Surgeon's **Opinion** OF KNIFE FOR PILES

Operating Often a Fad-The Modern Way of Curing Piles Is With DR. CHASE'S OINTMENT.

Sir Henry C. Burdett, K.C.B., of Lon-Eng., in a recent address said: we want are surgeons, who courage to protest against the grow-ing tendency to put a knife into

everybody on the smallest possible Too many doctors have a desire to use the knife at every opportunity. The rewards to them are rich, but think of the suffering of body and mird, the enormous expense and the risk of life itself. An operation should be the last resort, for in spite of glowhig promises the results are often

disappointing. Many a sufferer from piles has been cured by the use of Dr. Chase's Ointment, after operations have failed. Hundreds of thousands have escaped perations by using this treatment first

and thereby obtaining cure. Mr. Arthur Lepine, school teacher, Granite Hill Muskoka, Ont., writes: For two years I suffered from bleeding piles, and lost each day about half a cup of blood. I went to the Ottawa General Hospital to be operated on, and was under the influence of chloroform for one hour. For about two months I was better but my old trovble returned, and again I lost much blood. One of my doctors told me I

would have to undergo another opera-"My father, proprietor of the licu Hotel, Ottawa, advised me to use Dr. Chare's Ointment, and two hoxes cured me. I did not lose any blood believe the cure is a permanent one. I gratefully recommend Dr. Chase's Olutment as the best treatment in the at all dealers, or Edmanson, Bates &

THE CANADIAN ORDER OF FORESTERS

THE THIRTIETH ANNUAL SES-SION OF HIGH COURT

The Year 1908 Was the Most Prosperous in the History of the Order

A Large Delegation in Attendance

The thirtieth annual session of the High Court of the Canadian Order of Foresters opened in the City of Lon-don yesterday afternoon with a large number in attendance, including High Court officers and delegates represent ing subordinate courts of every prov ince in the Dominion. It is just twenty years since the order last met in this city, and the event is an important one, not only on that account, but also owthirty years ago the society first saw the light of day. Here it feceived the name Canadian Order of Foresters. Its founders were fortun-ate in the choice of a name, at once nious and patriotic. Since then the order has steadily grown in importance, until its interests are now firm-ly established in every province of the Dominion, and its record a splendid testimony of what can be accomplish-ed by Canadians in Canada. After the usual opening ceremonie and the appointment of several standing committees, the High Court officers submitted their reports, which showed the order to be in a most flour-

ishing condition. The High Chief Ranger, J. A. Stewart of Perth, Ont., after extending a hearty welcome to the representatives present, submitted his report, which was replete with facts and figures re-lating to the growth and extension of the order during the past year.

The year closed with a membership of 70,757. The increase in the Insurance Reserve during the year amounted to \$302,249.67. On January 1, 1908, the amount on hand in this branch was \$2,426,690.87, and at the close of the year \$2,728,940.54. There were 391 Death Claims paid, amounting to \$396,881.82.
The Sick and Funeral Benefit department is also in a flourishing condition.
During the year no less a sum than \$134,371.88, covering 5836 claims, was paid in this branch. The amount to credit of this fund at the close of the year was \$142,806.70.

The High Chief Ranger in concluding his address expressed the hope that the meeting would be a pleasant one for the members and a profitable one for the members of the order, and felt that if ever there was a time in the history Junior matriculation—The Martha Bell scholarship (first in classics), G.
