The Dorcas Society.

The work of this Society varies little from year to year. The amount collected is very nearly the same. The expenditure somewhat less this winter than last, leaving a balance in hand of \$24.10. It is proposed to make use of this in the purchase of clothing for the sick and aged, in any special case of need, rather than reserve the money for the work of next year. Mrs. Grasset and Mrs. DuMoulin, superintended with much care and interest the disposition of the clothing, feeling anxious, as far as possible, to relieve only deserving people. The ladies thank Mr. Woodhouse for a gift of blankets, value \$3.00.
