

GET WEALTH FROM THE LAURENTIC

Ship That was Sunk Off the Irish Coast.

Billion worth Millions Recovered and Much More There—Great Vessel was Sunk by Germans With Loss of Many Lives.

London, Nov. 30.—(By Canadian Press).—Gold bullion to the value of between \$5,000,000 and \$6,000,000 has been recovered from the sunken steamer Laurentic, off the Irish coast, and there is still much more of the precious metal to be salvaged. The work of recovering the bullion has ceased for this year, but operations will be resumed next spring, when it is expected that \$2,000,000 or \$3,000,000 worth of the ore which is still in the ship will be brought to the surface.

The ill-fated White Star liner Laurentic, a ship of 14,000 tons, was well known to Canadians. For some years she was in the merchant marine service between Liverpool and Montreal. She was commanded by the British admiral while the war was on and was in the service of the government as an armed cruiser. She was sunk by the Germans in January, 1917, off one of the wildest parts of the north coast of Ireland and has been at the bottom of the sea since. The Laurentic could not be lifted, but the gold she was carrying at the time of the disaster was too valuable to be left in "Davy Jones' locker," so experts here were set to work to lift the gold.

The admiralty salvage vessel Rover and her tender, the R. A. Norton, R. N., were sent to the scene of the wreck last spring for the purpose of recovering the gold. The Rover was a small tug, but she was equipped with powerful pumps placed in position by the divers, as the gold was at the bottom of the huge mass of wreckage. The plate divers had to be blasted and cut away by explosives, and the task of the divers was both difficult and dangerous. In consequence of this the Rover carried a re-compression chamber for the purpose of treating cases of illness which the divers might contract in the course of their hazardous task.

The vessel employed in salvaging the gold in the Laurentic is about all that remains of the splendid Admiralty Salvage Section which was brought into being during the war. With this exception the section came to an end with the completion of the wreck-raiding operations on the Belgian coast. In the case of the Laurentic the rate paid is half-a-crown for every \$100 worth of gold recovered and this divided among all employed in the work is equal to about one-half-penny per cent per day.

Mr. Meighen's tariff platform? Does anyone really know? Will anyone tell us authoritatively just what Mr. Meighen is going to do to the tariff if he is returned to power? We heard Mr. Meighen say in London in September that there would be a revision of the tariff. We note that he said in Massey Hall, Toronto, a couple of weeks ago, that tariff duties would be raised. Hon. R. B. Bennett said practically the same thing here ten days ago. But what would he like to know is—On what items or classes of goods will the tariff be raised? Cannot Mr. Meighen be just a little bit more definite without justifying giving away government secrets? If Canada needs Mr. Meighen's Canada ought to know just what she needs him for, and what he intends to do. That surely is a proper demand at election time.

Mr. Meighen said, in Winnipeg, in September of last year, that before the government went to the country there would be a tariff investigation, and the results of this investigation and the government's decision thereon would be placed before the electors in black and white. So far it is all black and unintelligible on the subject of the tariff. The big interests know the decisions, but it would seem proper that the common people should also have a little say on the question.

The government has its thorough investigation, as promised by Mr. Meighen. The evidence is all in and available to the ministry. Mr. Meighen should have the most delicate of platforms, and he has the most recent and the fullest information as to the results of this investigation. The government advertisements should be full of facts and figures, showing just why the tariff should be raised, lowered, or left alone. They are forced to some extent at least to more general statements of policy.

But Mr. Meighen, with all the facts of a recently finished investigation in his possession, should take the country a little into his confidence before he asks for a blanket endorsement of what he proposes to do.

Give us a half dozen concrete facts at least indicating the nature of the proposed revision.

One of the government advertisements, which, at great expense, are being inserted in every newspaper in Canada, reads:—"Canada is at the Cross Roads. Pause and Think! Everybody knows that the future of the country stands four-square for the protective principle—for reasonable, moderate protection. Let us decide whether we are to let our country be a dumping ground for foreign goods, or whether we are to protect our own industries, our Canada's workers and all Canada's homes."

Now just exactly what does that mean? "We pause and think." We pause for reply from Mr. Meighen. If Mr. Meighen is going to raise the duties on some classes of goods, is he frightened to tell the country that the consuming masses will see in those higher duties a chance for some friends of the government to raise prices higher still?

It is meant to be on the favored protected list? Are the sugar refiners to be enabled to jack up prices a little? Are agricultural implements to be touched, or lumber, or fertilizers, or wearing apparel or footwear?

Mr. Meighen says the question of the tariff is the vital issue of the campaign. Let him know just what he intends to do with the tariff. Let him pause and think about the vagueness of the policies of Mr. King or Mr. Crerar and come out into the open himself.

TO MAKE TOPS HERE.

It was announced last night that three more new tops had arrived for use on the "buses of the Union" Bus Company. This will leave only three "buses" remaining out of their new winter tops, and it was announced last night that these were going to be made in the company's workshop in the city.

A MUSICAL RECITAL.

Mrs. Currie entertained delightfully yesterday afternoon at her apartment in the Dufferin annex, when about thirty-five of her friends enjoyed a musical recital in which Mrs. J. Bayard Currie, Mrs. T. J. Gunn and Mrs. J. M. Barnes took part.

MINE FOREMAN WAS HELPLESS

Harry Scott, Arizona Boss, Declares He was Down and Out.

Harry E. Scott, a well-known mine boss, whose address is Box 683, Tombstone, Arizona, writes:—"I was down and out nearly all the time with rheumatism and finally got to where I couldn't move, even to feed myself. My wife thought I would never get well again, and she knew my condition better than anyone else. I was absolutely helpless when my wife started giving me Tanlac, and in four days I ate a hearty meal for the first time in many months. Tanlac put me on my feet and I'm back on the job working hard and feeling just fine. I have gained eighteen pounds in weight too."

Tanlac is sold in St. John by The Ross Drug Co., Ltd., and F. W. Munro, and by leading druggists everywhere.

WHAT IS MEIGHEN'S TARIFF PLATFORM?

Pertinent Questions and Facts for the Electors to Consider.

(London Advertiser.)

What is Mr. Meighen's tariff platform? Does anyone really know?

Will anyone tell us authoritatively just what Mr. Meighen is going to do to the tariff if he is returned to power? We heard Mr. Meighen say in London in September that there would be a revision of the tariff. We note that he said in Massey Hall, Toronto, a couple of weeks ago, that tariff duties would be raised. Hon. R. B. Bennett said practically the same thing here ten days ago. But what would he like to know is—On what items or classes of goods will the tariff be raised? Cannot Mr. Meighen be just a little bit more definite without justifying giving away government secrets? If Canada needs Mr. Meighen's Canada ought to know just what she needs him for, and what he intends to do. That surely is a proper demand at election time.

Mr. Meighen said, in Winnipeg, in September of last year, that before the government went to the country there would be a tariff investigation, and the results of this investigation and the government's decision thereon would be placed before the electors in black and white. So far it is all black and unintelligible on the subject of the tariff. The big interests know the decisions, but it would seem proper that the common people should also have a little say on the question.

The government has its thorough investigation, as promised by Mr. Meighen. The evidence is all in and available to the ministry. Mr. Meighen should have the most delicate of platforms, and he has the most recent and the fullest information as to the results of this investigation. The government advertisements should be full of facts and figures, showing just why the tariff should be raised, lowered, or left alone. They are forced to some extent at least to more general statements of policy.

But Mr. Meighen, with all the facts of a recently finished investigation in his possession, should take the country a little into his confidence before he asks for a blanket endorsement of what he proposes to do.

Give us a half dozen concrete facts at least indicating the nature of the proposed revision.

One of the government advertisements, which, at great expense, are being inserted in every newspaper in Canada, reads:—"Canada is at the Cross Roads. Pause and Think! Everybody knows that the future of the country stands four-square for the protective principle—for reasonable, moderate protection. STUDENTS ARE EXPELLED FOR "ROLLING" MASTER.

Hamilton, Nov. 30.—Some Collegiate Institute students, it was reported, indulged in a prank against their master, during which they rolled him on the floor. They have been expelled.

MALNUTRITION IN BRIGHTEST PUPILS

Bureau of Educational Experiments, in Three-Year Test, Sees Gifted Gain Most—Lead in Underweight.

The Bureau of Educational Experiments at 144 West Thirtieth Street, New York, has made public a report, "Health Education in the Nutrition Class," on the results of its three-year experiment with nutrition classes in a public school. It calls the experiment "the pioneer attempt to remedy malnutrition in a school population by employing the method of the capital clinic or class within the school." It also points out that malnutrition among school children is said to be "largely responsible for ill health and weakness in later life," and is closely related to the general health problem of adults.

The experiment was carried out at Public School 64, at 605 East Ninth Street, which Dr. Louis M. Marks is principal. From February, 1918, to June, 1921, the school, as the report says, received a fairly homogeneous Jewish population, in a section somewhat removed from the worst slums, though the neighborhood is crowded and unsightly. Dr. Willard R. B. Eustice of Boston, a noted pediatrician, organized the work and trained the workers. Four hundred and four children took part in the experiment. Of these, 104 children of normal development were studied in "control groups." They were compared with 370 underweight children in special groups, who were assigned to nutrition classes and provided with special care and teaching.

In addition to special provision for physical diagnosis and care of individuals showing defects or morbid conditions, the report says, "the nutrition class calls for a section somewhat removed from the worst slums, though the neighborhood is crowded and unsightly. Dr. Willard R. B. Eustice of Boston, a noted pediatrician, organized the work and trained the workers. Four hundred and four children took part in the experiment. Of these, 104 children of normal development were studied in "control groups." They were compared with 370 underweight children in special groups, who were assigned to nutrition classes and provided with special care and teaching.

Gain in fitness, as represented by increased weight, was greater in the nutrition class than in the control groups. One class under observation gained sixty-four per cent of the total increment for the year between October 1 and February 1. This is contrary to the general belief that the nutrition class is the chief factor in the improvement of the child. We must conclude that a very large percentage of children now considered physically fit are in reality living on a plane of physical vigor considerably below their individual potentialities.

A Stubborn Cough Loosens Right Up

This home-made remedy is a wonder for quick results. Easily made and perfectly safe.

Here is a home-made syrup which millions of people have found to be the most dependable cough remedy. It is simple, but very powerful. It loosens the chest, soothes the inflamed throat, and you get a good night's restful sleep. The usual trouble and chest colds are conquered by it in 24 hours or less. Nothing better for bronchitis, hoarseness, croup, throat tickle, bronchial asthma or winter coughs.

To make this splendid cough syrup, pour 2½ ounces of Pinex into a 16-oz. bottle and fill the bottle with plain water. It is called the "Nutrition Class." If you prefer, use clarified molasses, honey, or any other sweetener. You get 16 ounces—a family supply—of this delicious cough syrup. You can buy ready-made for \$2.50. Keep it in a cool place and love its pleasant taste.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, known the world over for its prompt healing effect upon the membranes.

To avoid the unpleasant cough syrup, you get 16 ounces—a family supply—of this delicious cough syrup. You can buy ready-made for \$2.50. Keep it in a cool place and love its pleasant taste.

No Appetite

Nervous exhaustion leads to distaste for food. The nerves of the stomach are weak, digestion fails and you become generally upset and out of sorts.

The secret of complete restoration is in getting the nervous system fully built up.

Mrs. R. Cheney, 208 Richmond St., Chatham, Ont., writes:—"I was troubled with indigestion, which caused me many sleepless nights. I would be in a terrible distress at times, and would get no relief for several hours. For six months I ate nothing but Shredded Wheat biscuits, as I did not eat anything else. I did not know what to do, as I had tried so many different remedies, as well as doctors' medicines, without gaining permanent relief. Finally I got some of Dr. Chase's Nerve Food, and while on the second box noticed that I was improving. I continued the treatment until I am now fully restored, and have returned to my regular diet. My husband has also taken Dr. Chase's Nerve Food, and with splendid results, so we are glad to recommend it to others."

Dr. Chase's Nerve Food, 50c a box, all dealers, or Edmondson, Bates & Co., Limited, Toronto.

JO-BEL THE WONDER SALVE

WHAT A FREDERICK MAN SAYS: Mr. Murdoch, Dear Sir—I would like to have all sufferers from piles know that after eight years of suffering I have been cured by one box of your Jo-Bel Salve. Sgd. CARL PEDERSON, 3400 Main Street, Fredericton, N.B.

Try for yourself and enjoy living! Equally good for all skin diseases. Sold by all druggists in Maritime Provinces, \$1.00 a box; trial boxes 50c.

JOSEPH A. MURDOCH, 187 Orange Street. Mail orders promptly filled.

RIGA WATER

HABITUALLY CONSTIPATED. The annual crusade of the Main-street Baptist Women's Missionary Society was held last night with the president, Mrs. D. Hutchinson, in the chair. A short programme was carried out, and Miss Martha Clark and Dr. Z. Clark took part in the work in India. A vote of thanks to the speakers was passed and a liberal contribution for missions was taken up.

Miss Trent, a missionary located at Magoya, Japan, addressed a meeting under the auspices of the W. A. in Trinity church schoolroom last evening. Rev. R. A. Armstrong presided. Miss Trent told of her work in Japan. At the conclusion of her address, Mrs. J. F. Hayes, who was seconded by Mrs. J. F. Hayes, presented a paper on "The Joy of Living."

The New Brunswick Lodge No. 22, F. and A. M., had a very successful meeting in the Masonic Hall, Gormin street, last evening, when the past masters of the lodge conferred the Master Mason degree. A large number of members, in addition to visitors from other lodges, were present, including a delegation from the Corinthian Lodge, Hampton (N. B.). Refreshments were served in the banquet hall at the close of the ceremonies.

An enjoyable parlor concert was staged by the Lent-and-Hand Circle of the King's Daughters' Guild, in their rooms in Prince William street last evening under the chairmanship of Mrs. Leslie Walters. Those taking part were as follows:—Miss Muriel Hawker, Miss Ross, Mrs. H. D. Everett, Willard Smith, Miss Olive Rankine, Miss Veta Roberts, Miss McKay, Miss Alicia Henes. The proceeds will go to the general fund.

The subject of discussion at the meeting of the Lent-and-Hand Circle of the King's Daughters' Guild, in their rooms in Prince William street last evening under the chairmanship of Mrs. Leslie Walters, was "The Joy of Living." A supper served by the girls of the church was greatly enjoyed. Miss Mary Allison gave an explanation of practical talks. Arrangements for a special meeting and a rally were made. Mrs. J. M. Rice read a paper on the "Religious Educational System of the Church." In the evening a public meeting was held. Addresses were given by Dr. G. Steele on

Two inspiring meetings were held yesterday afternoon and evening by the St. John district of the Methodist church in the Carleton Methodist church. Rev. G. A. Ross, chairman of the district, presided. At the afternoon session a paper was read by the chairman on the "Source of Spiritual Power." Rev. J. M. Rice read a paper on the "Religious Educational System of the Church." In the evening a public meeting was held. Addresses were given by Dr. G. Steele on

THE TRAVELING PUBLIC TO SAVE \$80,000,000

U. S. Transportation Tax of 8 per cent and Freight Tax of 8 per cent to End Jan. 1.

The U. S. public will pay \$80,000,000 less to travel on the country's railroads in 1922 than they paid this year. This saving is to accrue to the public as a result of the repeal of the transportation tax of 8 per cent on passenger rates enacted into law in the form of the new Internal Revenue Tax bill which was signed by President Harding on last Wednesday night. The railroad provisions of the bill go into effect on Jan. 1 next. The tax on freight rates was 3 per cent.

The transportation tax, which has been in effect since early in 1918, has netted the government approximately \$300,000,000 annually, and its repeal simply means a reduction of 8 per cent in passenger rates and 3 per cent in freight rates for the patrons of every railroad. No benefit, of course, has ever accrued to the rail management because of this added revenue they had to collect, as a strict accounting had to be made immediately to the Government by every carrier.

The saving of \$80,000,000 in passenger fares for 1922 is computed on the basis of passenger revenue totaling approximately \$1,000,000,000 for all the railways. If the passenger revenues of the New York Central for the first six months of 1921 are doubled and the result taken as a fair approximation of what the road might expect next year in this form of income, the patrons of the road will save approximately \$7,000,000 annually, the saving in freight rates for New York Central patrons would be, in round numbers, \$5,000,000 annually. The Pennsylvania Company's passengers will save, on this basis, \$14,000,000 annually, and shippers will save \$12,000,000. Lehigh Valley's patrons will save approximately \$500,000 annually in passenger fares and \$1,800,000 in freight bills.

The first official computations to be issued on this matter came from the Long Island Railroad Company yesterday. Officials state that as a result of the transportation tax repeal, Long Island's passengers will save about \$1,500,000 per year, about evenly divided between passenger and freight. "For instance," says the statement, "on a one-way ticket costing \$1, the amount saved will be 8 cents. On a commutation ticket costing \$12, the tax amounts to 96 cents. On a 50-trip ticket costing \$50, the amount saved will be \$4. On freight the saving will be 3 per cent, or on a carload of coal, a saving of about \$4 will be shown."

All of the railroads are understood to be working on statements which will show the exact savings patrons will enjoy between various individual points on their lines. The new figures are expected to be ready for publication in a few days.

CANADIAN SQUADRON TO SQUIT FOR WINTER

Ottawa, Nov. 30.—(Canadian Press).—The Canadian Naval Squadron, comprising the cruiser Aurora and the destroyers Patriot and Petrel, will sail from Halifax on December 10 for the West Indies. The two Canadian submarines are already at Bermuda. The whole fleet will return to Halifax about the end of April.

"The War and the Churches," by Rev. R. G. Fulton, taking as his subject "Ventures in the World's Redemption," was inaugurated. It is attributed to the responsibilities of the officials and members of the church.

IRONIZED YEAST BEST FOR "RUN-DOWN" PEOPLE

Take It in Convenient Tablet Form—Brings Better and Quicker Results Than Common Baking Yeast.

Thousands of weak, nervous pale and thin people are now taking yeast the new way! Instead of eating ordinary baking yeast, which is so disagreeable to many, they are now taking it in pleasant tablet form, combined with organic or vegetable iron, which is necessary in order to get the best benefit from yeast. This great combination of tonics is known as Ironized Yeast. Not only is it more convenient to take than common yeast, but it is far more effective, for in Ironized Yeast you get the benefit of two splendid health-builders, instead of only one. Furthermore, Ironized Yeast contains highly concentrated brewer's yeast, which is much richer in vitamins than ordinary baking yeast.

Lack of vitamins and iron in the system is keeping thousands of men, women and children in ill health. Ironized Yeast

Warning! Unless you see name "Bayer" on tablets, you are not getting Aspirin at all. Why take chances? Accept only an unbroken "Bayer" package which contains directions worked out by physicians during 21 years and proved safe by millions for Colds, Headache, Earache, Toothache, Neuralgia, Rheumatism, Neuritis, Lumbago and Pain. Made in Canada.

All druggists sell Bayer Tablets Aspirin in handy tin boxes of 12 tablets and in bottles of 24 and 100. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monographs, a division of Salicylic acid. While it is known that Aspirin means Bayer, manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

For Tired, Aching Feet—Quick Relief

New method keeps feet in perfect condition

JUST plunge those tender, aching feet into a bowl of warm water. Work up a thick lather with Blue-jay Foot Soap. How soothing! It brings instant relief to jangling nerves. It prevents swelling, excessive perspiration and itching. Then massage the aching muscles with cooling, soothing Blue-jay Foot Relief, a penetrating balm. Then apply that delightful antiseptic deodorant, Blue-jay Foot Powder. Your feet will feel fine. Write for free booklet—"The Proper Care of the Feet"—to Bauer & Black, Limited, Toronto. Your druggist has

Blue-jay

Foot Treatment keeps feet feeling fine a Bauer & Black product

MOTHER!

Your Child's Bowels Need "California Fig Syrup"

Hurry Mother! A teaspoonful "California Fig Syrup" now will thoroughly clean the little bowels and in a few hours you have a well, playful child again. Even a cross, feverish, constipated child likes its "fruity" taste, as mothers can rest easy because it never fails to work all the sour bile and poisons right out of the stomach and bowels without griping or upsetting the child. Tell your druggist you want only genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Moth you must say "California." Refuse a imitation.

Eyes Tired?

If your eyes are tired and overworked, if they ache, burn or smart, get a bottle of Run-Down People's Eye Drops. Drop one or two into a glass of water and use to bathe the eyes from two to four times a day. You will be surprised at the relief and comfort Run-Down People's Eye Drops give. Buy Run-Down People's Eye Drops at all drug stores. Write for free booklet—"The Proper Care of the Eyes"—to Bauer & Black, Limited, Toronto.

ONE DOLLAR WORTH 200,000 RUBLES

Moscow, Nov. 30.—The Russian ruble is still depreciating. It now requires 200,000 of them to purchase a dollar. One day the dollar has jumped from 150,000 to 200,000 rubles, the most violent fluctuation since the free trade policy was inaugurated. It is attributed to the scramble of possessors of large quantities of rubles to obtain foreign money at a price, accelerated by a recent decree of the issuance of a new paper money December 1.

IRONIZED YEAST

Tablets HIGHLY CONCENTRATED VITAMINE TONIC

Nothing Else is Aspirin—say "Bayer"

Warning! Unless you see name "Bayer" on tablets, you are not getting Aspirin at all. Why take chances?
