THURSDAY MORNING

THE TORONTO WORLD

JUNE 23 1910 11

As an initial step in the carrying a scheme of waterfront imment, the special civic committee on harbor affairs yesterday passed a resolution in favor of the acquisition of the land on both sides of the new western channel.

The motion carried on motion of

Aid Graham reads: "That the board

control and harbor commission be

of control and harbor commission be requested to take steps at once to secure from the Deminion Govern-ment on the best possible terms the parcel of land that has been made on both sides of the new western en-trance to the harbor so that the same may be controlled and used entirely. In the public interest. "That the city also apply to the Dominion Government for the water lot between the lot leased by the city from the harbor board and the water lats in front of the garrison commons park conveyed to the city by the Do-minion Government."

It was agreed that the mayor, Con-troller Spence, who is chairman of the committee, and Controller Ward,

troller Spence, who is chairman of the committee, and Controller Ward, should go to Ottawa to press for the concessions desired. If successful, the city will be hopeful of realizing the plan of extending car tracks over the Baffurst-street bridge, and across the old channel by a bridge, thence conveying passengers to the island by a small ferry at a nominal cost. Before meeting at the city hall, the committee took a trip along the water-front in the harbor commissioner's islanch, passing from Queen's Wharf to Abbridge's Bay and up the Don to Queen-street.

Dyspepsia is the prevailing malady of civilized life. It is largely due to gross strors in diet, over-eating, too free indul-gence in stimulants and over-taxing the stomach with indigestible food, eating too rapidly without chewing the food suffi-ciently, indulging in hot biscuits, pastry, pickles, confectionary etc.

Ald. Chisholm, chairman of the works committee, yesterday made a visit to the seventh ward to inspect the pavements, and was so impressed with the density of the dust-clouds arising from unpaved thorofares that he will probably recommend that the city take the infilative as the rate-payens appear indifferent. "I never saw such dust," said Ald. Chisholm. "Many of the roads there are simply old mud roads and they are in a miserable condition. Daven-port-road, from Lansdowne-avenue J. E. "At the last conference he asked to have it adjourned as he had an en-gagement with Hon. Mr. Lemieux, who happened to be in Toronto that day," said one of the union officials. The agreement with the company expired on June 1, and since that time the union has been waiting for a new understanding. "When the draft agreement was presented," said he official, "manager R. J. The departure that is being made in offering securities of this character to the public is made because it is be-lieved that it will be in the interests of the business of the new company, as well as of the buying public, to secure as wide a distribution as possible among small shareholders of both the preferred and common stock of the company. An interesting feature in connection with the consolidation is that all the men who have helped to make both businesses pre-eminently successful will, in addition to retaining a very large financial interest in the new company, be actively identified with the management and direction. The large amount of additional working capital which will be placed in the treasury will enable the company to keep pace with the tremendous devel-opment that has occurred, not only in Toronto, but in every part of the coun-Cobalt Stocksmalgamated ck Mines Con.; Ltd Chambers - Ferland City of Cobalt Cobalt Central Cobalt Lake Foster Bifford Breat Northern Breen - Meehan Hudson Bay
