

"CANADA AND THE TELEPHONE"

HISTORY

Most people know that Canada invented the telephone. Some people know that the telephone is the greatest invention of the nineteenth century.

Comparatively few people know the real history of its wonderful development and widespread use.

For years the people of this and other countries did not understand the climatic conditions and opportunities of northern and western Canada.

Is it not possible that the great benefits of the telephone and the opportunities afforded by it are not now fully appreciated?

Information Supplied—A story, "Canada and the Telephone," strikingly illustrated, entertainingly told. A handsome booklet, well worth reading. Free to all interested inquirers.

Our No. 2 Bulletin gives full instructions in regard to the building of telephone lines. We supply it free on request.

We manufacture and sell a full line of automatic and manual telephones and switchboards. All of our goods are guaranteed to be first-class in every particular.

We are selling thousands of dollars' worth of telephones and telephone supplies every month to satisfied customers all over Canada. Wire of all kinds, cross arms, top pins, side blocks, insulators, braces, bolts, anchors, construction tools, everything that is required in building a complete telephone system. Full information on request.
