Merchants participating in Dollar Day will display the official Blue and Yellow Sign in their show windows. Great values will be offered at these stores on Wednesday.

JOHN F. MORRISON WRITES HOME OF AFFAIRS IN WEST

A letter has been received from John F. Morrison, a former St. John man, but now of Winnipeg, by E. S. Carter. Mr. Morrison writes very interestingly about the crops and other things in the great west. In part he says:

The wheat crop has been greatly affected by black rust. The crop will only be about half what it should be. Business in general is good, labor quite scarce and considerable building going on. Real estate and rents will never be what they were previous to the war. For an eight or ten room house you would pay \$100 a month. With the exception of rent and coal one can live here cheaply. The climate is good and healthful, thirty-five below zero is not so cold as ten or twelve with you. Once the cold weather sets in it remains that way until a ring or rain or slush, very few rainy or stormy days. It is a good sport town; something doing all the time and always somewhere to go.

I am planning on going down soon and hope to see you all.

Mr. Morrison makes enquiry about many old friends here and hopes to have the pleasure of seeing them on his visit home.

LOCAL NEWS

BEAVERS VS. ACADIAS.
The Beavers accept the challenge of the Acadias for a game of baseball but will not be able to play until the Boys' Club League is over, hoping that this will not be long. It may be possible to play before the league is over, if so this will be announced in the Times.

ENJOYED OUTING.
A party of young folks enjoyed an outing at Idlewild Camp, Golden Grove, on Saturday afternoon. Miss Margaret Kennedy was the guest of honor, and a most enjoyable afternoon and evening was spent. Miss Kennedy, who has been receiving much social attention of late from her girl friends, will be one of this month's brides.

RUNAWAY.
The Red Head road was the scene of a wild runaway yesterday when a horse owned by F. A. Boyle, of Red Head, ran away. The horse was standing tied on the East St. John road, when he broke away and ran for a stretch of five miles, not stopping until he came to his own barn. Many people were on the road at the time, including teams, and it was only by good fortune that no one was hurt and that there were no collisions. The wagon was undamaged, nor was the horse at all injured.

FOR THE SOLDIERS.
At a pretty little garden party and sale held at their home, 89 Spring street, Misses Marjory McConnell and Dorothy Hamm netted the neat sum of \$40.39 on last Friday afternoon. The girls were assisted by Dorothy Wark and Ida McKay. The grounds were tastefully decorated. The articles sold were mostly the handwork of the young girls. The proceeds are to be given to the "Soldiers' Comfort Fund." The holder of No. 26 ticket on a fancy cushion top will receive same by communicating with phone 1302-51.

BUILDING NOTE.
A large freehold lot facing Queen Square, with rear on St. James street, known as the Pender property, and which was sold last February by W. A. Lawton to two parties, has been resold again, and as a result Mr. Lawton will construct a modern and up-to-date apartment house on the vacant lot, which is situated in the rear of the property. Construction will be commenced immediately by Mr. Lawton, and the lumber that will be supplied will be furnished from his own yard.

LOST IN THE WOODS

City Party Has Quite an Experience at Golden Grove

To become lost in the woods during the daylight and finally to be overtaken by darkness and left alone in the dreared stillness of the night, and then to have exhaustion add alarm to uneasiness was the experience of some young folks yesterday in the vicinity of the Golden Grove.

Yesterday morning a party of young people left the city with the intention of enjoying the day in the country. They decided to go out to McCrackin's Lake, about four miles above Golden Grove, where they arrived at their destination a little after noon and the afternoon was greatly enjoyed in the nearby lake and in the beautiful grove and woods. An early supper was partaken of and then they went to the ladies' tent, where they were to take a short cut through the woods and then return to the main party within a short time, they started out.

Not being acquainted with the country they became bewildered in the thick of the forest and were completely lost. The gentlemen attempted to keep the rest of the party in ignorance, thinking they could find their way out by light with the result that they became father buried in the thick woods. Twilight fell and the party became worried as night came on and they were still helpless. Exhausted from the tramping in the woods, one of the ladies fainted and it was some time before she was revived. Then the tramp through the unknown woods was continued, the young lady having to be carried.

On and on they went, unknowingly penetrating farther until one of the gentlemen, partly from exhaustion and worry, fell to the ground in a faint. Luckily a brook was handy and water was carried in one of the men's hats. Again they started, this time to follow the brook, when the young man fainted a second time. Night was well on its way and the thoughts of remaining in the woods all night, added much to the already uncomfortable presentment. However, the sight of a flickering light through the tall trees finally relieved anxiety. It was from a farm house. Here they were informed where they were and how they could get back to the others of the party, who were in the meantime greatly disturbed over their friends' absence and who had busied themselves in searching the woods. It was about midnight when the lost ones returned, completely tired out, although much relieved that they had not to spend the night in the woods.

The return to the city was made early this morning. The party had been in the woods about six hours and all this time they were utterly at a loss as to where they were. They had tramped about fifteen to twenty miles.

WELCOMED BACK TO A ST. JOHN PULPIT

Rev. M. McCutcheon at Central Baptist Church—A New York Soloist

Large congregations were present yesterday at the Central Baptist church to hear Rev. M. McCutcheon, a former pastor of the Brussels street church prior to the union. Mr. McCutcheon is a student at Acadia, stood in for the pastor of the Brussels street church yesterday there were many who contended that he was first among the ablest expositors of today.

Those who were present at the evening service were delighted with a solo entitled "How Beautiful Upon the Mountains," sung by Miss Ruth Blaisdelle of New York.

ENGINEER'S REPORT ON THE WATER SUPPLY

Mr. Armstrong Heard Before Departure For War

SUCCESSOR FROM BOSTON

F. McInnis, Former Frederickton Man—Tributes to Engineer Armstrong—Traffic and Other Matters Discussed

A special meeting of the Common Council was called at 11 o'clock this morning at the request of Commissioner Wigmore, and that a special report prepared by his engineer, R. Fraser Armstrong, regarding the proposed improvements to the Lancaster water supply might be submitted prior to his departure at noon today for Petawawa.

Engineer Armstrong is an officer in a Canadian unit for overseas. His report was in part, as follows:

"I have investigated the west side system with a view of improving the supply of water, especially to the higher points on Lancaster Heights.

"At the present time two supply pipes of 24 inches and 12 inches, cement, are only capable of supplying the town of Cardigan by gravity with about 4,000,000 gallons per day, so it will not be long before these two mains will be inadequate to supply the demand unless they are assisted by pumps. Their united capacity at present, up to Union Point road, is about 5,000,000 per day, and to the reservoir, 4,800,000.

"To properly care for all present requirements and provide for future growth, the west side should be divided into two systems, the high level and smaller populated area being supplied by pumps located at Spruce Lake, and the low level, industrial houses, pulp mill, steamers, etc., supplied by the gravity system.

"If the present cement pipe was in good condition, the 24-inch supply pipe could now be used as the gravity supply, and high levels supplied by water pumped through the 12-inch cement pipe, but the cement pipe, which has been in use for about sixty years, will not stand any additional pressure, and is not large enough to be used as the gravity line.

"A pumping plant at Spruce Lake seems to be the ultimate solution of water supply problem in the west side, but the present financial conditions would prohibit such an extensive scheme being now attempted, so we must adopt some scheme which can immediately be carried on at a reasonable outlay, and be a unit to the future supply.

"If a new tank had been placed from Spruce Lake to Barnhill's corner, the additional carrying capacity would assist pressures throughout the West Side districts, so that pumping need not be contemplated for some years. An estimated cost of a new line of pipe including head works, renewal of cement pipe between Barnhill's corner and Ludlow street, is \$195,000. This will soon be an urgent necessity, but if it cannot be considered this year, I would recommend that a portion of this pipe be placed this year to form a separate distribution for a high service. A temporary pump could be installed at Lancaster reservoir, capable of pumping sufficient water direct from this reservoir to meet the high level requirements."

Commissioner Wigmore paid a glowing tribute to his retiring engineer who has done his best. He told of his keen regret at his loss.

Mayor Hayes and the other commissioners also expressed their regret at his departure, and united in wishing him every success.

Commissioner Wigmore said that it would be necessary to secure another engineer to replace Mr. Armstrong, and he had corresponded with Frank McInnis of Boston, who is one of the most competent hydraulic engineers in the state. He said he had received a favorable reply and expected him to arrive in the city tomorrow.

He said he has been in the employ of the city of Boston for some years and should be a valuable addition to his staff. He is a native of Frederickton and a graduate of the University of New Brunswick.

Commissioner McLellan said he had a fine record of recognition and had also won marked recognition in Boston.

In answer to Mayor Hayes regarding the possibility of securing an engineer in Canada, Commissioner Wigmore said he had hired Montreal and Toronto regarding a suitable man and had received no information.

Commissioner McLellan, speaking of some damage recently sustained to the motor truck, said that he had held an investigation and had learned that the engine had not been properly oiled. He said it was hard to get competent men to operate these machines. He was, however, of the opinion that there were some men in this city who could be taught to operate it if properly instructed. He asked for authority to employ in the fire department a man who would match and carry a large picture but a demonstrator and also that a surplus tented for five minutes without a footstep or head weight, there was a misprint, for the law requires them to be strapped no matter how long they are kept standing.

Commissioner McLellan said that regarding the section in the traffic laws stating that a horse may remain standing for five minutes without a footstep or head weight, there was a misprint, for the law requires them to be strapped no matter how long they are kept standing.

Important Notice From Our Silk Department!

We Have Just Had Delivered to Our Silk Department Several Hundreds Yards of **RICH BLACK SATIN MESSALINE** Pure All Silk for Waists, Coats or Dresses

This lot contracted for by us on December 19, 1915, and only now delivered. We did not expect the manufacturers at this date to deliver these goods. In fact, they had written us that owing to the increase of 35 to 40 per centum in cost of manufacturing silk, they would probably not be able to ship them.

However, here they are, and our customers can now buy rich Black All Silk Satin Messalines, 36 inches wide, at \$1.25 a yard, which is 35 cents a yard under manufacturers' cost for the exact silk at present time.

Mail Orders Promptly Attended to. Sale During This Week.
