

## WARM WEATHER SHOES

You often hear men say "My feet bother me much during the warm weather. They burn and ache." Look for a cause and you will generally find that he is wearing a high laced boot the identical style he was wearing in the winter season. The feet need a chance to breathe and if it is necessary to change the weight of under garments surely something cooler is needed on the feet during the warm weather. Low Shoes are a necessity. ## THIRTY NEW MOTOR OMNIBUSES ON THE ROAD EVERY WEEK

There Are Now 2,000 in Operation in London Streets, Run by Five Companies

London, July 4.—An extensive development of London's motor omnibus services is in process of taking place and will greatly add to the convenience of those who daily travel to the city from any of the suburbs. Very soon it will be possible to get everywhere to anywhere in the London area by motor omnibus.

The London General Omnibus Company, which is carrying out this gigantic extension, is putting thirty new omnibuses on the road every week, and new routes, changes and extensions of routes, are being opened almost daily.

"Everywhere a motor omnibus can be run at a profit, it is quite obvious that a motor must be run," said an official of the company. "We don't know where we shall stop. With regard to competition with the tramway services, the company has never run a single omnibus for the sake of competing unfairly with them. I think it unwise to cut fares for competitive reasons, and as far as humanly possible we try to avoid it."

The growth of London's omnibus system will be realized when it is recalled that five years ago ten companies managed some 800 omnibuses a week; today five companies manage 2,000 omnibuses, of which the London General, which absorbed several of the vanished firms, runs on an average 1,600-1,800 a week. The company pays a petrol tax alone of about \$2,000 per omnibus per annum. To cover the area contemplated by the London General, it is estimated that it will be necessary to increase its fleet from some 1,700 to 4,000 omnibuses.
