BRER CROCKET TO BRER SMITH.

(Frederick Gleaner.)
Mr. David Goliath Smith undertakes to lecture The Gleaner, Globe and Telegraph in regard to their attitude toward each other. This is a most sublime piece of cheek upon the part of the editor of the Chatham Advance, and one which The Gleaner is not disposed to allow to pass unnoticed. How did this great moralist David Goliath acquire the right to lecture his contemporaries of the newspaper press? Who made him a judge in Israel? Is it that David Goliath claims to be a descendant of the Emperor Charle-

magne, but even that fact if properly established does not justify him in giving himself airs and censuring his neighbors. Besides David requires all his ammunition at home to enable him to get even with Commodore Stewart who watches him from his lofty tower. We regret exceedingly to say anything harsh to the round and rosy David, and therefore we trust that he will not consider himself insulted if we politely request him to mind his own business.

Said a little negro boy to his companion, who was twitting him about his color, as they were playing on a South End street: "I see not black, I see just a respectable color!"—Boston Journal.

St. John, July 26th, 1902.

129 Union Street, Opera House Block.

AUSTRALIA'S PREMIER

Thinks Colonies Cannot Be Represented in the Imperial Parliament.

(Special to the Star.)
TORONTO, July 25.—The Evening Telegram's special cable says that Sir Edmund Barton, of Australia, in a speech at the Anglo-Saxon club last evening said it was idle to suppose that the conference of colonial premiers was endeavoring to formulate a scheme for a united empire. The relations of the colonies to the empire were worthy of consideration, and proposals now before the conference might bring them nearer to common action. The pride of the British race was in its freedom of citizenship within its bounds. England had given the colonies autonomous government and they meant to hold it. This is consistent with the sense of empire. There were insurmountable obstacles to having the colonies represented in parliament at Westminster, but the tendency of the empire was toward closer union, not by iron bands, but by love, and this union was being brought together by the bonds of the counting room, but by the bonds of the heart.

PLEAD FOR THE FRIARS.

NEW YORK, July 25.—Rev. J. F. O'Reilly, of Lawrence, Mass., made public today resolutions adopted by the Quadrilateral Chapter of the Augustinian Order at Villanova, Pa., July 16, and presented to President Roosevelt today at Sagamore Hill. The preamble praises the friars for their work as philanthropists, educators and pioneers of civilization. The resolutions deplore the seeming disposition of the government to discredit the friars and protests against their general condemnation. In closing the priests offer sympathy on account of the "unmerited obloquy heaped upon the friars by foul slanders emanating from misguided friends and treacherous foes."

MORE RAW MATERIAL.

(Special to the Star.)
HALIFAX, N. S., July 25.—The Dominion Iron and Steel Company has purchased the magnetic ore deposits discovered last year at Whycomagh. The price paid was \$100,000.

(Sydney Post.)
John Gillis of Whycomagh was a town yesterday. Mr. Gillis is one of the owners of very valuable deposits of black magnetic iron ore at the head of Whycomagh. The proprietors of the property have had within the last few days most handsome figures offered by Montreal parties. Mr. Jennison, engineer of the D. I. & S., examined the deposits and pronounced the ore to be of an especial fine quality.

WORLD'S RECORD BROKEN.

SALT LAKE, July 27.—In the quarter mile unpaired professional race at the Salt Palace Saucer Track W. G. Furman of Los Angeles, F. J. Hoffman, of Los Angeles, Johnnie Chapman, of Atlanta, Ga., and W. E. Samuelson, of Salt Lake, crossed the tape in 24.4 seconds, breaking the world's record of 25.3 held by Major Taylor.

A GREAT SALE OF ALLOVER FLOUNCINGS 27 and 45 inches wide, at almost half price at Dykeman's.

THE QUEEN HOTEL.

This Popular Fredericton House Undergoes Important Changes.
Since J. J. McCaffrey assumed the proprietorship of the Queen Hotel, Fredericton, great changes and improvements have been made, and a Star representative this week found the popular Queen more attractive than ever. It has been thoroughly cleaned and renovated. A number of new carpets, some new furniture, silver and crockery have been added. Two additional bathrooms with closets attached are being put in, and Mr. McCaffrey is in communication with two upper province firms about putting in an electrical elevator, which will be placed in the hotel within a short time. Gas has been put in every room.

A first class chef from the States has been engaged and placed in full charge of the culinary department.
The Queen has long been government headquarters at session time, and before the legislature meets again Mr. McCaffrey will have the whole interior of the house newly painted. The Queen offers to its patrons, office attendance, cleanliness and table service which is the proprietor's aim shall be second to none in the hotels of the province.

BUILDING CHURCH ORGANS.

H. A. Hilcoat of Amherst has sold to the Presbyterian congregation at Sussex, N. B., the large pipe organ manufactured by himself and Prescott Ross.

This is the second of these instruments that Mr. Hilcoat has recently disposed of, the others having been sold to the Presbyterian church at Port Elgin. Mr. Hilcoat says it is his purpose to continue the manufacture of these organs, and hopes in time to build up a large industry.—Amherst News.

THE NEW RAILWAY.

Contractor Barnes, says the Fredericton Herald, reports that the work on the New Railway and Coal Company's line is progressing satisfactorily, although the recent weather has been a great drawback. It says that at the present time two hundred men are at work on that part of the road and will soon have it ready for the rail. They expect to commence laying the rail just as soon as the bridge now being constructed over the Salmon River at Chatham shall have been completed. It is quite certain that work on the remaining portion of the road will commence this season.

Daughter—The man I marry must be brave man.
Father—He will be if he marries you while your mother is living.—New York Times.

CANADIAN NEWS.

The Argonauts Talk—Fishermen Drowned in British Columbia.

(Special to the Star.)
TORONTO, July 26.—Nine members of the Argonaut eight who met defeat at Henley reached Toronto yesterday afternoon. There was no demonstration. Captain Barker said the crew were honorably beaten, but are not at all discouraged by the result. The winners were the faster crew. The Argonauts left their boat in England and likely will go back next year.

VANCOUVER, July 26.—Three fishermen were drowned and a dozen are missing as the result of a furious wind storm here yesterday. Many houses were destroyed by the high wind, which assumed the proportions of a tornado in some sections.

ARBITRATION.

The Chicago Railway Employees Win on Several Points.

CHICAGO, July 27.—The demands of the employees of the Chicago City Railway Co., which were submitted to arbitration, have been partly granted in the award by the board of arbitrators. The men secure an increase of wages to 24 cents an hour. They were receiving 21 cents and had asked for 28 cents. The men are also awarded several modifications of working rules. The finding is likely to be ratified at a meeting of the employees and thus a big strike will be averted.

FREDERICTON.

FREDERICTON, July 26.—Wesley Kinney, of North Lake, who was a few days ago sent up to court for trial, upon a charge of rape upon Miss McNally, of the same place, has been admitted to bail by Judge Gregory, upon his own recognizance in \$500 and two sureties of \$250 each.

TOWN TERROR-STRICKEN.

There Have Been Thirty-Six Murders Since Last December.

JACKSON, Ky., July 24.—Jackson is in a state of terror as the result of the death of Jim Cockrill, the leader of the Cockrill faction, who was shot down from the Court House. The funeral will be held Thursday afternoon, and after it trouble is expected.
Jackson has been in a state of lawlessness for six months. Thirty-six murders have occurred since last December, and the news has been suppressed by those in authority, who are of the Hargis faction. The Cockrills are expected to take the initiative at any time.

McKinley Cockrill, a brother of the dead man, said Thursday: "We want peace, but I guess this means Winchester."
The Hargises have been prepared for a serious outbreak for weeks. Their arsenal is a store on Main street, where they have stored away rifles and shotguns sufficient to arm 100 men.

Sam Jett, uncle of the dead man, will probably become the Cockrill leader, as McKinley Cockrill is only 19 years old.

WERE MARRIED AT GRAND FALLS.

(Anaconda, Montana, Standard, July 16.)
Mary J. Leveque yesterday began an action for divorce in the district court against William Leveque on the ground of cruelty. She says they were married at Grand Falls, New Brunswick, Canada, Jan. 23, 1883, and that the defendant has been guilty of extreme cruelty, particularly one day last March, when he assaulted her, used unbecomingly epithets toward her, and he would break her glasses into her eyes. She says he has an uncontrollable temper, and has kept her in great fear. She was finally compelled to leave him, and now she wants a divorce. Joseph Binnard is her attorney.

A SENSIBLE MEMORIAL.

(New York World.)
Novel but sensible is the memorial just erected to the late Simon Sterne at Maiden Lane and Liberty street. A drinking fountain for animals will bear witness that Mr. Sterne was a "good citizen," as the inscription states, in a more forceful way than would a much more imposing but useless pile of marble.
The memorials that continue charity after the memorialized are gone are the most fitting. The De Hirsch foundation, which has enabled so many poor children to acquire an education, has endeared the memory of the donors to thousands to whom the most costly mausoleum that money could buy would have conveyed no message.

A WEEK'S DEATHS.

Eleven burial permits were issued from the board of health office during the past week. The causes of death were:
Heart disease 2
Consumption 1
Drowning 1
Peritonitis 1
Marasmus 1
Cerebral disease 2
Natural causes 1
Tuberculosis 1
Total 11

MAY AFFECT ST. JOHN.

(Calais Times.)
With the completion of the Bangor and Aroostook extensions which will terminate at Fort Kent, that town will become important as a distributing point. Along this avenue of transportation a considerable part of the 125,000,000 feet of Aroostook lumber that yearly is driven down the St. John will be manufactured in New Brunswick and find its way to Maine markets.

JEFF'S NOSE BROKEN.

And Fitz Says He Has Fought His Last Fight.

SAN FRANCISCO, Cal., July 26.—Upon an examination being made by a surgeon after his fight with Fitzsimmons last night, it was found that Jeffries' nose was broken. The champion was not aware of the injury until the excitement of the battle had worn off. A doctor was then called and he pronounced the small bones of the nose broken.

Jeffries believes the injury was received in the second or third round from a left jab on the bridge of the nose. The champion declared he felt no pain from the injury and would soon be in good shape again. He spent the night at the baths.

When Fitzsimmons had been counted out and he had congratulated Jeffries, he walked to the side of the ring, and flinging the gloves he had drawn from his hands, the one to the right and the other to the left among the spectators, he declared in a loud voice that he had fought his last fight. (See page 2.)

FEDERATION OF LABOR.

Resolutions Adopted Against Child and Prison Labor.

SAN FRANCISCO, July 26.—The executive council of the American Federation of Labor, in session here, has adopted a resolution supporting any legislation having for its purpose the abolition of child labor.
Another resolution declares the intention of the council to press the enactment of laws abolishing prison labor wherever it comes into competition with free labor. In the matter of the request of the International Association of Machinists, the Brotherhood of Railroad Carpenters and the Pattern Makers' League, for the revocation of the charter of the Amalgamated Society of Engineers, the council decided to notify the latter body that unless by October 1 it concedes full trade jurisdiction to the organizations named in the matter of trade disputes, such as increase of wages, threatened reductions, or changes of trade conditions or rules, its charter would be revoked.

RAILWAY DISASTER.

LOS ANGELES, Cal., July 25.—A special from Tucson, Ariz., says: Five persons were killed and a number injured in a wreck yesterday near Llanos, a town 70 miles south of Nogales, on the Sierra R. R. The north-bound international train was derailed by a washout and the engine, baggage car, two passenger coaches and a Pullman sleeper were smashed to kindling wood, but the first class coaches and the Pullman escaped with little injury. The killed and seriously injured were all in the second class coach.

NEGRO MASS MEETING.

NEW ORLEANS, La., July 26.—A mass meeting of the leading negroes of New Orleans was held last night for the purpose of opposing the enforcement of the law providing separate street cars for whites and blacks. The meeting determined to organize a stock company to run vehicles throughout the city for the exclusive accommodation of colored people.

LAWYER AND BIBLE.

"You must have been reading the Bible," said Judge Clancy in a Monday court the other day, when Attorney M. Donlan requested a separation of witnesses in a little matter of the examination of a debtor.
"No, I have never looked between the covers of the book," replied the attorney.
"Then where did you get that idea of separating witnesses?"
"I don't know where I got it," said Mr. Donlan, "but I think the idea is a good one."

"You have been reading the book of Susanna about Daniel coming to judgment," continued the judge.
Mr. Donlan looked bewildered, but pleaded not guilty. The court granted his request, and excluded from the courtroom all the other witnesses while one was being examined.

COTTON MANUFACTURE.

The growth of the cotton manufacturing industry of the South is eloquently presented in the single fact that up to May 30, this year, Southern mills took 1,425,579 bales, or 42 per cent. of the entire quantity taken for consumption to the mills of the United States. In a few years, at the present rate of Southern progress, Southern mills will be consuming yearly more bales than Northern mills. It will then remain for the South to get increased profit from cotton manufacturing by making the finer qualities of goods. This will come in time. A beginning has been made already.—New Orleans Times-Democrat.

SURGE LEATHER BELTS.

which have the appearance of cloth are the correct belt at the present time, at Dykeman's 25c. each.

ST. STEPHEN.

ST. STEPHEN, N. B., July 26.—The summer school now has an enrollment of two hundred and fifteen, the largest but one in its history. This afternoon the school made an excursion via C. P. R. to Moore's Mills, and this evening it is listening to a lecture in St. Croix hall, Calais, by Professor Watson of Greenville, S. C., on Genesis and Geology. On Monday they will have an outing to Campobello, going by steamer Viking.

Among your Saturday purchases include a package of Red Horse tea.

REDUCTION SALE OF HATS.

Beginning today, we have reduced the price of all our summer goods, consisting of Light Soft Felts, Linen Fedoras, all our Straw Hats, Yachting Caps, etc., etc.
