RAISING \$1 BILLS Dominion Notes to \$5 Passed on Re-

tail Merchants. HAMLITON, Ont., Feb. 9 .- The detertive department is engaged in trying to find out the persons who are at work raising new \$1 dominion notes to \$5. Quite a number of storekeepers have had them passed on them for \$5. One was given to James Kirk, the York street tobacco dealer, and the cashier in Peebles' grocery found

one among the pile of bills in the The raising process is a simple, but clever one. Tobacco stamps, which are very much like the government's promises to pay, are used, and the figure five is cut out and skilfully pasted over the large figure one in the corner of the bill. Storekeepers should be on the look-

KIDNEY DECEIT.

out for these bills.

How Many are Unintentionally Deceived in Treating Kidney Disorders—Can You Afford to Trifle With Your Own Existence?—If You Suspect there is any Kidney Trouble, Discard Pills, Powders and Cure Alls—South American Kidney Cure is a Time-Tried and Testified Kidney Specific.

A remedy which dissolves all obstructions, which heals and strengthens the affected parts, and which from its very nature eradicates all impurities from the system, is the only safe and sure remedy in cases of kidney disorder. Such a remedy is South American Kidney Cure. This is not heresay. The formula has been put under the severest of tests, and it has been proclaimed by the greatest authorities in the world of medical science that liquids—and liquids only—will obtain the results sought for. A liquid remedy taken into the system goes directly into the circulation and attacks immediately the effected parts, while solids such as pills or powders cannot possibly attain these results. Kidney disorders cannot afford to be trified with. The quickest way is the safest way to combat these insidious allments. This great remedy never fails. It's a liquid kidney specific. It's a solvent. from here to the meeting of the pro-

## PROVINCIAL NEWS.

McADAM JUNCTION, Feb. 7.-The great quantity of snow that fell last has been cleared out of the yards. About 25 men have been employed for a week on the job. The new L. C. R. engine, No. 169, that was injured in Fairville, has been repaired at the shops here and has been taken away. Mr. Wari-gard, the gentleman in charge, went with her. The C. P. R. cottages are now com-

pleted, and when dry will form comfortable homes for the employes. Situated on a ridge at a little distance from the railroad, they form a very pretty addition to the appearance of McAdam. Ambrose Grass, section foreman,

has been promoted to be trackmaster on the Woodstock-St. Stephen branch of the C. P. R. He takes the place of Mr. Eaton, who has been trans-. ferred to another division further The friends of Mr. and Mrs. E.

Haddeck will be pleased to learn that a young son gladdens their home. Pneumonia was followed by abscess The I. O. G. T. elected officers for

ston, S.; F. Duplisea, T.; W. Johnston, F. S.; J. Hallett, C.; C. Smith, mar.; G. Brownell, D. M.; L. Green, A. S.

FREDERICTON, N. B., Feb. 8.—The supreme court heard the following cases to-day:

In the supreme court, in Phillips v. Watson, court considers. Gorman v. Urquhart-Gregory, Q. C., moves to reopen the judgment of the court in order to permit Landry, J., to deliver judgment; Duffy, contra;

court considers. The court disposed of the last case on the Hilary docket his afternoon and adjourned until the 22nd inst. to deliver judgments. Before adjourning they delivered

judgments in two cases which were argued yesterday, viz., in Miller v. McPherson and Gorman v. Urquhart. Miller v. McPherson was a county court appeal from York county court, in which defendant McPherson sought to set aside a verdict received by ground that agreement under which plaintiff claimed title was void for want of registration. This agreement was taken by plaintiff on the sale of a wagon to one Charles Wright, from whom defendant seized the wagon under a bill of sale subsequently given him by Wright, and provided that title and ownership of wagon should remain in Miller until the purhase price was a subsequently as the purhase of other of other of the plaintiff of the was void for want of registration. This agreement which has been the talk of the town all winter a bill on the sale of a wagon to one Charles Wright, from whom defendant seized the wagon under a bill of sale subsequently given him by Wright, and provided that title and ownership of wagon that the provided the wagon to one Charles Wright, from whom defendant seized the wagon under a bill of sale subsequently given him by Wright, and provided the wagon that the talk of the tow all wintering of the board of trade was held in Masonic hall on Thursday evening, 10th. In addition to the board business, as advertised, J. S. Armstrong, C. E., was present to give a talk on good roads and illustrations with magic lantern of same.

The following gentlemen were prespected to the wagon to the talk of the town all wintering of the board of trade was held in Masonic hall on Thursday evening, 10th. In addition to the board business, as advertised, J. S. Armstrong, C. E., was present to give a talk on good roads and illustrations with meeting of the board of trade was held in Masonic hall on Thursday the evening, 10th. In addition to the board of trade was held in rlaintiff in an action of trover on the ground that agreement under which should remain in Miller until the purchase price was fully paid. The court held the agreement valid and did not require to be registered, and therefore dismissed the appeal with costs. C. F. Duffy for appellant; O. S. Crocket,

contra. Gorman v. Urquhart was an action of slander tried in York circuit court, in which plaintiff recovered a verdict on two counts of his declaration and had damages assessed at \$60 on each. Defendant at last Michaelmas term moved to set aside this verdict, and a few months ago four of the judges handed down their opinions, all sustaining the verdict on the first count, but dividing as to the second. With the equal division of the court the verdict on the second count would stand undisturbed. A short time afterwards Mr. Gregory, counsel for defendant, received an intimation from Judge Landry, who heard the argument, that he had written an opinion concurring with the chief justice and Judge Hanington that the verdict on the second count should be set aside, but that through a misunderstanding as to what judgments were to be delivered, he had not forwarded it to the chief justice. On the strength of this Mr. Gregory applied to re-open the judgment so as to per-mit Judge Landry to hand down his opinion, which would have the effect of reversing the matter as to the second count, and the application was argued yesterday afternoon, C. E. Duffy opposing the motion. The court to-day granted the application.

The case of Naud v. John McCoy,

an appeal from York county court was dismissed with costs. Defendant in this case defended an action on certain promissory notes on the ground that they were given for liquors to be sold in York county contrary to the provisions of the C. T. act, and that plaintiff had knowledge of the fact. The jury found for plaintiff, and defendant moved for new trial on the ground of discovery of new evidence going to prove plaintiff's knowledge of the fact that the liquor was to be sold in contravention of the Scott act. The motion was refused by Judge Steadman, and the supreme court today sustained his jugdment and dismissed the appeal with costs. WOODSTOCK, Feb. 9.—At the session of the County Orange lodge the following officers were elected: W. C. M., Jas. M. Queen; deputy, Arnold Porter; chaplain, Rev. W. J. Rutledge; financial secretary, Harley Hannah; recording secretary, Wm. Simpson; treasurer, S. E. Colwell; D. of C., S. C. Wiggins; lecturer, Harry Blakslee; deputy lecturers, A. Rideout, Chas. Johnson. A large delegation will go

vicnial lodge in St. John next Thurs-SUSSEX. Feb. 8 At a meeting of patrons of the Central creamery, held on Saturday night, the 5th inst., at the factory building, it was resolved that a com-

mittee be appointed from amongst the patrons to interview the local members to ascertain the probability of tile government making a money grant towards the erection of a building suitable for a permanent dairy school at Sussex. The names of the gentlemen composing the committee are W. W. Stockton, J. Titus Barnes, E. O. McIntyre, S. C. McCully, secretary of the Sussex and Studholm agricultural society, James Friars and Harvev Mitchell, dairy school superintendent. One of the members, G. W. Fowler, on being interviewed by the committee expressed himself as anxious to assist in any way the procuring of a generous grant from the government, and gave it as his opinion that his colleagues would be only too glad to assist in urging the government to make such grant. A further meeting will be had on Friday, the 11th, at 7.30 p. m. in the factory,

will be received and further action taken MARYSVILLE, York Co., Feb. 8.-The death of Mary, beloved wife of Alexander Gibson, took place on Sunday, Feb. 6th, at 2 a. m., in the 71st They received a number of nice pre-year of her age. Deceased had been sents, of which the following is a list: Arthur Gardiner is still very ill. in poor health for the past three or A china cheese dish from Mrs. Chrisfour months, being confined to her tie of McDonald's Point; china butof the lungs. He is apparently re-room with sciatica, and although at ter dish from A Buxton Case of Wick-covering under the skill of Dr. Young times her sufferings were severe, she ham; oak rocker from Mrs. Joseph room with sciatica; and although at ter dish from A Buxton Case of Wickwas of late able to recline in her Penry; parlor table from Mrs. Belyea chair, in which position she passed and Lee Fox; glass toilet bottles and chair, in which position she passed next quarter as follows: J. Sparks, C. peacefully away as it were in sleep. Thomas Robinson of Charlotte county | Rev. C. B. Lewis and wife, and also one | tual treatment of disease as in its preand was married when but sixteen from Willard Slipp; china cake plates G.; F. Jenkinson, sent.; S. Tracy, years of age. > Reid of Zionville came to town yes-Reid of Zionville came to town yesterday forenoon with Miss Densn of the same place, and the two were married last evening. This morning the bridegroom was arrested on a charge of Walter Fisher for uttering a forged note. He was remanded until Saturday for examination. The story is that Reid took a \$35 note, endorsed by James Somerville, to Fisher, who discounted it, and subsequently discovered that Somerville's endorseing made to arrange the matter.

ment was a forgery. An effort is be-Hon, A. D. Richard was sworn in as forecastle member of the government this afternoon.

as forecastle member of the government this afternoon.

CHATHAM, N. B., Feb. 9.—Monday night the town council nominated James F. Connors for police magistrate of the town of Chatham. Public feeling is running high in condemnation of the council's action.

The plan of action, as already published in the Sun, was partly abandoned as its publication gave away too many points. The revised scheme, concocted since then, was sprung upon the council in an unguarded moment and passed in such a hurry, it is said, that at least one of Mr. McCulley's admirers voted for it.

Mr. Connors was never even thought of as a possible candidate for the position. The givesway in reference to the police magistrate's salary necessitated the dropping of that part of the resolution, and a \$300 per year man was a necessary consequence. It is believed that the nomination of Mr. Connors was as great a surprise to Provincial Secretary Tweedie as it was to Mr. McCulley and his friends and the public, so that the scheme, so cuccessfully carried out, is "one on the provincial secretary."

Mr. Tweedie, in his usual off-hand way, intimated, it is said, that it was his intention to appoint R. A. Lawler to the position. He refused the position unless he was paid \$500 per year for his services. The council could not be successfully worked to accomplish this end. Friends of Mr. McCulley's looked upon him as a sure winner, opponents doubted the sincerity of the provincial secretary, and indications pointed to the appointment of Mr. McCulley. But our longheaded North Shore wire-pullers are too able to be so easily side-tracked, and formulated the scheme that has upset every calculation of the temperance party and Mr. Tweedie humself and spread consternation throughout the town. It is unfortunate for the provincial secretary that the council has made such a recommendation, notwithstanding that he may think otherwise. The effects of the appointment of Mr. Connors to Mr. McCulley's position will be as far-reaching

## BRIGHT AS A DOLLAR

Heart and nerve troubles cloud the brain, tangle the memory, wreck the system and destroy sleep. Milburn's Heart and Nerve Pills regulate the heart, tone the nerves and bring health and vigor to the entire system.

bers: Hugh McMonagle, E. O. McIntyre, Rev. S. Neales, Thos. Coggan, S. C. McCully, Titus Barnes and Jas. Arnold. J. S. Armstrong then addressed the

meeting on the subject of good roads, and cited facts and figures to show that it would be highly beneficial for the province to adopt some general methods for providing and maintaining the same, later on illustrating the deas by views of good and bad roads. A general discussion was indulged in and the methods of road making as now practised and expenditure of funds therefor strongly denounced. Mr. Armstrong was tendered hearty vote of thanks for his attend-

ance and address. President Heustis stated that it was the privilege of this board to send a delegate to the good roads convention which is to be held at Fredericton on the 17th inst., whereupon O. P. King was unanimously elected as the delegate from the board of trade and representing Sussex. The meeting adjourned till second Thursday in March.

Miss May McCarron of Carleton heights, St. John, who for several years was manager of the millinery department of John S. Trites in Sussex, is registered at the Queen hotel today, where she was met by a number of her lady friends glad to see her. Rumor has it that Miss McCarron may return to pursue her avocation in one of our large mercantile houses here. If true, she will be heartily welcomed by her lady friends. Mrs. Jacob Nowlon of the Mechanics' settlement lost her barn, which contained a lot of hay and farming utensils; loss fully three thousand dollars. The fire had its origin by a small boy playing with natches. Her loss at this season of the year will be very severe. Her case is one for the consideration of the charitable.

FREDERICTON, Feb. 11.-The two year old daughter of James Crowe of Lower St. Marys met a terrible death this forenoon. The child's parents had gone out and left her alone in the house for a short time. It is supposed she attempted to put wood in the kitchen stove and ignited her dress. A neighbor passing heard the child's screams, and running in found the little girl enveloped in flames. He at once colled her in snow, and put out the fire, but she only lived a few minutes, and died before her parents returned. The family moved here some years ago from Wahademoak lake, Queens county.

Dr. Deacon and W. C. H. Grimme of St. Stephen, and J. C. Henry, officers of the grand lodge, Knights of Pythias, arrived here this afternoon. and with about twenty members from Fredericton lodge went to Marysville this evening, where a new lodge of that order was instituted about forty

GAGETOWN, Queens Co., Feb. 10.-

Northumberland deal. Deals of late years have been our course up here, and will continue to work injury until the moral standing of our public men is raised by the introduction of new manly representation.

It may be of interest at this time to tell of another deal and site some facts and the results thereof that have led up to this now troublesome affair.

The convictions made by Police Magistrate McCulley in the social club cases were the foundation stones of the difficulty. There were prominent members of the club who had since the consummation of the Northumberland deal been in opposition to the government. The then surveyor general longed to have them as followers. These men, by reason of the convictions made against the club, were very antagonistic towards Mr. McCulley and the temperance party. Mr. Tweedie, as usual, open for engagements with a view to his own advancement, took in the situation and another deal resulted. These men dropped their former friends and supported Mr. Tweedie and he promised, as a reward for services rendered, an investigation into certain charges made against the club consumment of the server before heard in dage-ment with his grasphophone. This instrument was never before heard in Gage-ment with the surveyor general standards against the pulpit in the social club cases were the selections from the government. The tensure of the convictions made against the club, were very antagonistic towards Mr. McCulley and the temperance party. Mr. Tweedie, as usual, open for engagements with a view to his own advancement, took in the situation and another deal resulted. this place preached at Welsford. Queen's Division, No. 21, S. of T., will hold an entertainment, together with a pie and basket social on Wednesday, the 16th. The members intend to make some needed improvements on the inside of their hall.

THE HUMAN EQUATION.

In the opinion of the London Lancet (an admitted authority), the chief gain to medicine during the reign of Vic-T.; Pearl Green, V. T.; Kate John- Mrs. Gibson was the daughter of Alice Slipp; china water pitcher from toria has not been so much in the acvention. The Victorian era has been characterized by the rise and development of sanitary science, the aim of which is to promote the public health by securing cleanliness of air, water. food and drink; the construction of dwellings on hygienic principles, the avoidance of overcrowding, the control of unhealthy occupations, the better management of factories, and so on. No doubt sanitation and hygiene deserve the high estimate set upon them. They are able largely or wholly to prevent epidemics of contagious or infectious diseases, for which the community has every reason to be thankful; but even if it were possible to enforce the general observance of the Slipp, Leslie Slipp, Fannie Slipp, Mrs. laws of health to an extent far be-J. Penry, Len Fox, Myles Merritt, Ella yond the limit likely to be attained. youd the limit likely to be attained, there would still remain the individual element of the human equation to deal with, and no system or aggregacan say or do, every man must fight they battle of life for himself, and meet death for himself; and that, too, under conditions different from those peculiar to any and all others. Buddha, founder of the religion which bears his name, and one of the profoundest thinkers that ever lived, says it is vain to hope to overcome grief son, Phoebe and Maud Van Wart, and sorrow until men overcome the sense of personality in which sorrow

talkes its rise Exactly. And personality will continue to defy all wholesale ways of helping or hindering to time's end. Why, look at the point for yourself. The fact is that in the very face and eys of these protective and salvatory Mrs. Leverett A. Belyea is very sick contrivances, people fall ill precisely as they did a hundred years ago, and ground in Lafe's Mill the angel of when sanitation and hygiene were words unknown to the English language. So the Victorian era closes with the people using more medicine per capita than when it began; reme dies imperatively needed and often successful. As, for example, in the case of Mr. Henry Gunning, who says:

"In the spring of 1892 my health began to give way. I felt languid and weak, and had no energy. I had no appetite, and after eating experienced great pain around the chest and a gnawing feeling at the pit of the stomach. At night I was in such pain I got no proper sleep or rest. Cold. me, exhausting my strength. I became extremely weak, and although I kept at my work it was with difficulty.

"I grew weaker, and felt that I was going down the hill. I took medicines prescribed by a doctor, but they did not suit my ailment.

"In this dreadful condition I continued up to March of last year (1896), when my brother-in-law, Mr. Thomas, recommended me to try Mother Seigel's Syrup. I procured a supply from Mr. Hughes, chemist, of this place, and on taking it a short time I began to improve. My appetite returned, and food caused me no pain. Continuing, I grew stronger daily. When I had taken six bottles I was completely cured, and have since enjoyed good health. But for Mother Seigel's Syrup I should have been in the grave. You may publish this as you like. (Signed) Henry Gunning, Bloomfield Yard, Mold, North Wales, June 15th, 1897."

This man suffered from chronic indigestion, the most common and (considering its consequences) the most dangerous of diseases; not preventible or curable by any sanitary or hygienic arrangements. Let us by all means favor the adoption of these latter, on general principles, but when attacked by dyspepsia, follow Mr. Gunning's example, and use the medicine that cured him.

DISAPPOINTING FOR TEMPERANCE SOCIETIES.

I hear that two more distilleries are to be erected in Scotland at once. Only a few weeks ago I informed you that the Somerset house authorities had found it necessary to obtain treasury sanction for an increased staff owing to the great boom in Scotch whisky. At the present moment there are 158 distilleries at work in Scotland, many of which, I learn, are scarcely able to keep race with the orders of their customers.—Glasgow Herald.
