

EIGHT

THE STAR, ST. JOHN N. B. FRIDAY, NOVEMBER 10, 1906

A CUSTOMER'S REASONABLE WISH IS THIS STORE'S PLEASURE

Velours

For Dressing Jackets, Kimonos and Bathrobes

These are a lot that you can save from 5c. to 5c. a yard on. The prices now are 15c., 16c., 22c. and 25c. They were from 22c. to 35c. a yard. The patterns are entirely new, and the goods are of a nice soft texture, and of sufficient weight to insure comfort.

The above goods are some that were bought from a manufacturer of Dressing Jackets and Kimonos, after he had finished making up his season's stock. We got them at a considerable saving, and pass them on to you at a low price.

Kimonos Ready-to-Wear.

The same manufacturer had a lot of samples which were bought at one-third less than their regular prices. They are here for you to take advantage of this saving. About forty of them at prices ranging from \$1.45 to \$2.50. Only one of each pattern.

The cheapest advertising is not that which costs the least money, but that which brings the largest returns for the amount of money spent.—Centre ville, Va., Clitz

LOCAL NEWS.

Hons. L. J. Tweedie, W. P. Jones and F. B. Carvill arrived in the city on the Montreal express today.

Ald. McGoldrick, Col. George West Jones and A. O. Skinner have been chosen judges for the Marathon road race to be held tomorrow.

The steamer Hampstead is the first of the river boats to be taken off the route this year. The Hampstead made her last trip yesterday, and it is the intention of the owners to place the boat in winter quarters at Marble Cove once. The May Queen will only go as far as White's Cove after today.

The Star has received from Hall's bookstore one of the most attractive calendars depicting scenes in and around St. John that has yet been issued. It is a large four page combination printed on green and white half-tone stock paper, with the printing in green and gold. Each page bears a very fine half-tone, the scenes being the bridges, water front, Martello Tower and Rockwood Park. The calendar forms a most suitable gift to friends abroad. Messrs. T. H. Hall are one of the two agents handling the calendar in St. John.

In the police court this morning a beggar named O'Connor pleaded guilty to being drunk. The magistrate informed the prisoner that the best thing for him to do was to go out and work for a living. O'Connor took the hint, grabbed his bundle and hustled from the court room seemingly glad to get free. The man has been about the city for the past six months. He is an old soldier and hails from Halifax. He receives a pension and begs about the street for food and board. Two drunks were fined the usual amount.

THREW A STONE THROUGH THE PILE OF WINDOWS

Victoria Hotel Property Destroyed—Suspicious Slant of a Pole May Furnish a Clue.

The approach of cold weather caused the management of the Victoria Hotel to get the outside sashes from the store room yesterday and prepare them for placing on the building. The glass had been cleaned nicely and the windows were piled up in a yard at the rear of the hotel.

This morning it was found that a stone had been thrown through the pile of sashes, smashing numerous panes of glass. Police Sergeant Baxter was spoken to about the contemptible trick, and on making an investigation found that the stone had come from the yard other than from an adjoining house, as both front and rear gates were fastened.

A pole was placed in the holes through the glass and from the slant it was seen that the pole pointed towards a boarding house window of a room that has been occupied by a former employe of the Victoria Hotel. The breaking of the glass may lead to prosecution.

WILL RAISE THE JAIL FENCE.

It has been decided by a committee of the municipal council that the jail fence shall be heightened. A meeting was held a short time ago and the councillors visited the jail. They decided that the fence in its present condition was not high enough. It was seen that the prisoners could converse with persons on Leinster street. It was decided that the fence be heightened and County Secretary Vincent directed Sheriff Ritchie to have the job done.

The matter was first brought to the notice of the authorities by the inmates of Leinster street complained that the prisoners could be seen in the windows sometimes only partially dressed.

FALLING WIRES RANG FIRE ALARM.

During the heaviest of the wind and rain storm about four o'clock this morning a strip of iron railing on the roof of the building corner of Charlotte street and King square, occupied by Messrs. Ryan, was blown down and in falling carried away the line of wire leading to fire alarm box 27. The wire fell across the trolley and telephone wires, and for a time there was much confusion. Fire sputtered through the air and the alarm sounded in the wildest manner. In the firemen's houses where there were bells the families were kept awake for a time by the alarm continually sounding, and in some places the fire was playing in good shape about the bell.

Acting Superintendent Green went to work early and at eight o'clock all repairs were made.

Don't think because your first advertisement meets with no success, that you should drop it. Keep yourself continually before the public and soon the public will begin to patronize you, provided you give them what you advertise.—Geo. H. Flint, R. H. White Co., Boston.

TOO LATE FOR CLASSIFICATION.

WANTED—Boy to make himself generally useful. Good chance for advancement. Apply J. SHANE & CO., 71 Gormain street.

LOST—On Thursday in the city, either on street car or in some store, a lady's gold hunting case watch, with monogram, "M. L. K." Finder will be rewarded by leaving same at the office of E. R. BURPEE, 9 Dock St. 16-11-07

STILL MORE DREDGING NEEDED ON NO. 3 SITE

Contractor Clark Thinks That It is Not Yet Ready—Fear Another Slide at Union Street.

G. S. Mayes will probably receive orders today to complete the dredging at No. 3 site. Up to noon the government engineers had not instructed him to this effect, but word will probably be given this afternoon. Mr. Clark, after taking soundings at the site, informed Director Cushing that more dredging was required before he could sink the crib. This has been found to be the case. Mr. Mayes said on Wednesday that the site could be made ready for the sinking of the crib in a few hours. The engineers are of the opinion, however, that the site will not be ready until Saturday. In the meantime the crib will remain at the Donaldson line wharf. Grave fears are expressed that the earth will fall in from Union street in the meantime and further delay matters.

After the crib has been placed in position the Beaver will be put to work cleaning out the mud which remains between the western end of the crib and the Union street slope. This will be a step towards preventing more sliding. The space to be dredged is 60 feet wide, and the job will probably take several days. Considerable of the earth has already fallen in, and at high tide the entire eastern side of Union street may give way.

Mr. Mayes said to the Star today that yesterday the Beaver removed the obstructions found by Mr. Scammell and this morning cleared up the mud which had laid in one corner of the site. He states that the truth of the case is that the crib is not ready for sinking and will not be until next week when the tides suit. Mr. Mayes declares that he has done his part in making the site perfectly clear, but he cannot hold back Union street indefinitely and siding is sure to continue from day to day. The Orangetown and city dredges will in all probability finish their work at Nos. 1 and 2 berths at Sand Point. These berths will then be ready for the winter port steamers.

LOOK FOR BIG INCREASE IN CATTLE SHIPMENT

United States Exporters Engage Space on the First Steamers to Sail for London.

Advice has been received which would indicate that all records in the cattle shipping business will be broken during the coming winter. As a rule United States exporters do not patronize St. John until well along in the season, but this year several at least of the large firms will start right in whenever the first steamers arrive.

The Nelson Morris Beef Co. of New York and Swifts of Chicago, have engaged space for the first three London steamers. The Morris Company will forward five hundred head of cattle and Swifts about one hundred and fifty head on each of these steamers. Canadian exporters are also expected to do better this year. The fattening process adopted by farmers in the west is almost perfect and has resulted in a stronger demand for Canadian beef.

MASONS ARE PLANNING A BIG CELEBRATION

Propose to Hold a Concert, Dance and Supper on Nov. 27th.

The local chapter of the Masonic order will hold a centennial celebration here on the evening of Nov. 27. Some time ago a committee of about twenty with Senator Ellis as chairman, was appointed to look into the matter and find if arrangements could be made for holding such a celebration. At the last meeting of the chapter on last Friday night a favorable report was handed in by the committee and it was then decided that the celebration should be held. Since then different sub-committees have been working hard perfecting the plans and it is expected that a meeting of the general committee will be held either today or tomorrow.

The celebration will take the form of a social evening. The programme for the first part of the evening will consist chiefly of a number of musical and literary selections, after which dancing will be enjoyed and the affair will end up with a supper.

It is expected that a large number of the brethren will be present from the different chapters in the maritime provinces.

SAY DRIFT LOGS HURT THE FISHING WEIRS

Harbor Fishermen Will State Their Grievance Before a Civic Committee.

At three o'clock this afternoon a meeting of the fisheries committee will be held at city hall. Ald. Lantulum will preside. Arrangements will be made regarding the state of the harbor fisheries.

It is claimed by several fishermen that drift wood, etc., is interfering with the weirs. None of the aldermen on the committee know much about the matter so one or two of the fishermen will be asked to state the case fully. The arrangements regarding the sale will be similar to those of last year.

Come Here For Overcoats

Wisdom always pays, but it pays better to be wise beforehand than afterwards. Buying overcoats offers ways in which "ignorance may be bliss", but the later knowledge that the clothes are not as good as they looked, embitters the bliss of getting them at a cheap price. We combine high quality with a moderate, reasonable price, and we guarantee our overcoats to give satisfaction.
