SAFETY
RAZOR

Of Supreme
Necessity

Every soldier's kit must contain certain things if he is to present that smart appearance which is so necessary in our Army. Of these probably the most important is his razor—it must "stand up" under all conditions—it must be ready at all times so that he can get a clean, velvety, comfortable shave in the shortest time. This is only possible with the Auto Stop Safety Razor because it is the only one that sharpens its own blades automatically.

CANADA MUST TAKE
DRASTIC MEASURES
FOR IMMIGRATION

Danger of Other Dominions Outpacing This Country in Propaganda Work

Double Population—Great Result Will be Seen in Seven Years by Aggressive Action—Big Field Ready

London, Sept. 1.—It is generally conceded that Canada's development and increased productivity will be largely dependent upon our future immigration. That methods and machinery of the past decade will not successfully carry on this work in the future is another fact. Now it is possible to wait peace and then inaugurate a successful system that will give to Canada a million new settlers a year, and settlers who are fitted in intelligence and financial resources to be a great factor in the development of our several industries. To secure our share of European emigration of the better class, Canada's plans and propaganda should now be in effect or we will find that others will have the ear of the European who desires new fields to escape excessive taxation here and where opportunities for material advancement are greater. British settlers will be the object of every part of the empire, and if we are to secure our just proportion then we must take early and energetic action.

In our after-war efforts to secure the British settler for Canada we will for the first year be confronted with serious transportation difficulties, but for a much longer period have to meet the keen competition of Australia, New Zealand, South Africa and British East Africa, and also the opposition of the British authorities to the depletion of the British population at home, even if it is not leaving the empire. It is evident that demobilization will for a year at least take the full carrying capacity of our ocean transportation facilities and during that period this will prove an effective barrier to any great exodus from Great Britain.

The other British dominions are especially active now in propaganda, and New Zealand and Australia are greatly assisted by excellent buildings, fine displays and located where thousands are attracted. On the part of Canada there has been relaxation instead of increased energy. Great Britain will exert every effort to retain her power. Even before the war the ever increasing disparity in the male and female populations in Britain caused alarm, and with already a terrible toll taken of British manhood in the war, Britain will give no encouragement, but rather make a determined light to retain her men. Then the new British arising will afford greater opportunities in better social conditions, adequate wages and increased agricultural production for her people. But the wanderlust through the unsettling effect of war has led British people and millions will seek fortunes in new countries, and it is those Canada must direct to her shores or lose the greatest opportunity in our history to secure that development so long desired.

There are two other fields in Europe for Canadian immigration propaganda, Scandinavia and the United States army, Norway, Sweden and Denmark are filled with repatriated citizens from Germany, Austria and Russia. They have returned home in thousands. War has been a gold mine to Scandinavia. After war these men will go to new countries. They will not return to Russia or the Central Powers. Neither Great Britain nor the United States are particularly looking to Scandinavia. These people are looking to Canada. Our climate and resources appeal to them. They have money, energy and adaptability. We can have them if we only take the necessary steps. The prevailing sentiment. If we don't then we will lose them to other countries. It may seem a strange policy to go to Europe to secure American settlers, but there are now 1,000,000 young Americans in Europe, and there will be double this number within a year. These men have been withdrawn from their occupations, and will be for two or more years. They are stirred and enterprising. They know that a new undeveloped country affords greater opportunities for the young man with limited means than where the conditions are more finished and the field of competitors more crowded. To them the position Canada has obtained in Europe is a revelation. The old patronizing air to Canadians has passed away. They are proud of Canadians and pleased to be associated with them. Canada to them is now almost home. With a policy of Canadian propaganda in Europe thousands of Americans will be anxious on being relieved of military duties to start civil life anew north of the international boundary, and we could have no better citizen, who, combined with their native shrewdness and energy, will have the broader outlook that comes from intermingling with the world's races in Europe.

From Britain, Scandinavia and America in Europe we must draw our European emigration. Central Europe is hopeless, the German and Austrian are not wanted, and the Pole, Czech-Slovak, Slovene and Yugo-Slav, with the new national life before them, will not leave their countries for many years.

Policy One of Waiting.

At present our policy is not clearly defined by its activity here. It is apparently one of awaiting developments. Our army has put us on and kept us on the map of Europe, but the army's

The funeral will take place tomorrow afternoon from her late residence.

The death of J. Campbell McLeod of Little Ridge occurred yesterday after an illness of one year. He represented his parish at the town council for more than twelve years and was warden two terms in succession. He was sixty-nine years old.

WEST SIDE CONCERT

A concert was given last evening in the vestry of Ludlow street Baptist church, the proceeds of which are to go towards the buying of Christmas boxes for the boys of the church overseas. There was a very large attendance and all indications went to show that a large sum of money will be realized. The concert was conducted under the auspices of the Relief Society. Those taking part included: Clyde Parsons, Ralph Spence, Emeline Climo, Nellie and Sadie Correll, Victoria street Baptist church quartette, Percy Crookshanks and Miss Horton. Miss M. E. Mullin, the church organist, acted as accompanist.

McTavish-Medlin.
