IN THE UNITED STATES.

The current year promises to be crowded with stirring events:

In the United States the entrance of new issees into the political areas has been followed by a change of administration. But the great economic question on which the campaign turned is still unsettled, and its solution is now committed to a Congress almost equally divided between the two great parties.

Europe is a wast camp. Array corps partor the frontiers, and Millions of men await the signal for the most titanic war the world has ever seen. The Herald's news-gathering machinery is unequaled. Its correspondents dot the habitable globe. Nothing can escape their vigilance, and no expense is spared in spreading the results their efforts before the Herald's readers.

All the news of America will be found each week in the Herald, while its foreign department will contain a panorama of the Old World, flashed under the sea over the Commercial Cables.
