The present critical state of European affairs will render these publications unusually interesting during the forthcoming year. To these Periodicals readers must look for the only really intelligible and reliable history of current events, and as such, in addition to their well-illustrated literary, scientific, and historical character, we commend them upon the consideration of the reading public.

DR. LAMBERT
ON SELF-PRESERVATION.
Price, with Engravings and Cases, 25 cents; by post thirty cents.

SELF-PRESERVATION—a popular Essay on Nervous and Physical Debility, resulting from injuries (habits contracted in youth, or excesses in maturity, which, by prematurely exhausting the functions of Manhood, destroy the happiness of Married Life, or prevent the fulfillment of engagements that constitute the most cherished objects of existence.
By Dr. LAMBERT, 37 Bedford Square, London, Licentiate of the Royal College of Physicians of Edinburgh;
Member of the Royal College of Surgeons, England, &c.
The above work contains most useful and interesting information on the physiological changes which occur in the Reproductive system during the periods of youth, puberty, and manhood; and on the due attainment of that degree of functional vigor upon which the hopes of posterity depend. It also points out how all the vitalities of Manhood can be preserved to advance period of life; how they are lost, and how they can be recovered. It is free from the gross exaggerations, alarming descriptions, and dangerous remedies so generally resorted to by persons, who, practicing with false medical qualifications, inflict most serious injuries, and render judicious treatment frequently abortive.
The Author is the only legally qualified "practitioner" whose name stands on the "Register" (the sole test of medical qualification), who has been exclusively engaged for a series of years in the treatment of the various functional disorders of the nervous and reproductive system, which, owing to the great discoveries of modern science, are rendered subservient to a rational, simple, and easy mode of treatment.
At home for consultation daily from ten till two, and from six till eight, either personally or by letter.—37 Bedford Square, London, England.
Patients residing in the colonies can be successfully treated by correspondence, and remedies can be forwarded in secrecy and safety to any address.
—SELF-PRESERVATION—
