LOCAL NEWS

Social dance to be held in Orange Hall, Friday evening

During the month of the map showing the area of the proposed town-planning scheme has been on exhibition at city hall and only one objection or suggestion has been made. This applies to a section of the Managawish road district and will be considered by the commission. The way is now open for the commission to proceed with their application to the lieutenant-governor for authority to prepare their town-planning scheme in conformity with their plan.

WHY ALL WORKERS SHOULD ENLIST

Will be the subject of an address by Wilfrid Godwin, an anti-socialist, and one of the strongest and most convincing platform speakers anywhere. Next Sunday, 8:00, in the Social Hall, 54 Union street, near Dock street. 9-27

ST. JOHN 'MOVIES'

Motion pictures of several scenes of the city were taken yesterday by representatives of the Pathe M. P. Exchange from Montreal. The operators were taken about by F. H. Trifitts of the Gem Theatre, in his car, and views of Courtenay Bay, the work in progress there, the new bridge across the falls, the site of the old Suspension Bridge, the men at work there, and other features were taken, and will be comprised in a Canadian weekly gazette.

Do You Drink The Milk Of Clean Cows?

You are entitled to a clean milk supply, and there is no reason why you shouldn't have it. Dirty water often brings with it the germs of disease. Much of the dirt found in milk comes from the flanks (the sides) of cows, which, in many instances, is not removed when it should be.

Primecrest Farm

PRIMECREST FARM PURE MILK comes from cows that are frequently and regularly cleaned, being carefully washed just before they are milked. PRIMECREST FARM PURE MILK is Guaranteed to be STRICTLY FRESH, PERFECTLY CLEAN, ABSOLUTELY PURE and FREE FROM DISEASE. It is Delivered in Sterilized, Sealed Glass Jars, at EIGHT CENTS THE QUART.

IRISH MATCHMAKING. Where Brides and Grooms Usually Obey Their Parents. County Wexford conservatism shows in the keeping up of many of the old customs. In some quarters the marriage of a young man and a young woman is usually an affair of the parents. He or she—usually an old bachelor or spinster or widow, has a long and happy life as a young man or woman, and is often the praiseworthy of the county and even of adjoining counties.

The young people are not at first consulted; the parents of both are approached, and the talk is at all of the inclinations of those who are to be married, but of how much dowry is to go to the girl, what the young man has, and what the parents are to provide for her. For all their warm hearts the Irish are practical enough; they have to be. There is plenty of innocent love-making which never leads to marriage, because the claims of a living in Ireland are limited, and a couple must have a little degree of certainty about the future.

Sometimes a young man cares so much for some particular girl that he breaks through custom and finds a way of marrying her. The young people are not at first consulted; the parents of both are approached, and the talk is at all of the inclinations of those who are to be married, but of how much dowry is to go to the girl, what the young man has, and what the parents are to provide for her. After his startling experience, when he tried to photograph a group of South American savages, Algot Leauge visited the Indians in their retreat and, persuaded them to pose for him. I judged it to be the proper moment for taking photographs, because many of the more critical Indians were away working on a large canoe. It was a risky act to bring forth again "the little black thing that grows big and has an evil eye" but it was of vital importance for me to record my sojourn on a photographic film.

Slowly I lifted the camera out of the bottom of the knapsack, took the black back off and held the open kodak in front of the chief's eye so he could see the empty hollow. He nodded and touched it. The ticking sound of the shutter amused the chief, and he imitated the sound by saying: "tick tick!"

Then I set the shutter on a time exposure and let them look through the lens. That also pleased them. The chief even called the camera marokha, or plaything. I felt rather safe and ventured to roll a film in place and set the shutter for business. I pointed it at the chief as he sat in the middle of the clearing, and saying: "tick tick!" a number of times, I finally pressed the bulb. Only once did I come near a break in their confidence. When I walked down the clearing and focussed the chief

The Jewels In a Watch

As gems their value is not worth considering. When it is escapement, their value is expressed in bearings for pivots in the exceedingly great.

Watches are graded by the number of jewels they contain. The best watches have 17 to 23 jewels—more than that, can serve no useful mechanical purpose. Seven and fifteen jewels watches are fair time-keepers, though they are not as durable or permanently satisfactory watches as 17 or 23 jewel models.

Our advice is to purchase a 17 to 23 jewel watch if you are seeking lifelong watch satisfaction.

At Sharpe's you have excellent selections in the various grades of Howard, Hamilton, Waltham and DeWitt watches. You secure real watch value for every dollar you pay for a watch here.
