HOT WATER Economically

with this NEW Electric Heater

Here is a new Electric Water Heater—efficient, easy to install and adjustable to any size tank. It provides your home with the luxury of hot water at a turn of the faucet, without previous preparation or delay. It can be attached to the tank with ease—no plumbing required, no opening of the tank or changes of any kind.

In conjunction with McClary's A. & F. Electric Heater is McClary's Fibreform Tank Cover. This prevents 80 per cent. of heat loss, and after a period of service will have saved enough current to pay back the entire purchase price.

McClary's A. & F. Heater and Fibreform Cover are the most dependable and satisfactory equipment for providing your home with hot water at the smallest possible cost. Suitable for either flat rate or meter.

This Heater not affected by lime or sediment in the water.

Ask your McClary's dealer for prices and information.
