## PORT CREDIT SUFFERS FROM COAL SHORTAGE

Town in Worse Plight Than Any of Municipalities on Lake Shore Road.

While Port Credit has been fortunate in having an almost uninterrupted supply of Hydro power during the late general shortage, the town has in the matter of coal supply, been in worse plight than any of the municipalities on the lake. No coal to be had in the village and what this means to residents with empty homes, is a very serious matter. The most menacing aspect of yesterday's snowfall, with its accompaniments of biting wind and bitter atmosphere. Fortunately there is a fair amount of hard wood to be obtained, but with a continuance of the severe weather of the past 48 hours this will quickly be swallowed up, so that unless the municipal fuel controllers come quickly to the rescue a trying time is in store for hundreds of coalless citizens of Port Credit.

Following the rolling of the highway at the bridges the local authorities instructed the highway commission to commence work immediately on the filling of the new sidewalk for pedestrian traffic to stretch from Brooke street on the east side of the river to John street on the west. There is no institution, large or small, which will not experience the stimulating influence of our Service policy.
