Limits. Churches and schools convenient. There is a considerable quantity of woods on the property.

The buildings and fences are in first class condition. The house is a frame house in good state of repair. The barn is 60 feet by 40 feet with 18-foot posts upon a stone foundation with stabling and cellars.

There is also a building 60x27, on stone foundation, stabling under, besides other outbuildings and driving shed. There is also a fine hog pen 25 x 18 and a good hen house.

There are about three acres of young orchard, well into bearing, planted with good varieties of fruit.

The farm is, and has been for many years, used as a dairy and truck farm, for which it is specially adapted, and excellently situated, being convenient to Toronto Junction and Toronto Markets.

The present tenancy expires on April 1st, 1902.

TERMS—The purchaser shall pay down at the time of sale a deposit of 5 per cent. of the purchase money to the Vendor's Solicitors, and execute an agreement which will be produced at the time of sale, for completion of contract.

PUBLIC OWNERSHIP ADVOCATED.

Ald. Urquhart Shows How the City Would Benefit by Controlling Certain Franchises.

Ald. Thomas Urquhart addressed the Socialist League last evening in Forum Hall, on the subject of "Municipal Ownership." He made several references to the position in Toronto in relation to the gas and street railway franchises, and declared that if the municipality operated the street railway system three-cent fares would be a possibility all day, instead of part of the day, as at present. "Monopoly always leads to unjust discrimination," said Ald. Urquhart in broadening out and giving as the logical conclusion of the principle of municipal ownership that of state ownership of railways. "Toronto merchants can ship their goods by way of Rochester to the west cheaper than from here; merchants in Montreal can reach the west at a cheaper rate than merchants in Toronto. Why? Because of unjust discrimination by the railways." Excessive charges, overcapitalization and enormous profits are three great evils of private monopoly of franchises. The City of Toronto has owned its waterworks for many years, and no charge of corruption therewith has ever been made. Some do not wish to go to the entire extent of public ownership, but urge public regulation of franchises. This, however, the alderman showed to be unsatisfactory, and instanced the procedure followed in the litigation pursued in trying to regulate the Toronto Street Railway Company and service.

If Toronto owned the gas works, 60-cent gas would be a possibility; at the present time we cannot have the service on some streets at even any price. If Toronto owned the telephone franchise, every house would have its service. Greater interest would be taken in municipal affairs were the city to take over the franchises existing at the present time. Not the least advantage would be that which would follow to labor. Workmen would be better paid, better hours would be given and better conditions in every way.

Ex-Ald. Asher, in the discussion which followed, heartily sympathized with the question of municipal ownership. Last year 111 cities had been communicated with in the United States, where public ownership had been applied, and not one had a word to say against the workings. Had we the franchises under our wing, eight mills might be the tax rate, instead of twenty, as will be struck this year.

Messrs. Best, Rutherford, Smith, Cassidy, Hargrave and Thomson also spoke.

MAKES MEN STRONG.

The weak man does not live who cannot be made a better man by wearing my *Electric Belt.* None of us are perfect, and anything that will add more to such vitality as we may have will make us better. It is hard for a weak man to have noble sentiments. Such things are born of warm blood, healthy nerves and a strong heart.

Dr. McLAUGHLIN'S ELECTRIC BELT

Makes men strong; it causes the nerves to tingle with the joyful exhilaration of youth; it fills the heart with a feeling of gladness, makes everything look bright, and makes the nerves like bars of steel. Give me a man broken down from indiscretions or excesses—one who has lost the very essence of manhood—and I will make him feel like a youth of twenty within a month. How? you ask. Simply by pumping a vital stream of electricity into his body in the right way while he sleeps. It arouses all the dormant energies, develops muscular and nerve life and restores the feeling of youth, courage and manhood. It makes men over again. It makes perfect men of the puniest, weakest specimens of "half men."

Any man or woman who will secure me can have my appliance and pay when cured.

Are you sick? Are you a Weak Man? Are you tired of doctoring and paying out money without result? Then come to me or write to me. I AM THE ONLY MAN IN THE WORLD WHO HAS CONFIDENCE ENOUGH IN HIS REMEDY TO WAIT FOR HIS PAY UNTIL YOU ARE CURED. I know what my Belt will do, and as you do not you can try it first, and I will wait for my pay until you are cured. I have cured 50,000 people in the last twenty years, and though my Belt can't cure every case I am willing to stand the loss where it fails. So come and try it now. You have nothing to lose.

CAUTION. Beware of the old-style, burning electrode belts, which are using an imitation of my cushion electrodes. My office contains hundreds of these old belts, discarded as useless and dangerous by persons whose bodies have been seared and scarred by the bare metal electrodes. I will make special terms to anyone having one of these old back-burners. A FREE TEST TO ALL WHO CALL. Send for descriptive book to-day.
