JAMES STEWART WAS KILLED.

Met Death on the Illinois Central Railway-Parents Live in Toronto. The Postmaster of Toronto yesterday re. follows : ceived the following communication, dated St. Joseph, Ill., Aug. 21, 1901:

There was a man killed on the Illinois Central Railway at Champaign, Ill., on the 19th day of this month, He name was James Stewart, about 5 feet 10 inches high, black hair and brown eyes. He worked for a show company, called the Nickel Plate Show Company, and he was badly mangled, and I had him buried. He had no property on him, and ied. He had no property on him, and the best evidence I could get as to his age is he was about 27 or 28 years old, and that his parents live in Toronto, Canada, and his father is a moulder, and I wish you would see if you can find his parents and let them correspond with me. Yours very respectfully, (Signed), H. L. Pening, County Coroner, St. Joseph, Champaign

The World made several enquiries last night from persons by the name of stewart engaged as moulders, but could learn no-thing regarding the father of the man reported dead in the foregoing letter.

Street Cleaning and Watering Combined, and a Special Committee Will Be Appointed.

'THIRD MAIN' PLUGGER IN TOWN

Hamilton, Aug. 23.—To-night a subcommittee of the Fire and Water Committee and the Board of Works met to consider the question of having the street watering done by the Water Committee, and the street cleaning done by the Board of Works placed under one committee. Aid. Wallace presided. Ald. Kerr thought a new committee should be appointed to the work. The Mayor opposed the appointment of a new committee or new officials, but thought the watering and cleaning should be under one head. He also thought the scavenger work should be done by the same committee, as in Toronto. After a long discussion it was decided to recommend that the work be done by one committee, and to recommend the City Council to ask the Mayor to appoint a special committee to prepare bylaws to that end.

Red." who is wanted here in connection with the third main plugging, was in the city last night. A policeman saw him and went to police headquarters for the warrant and assistance, but he and his pals disappeared. "Red" was in Toronto last week and was arrested for vagrancy by Detective Cuddy. It appears that expected the city and the control of the city and the control of the city. To-day the first friut shipment of the season to Winnipeg and the Northwest was made by the C.P.R. via the H.G. & R. electric line. The C.P.R. express car was taken over the line to Winona.

Battle With a Tramp.

Last evening while the occupants of Samuel Ryckman's house, in Grimsby Village, were out, the house was entered, and Mrs. Ryckman's gold watch, valued at \$50, was stolen.

Ryckman is a section foreman on the H. G. & B. R., and this morning while he was walking on the track between Grimsby and Beamsville, a husky-looking chap jumped over a fence and asked him if he wanted to buy a gold watch cheap. He looked at it, and saw it was the one stolen from his house. He at once grabbed the tramp, who fought fiercely. The battle lasted 10 or 15 minutes, and both bled freely. Ryckman got the watch and let the tramp go.

Ald. Cox to the Mayor.

The Mayor's letter to Ald. Cox, containing a few suggestions, has been answered by Ald. Cox, who seemingly has other ideas regarding the manner in which the civic part of the great event should be conducted. Ald. Cox's letter, which was received by the Mayor last night, is as follows:

"I have to acknowledge with thanks your letter which I received yesterday evening. I shall be glad to refer your valuable suggestions to the Reception Committee, a meeting of which I have called for Monday afternoon at 4 o'clock, when we shall consider them in conjunction with the general plan of reception and decoration, to which my colleagues and myself have been giving much thought and attention, with a view to securing a propular miwith a view to securing a popular uniformity of effect in design, color and decoration. A plan which I am confident will meet with the approval of the public has been designed at my request by a small committee of artists and architects, who have given the Reception Committee the assistance of their experience and skill.

"The musical and other stands in front of the City Hall might be built with a view to using canvas coverings should your foreboding as to the weather be realized, but may we not reasonably hope that we shall enjoy the beautiful autumnal weather which is usual in the early part of October?"

The Mayor intended his letter as a communciation to the Reception Committee, and he hardly expected a personal reply from Ald. Cox. The Quadrangle Proposal. .

Talking about his suggestion that the reception proper take place in the quadrangle of the City Hall, under a canvas covering to protect the participants from sossible inclement weather, His Worship referred to the comment of the architect, that it was "absurd." Asked how he thought the temporary canvas covering, and arrangement of the quadrangle would be of any permanent benefit, His Worship replied that it might lead to the court yard being properly arranged for other big occasions by being covered with a glass roof. He had consulted with architects and engineers, who thought a glass roof could be placed over the yard at a cost of about \$5000. It would require from 12,000 to 15,000 square feet of glass. His idea was for a roof that need not always be closed.
