#### WAR IN SOUTH AFRICA. Concentration Camps and American Condemnation.

(By Andrew Gray, D. D., late of Kings Co., N. B.)

(Mattoon Commercial, Jan. 23, 1902.) To the Editor-A good deal has been said and written of late by American citizens by way of denunciation of the concentration camps established by Gen. Kitchener in South Africa, and it has been asserted that the death rate resulting from such concentration has been exceptionally large, and they have been denounced accordingly as

most inhuman. The Boston Herald said editorially, few weeks ago: "It is not improbable that the loss of life due to the concentration camps that have been established in South Africa has been exaggerated, and that while the death rate has been abnormally high, it has been less severe than common report has credited it to be. But the experience, both in Cuba and South Africa. makes it evident that, when a government endeavors to subdue an unwilling people, who, rather than yield, are ready to sacrifice everything, it is compelled to resort to methods which

can only fitly be described as barbar-In other words, war is war; it is not a picnic. We all know what Gen.

Sherman said of it-"War is hell!" It is worthy of remark, in passing, that the army physicians, whose duty it is to care for the sick in said camps have recently sent an official report to the government on the subject of the abnormal death rate. They report that it can easily be accounted for, and is the result of two causes: First, that many of the Boers are very superstitious; that they often refuse to take the uedicine prescribed for them, and that they put more confidence in charms and badges than in medicine. Secondly, they report that one of the most difficult and unpleasant duties they have to perform is to compel them to submit to the luxury of a bath. Even women in prison camps and hospital quarters resist desperately even a sponge bath, both for themselves and their children. In this they certainly are not much like the women of Holland, who are proverbial for their cleanliness. If the report of the physicians is correctand I have never seen any attempt at contradiction-then it follows that the

The smallpox patient at Georgetown is doing well and with ordinary care no doubt is ntertained of his recovery.

Interest is deepening in the civic elections which come off on February 12th. There are five wards in the city. Ward 1, 2 and 3 elec one councillor each, Ward 4 two, and Ward 5 three councillors. There are already three candidates for the mayoralty. Dr. James Warburton has held the office for two terms of two years each, and will again offer. Alex. Horne, a well known merchant and a man who has sat at the council board for 25 years, is also a candidate, and has undoubt-ediy sound claims upon the support of the clitzens. The third is Dr. F. Kelly, who was elected to the council for the first time about a year ago. Among the new men of-fering for councillors are W. W. Clark, Plant Line agent here; D. Stewart, S. C. Moore, L. C. Worthy. No tidings have yet been received of Dr. McDonald of Cornwall, whom we reported missing last week. It is now believed that he broke through the ice and was drowned while crossing North River. ## CATARRH OF THE STOMACH.

A Pleasant, Simple. but Safe and Effectual Cure for It.

Catarrh of the stomach has long een considered the next thing to incurable. The usual symptoms are a full or bloating sensation after eating ocompanied sometimes with sour or

watery risings, a formation of gase causing pressure on the heart and lungs and difficult breathing, headaches, fickle appetite, nervousne is and a general played-out, languid feeling. There is often a foul taste in the mouth, coated tongue, and if the interior of the stomach could be seen it would show a slimy, inflamed condition. The cure for this common and obsti

nate trouble is found in a treatment which causes the food to be readily thoroughly digested before it has time to ferment and irritate the delicate mucous surfaces of the stomach. To secure a prompt and healthy digestion is the one necessary thing to do, and when normal digestion is secured the cata thal condition will have disap peared.

According to Dr. Harlanson the saf est and best treatment is to use after each meal a tablet, composed of Diastase, Aseptic Pepsin, a little Nux, Golden Seal and fruit acids. These tablets can now be found at all drug stores under the name of Stuart's Dyspepsia Tablets, and not being a patent medicine, can be used with per-Inst. by Dr. Dillon Bronson.

an immediate end. Unfortunately, those of our fellow-countrymen who seem disposed to urge President Roosekind fail to take velt to action of thi into account that, if we are to hold our English cousins up to a high standard of humanity, we must, at least, enter upon our self-elected duty of righting wrongs with hands entirely clean. It so happens that, allowing for differences in conditions, we are practising in the Philippine Islands a system of suppression which is much the same as that which Gen. Kitchener is practising in South Africa. The general commanding our forces in the Philippines has recently stated that apparently all the Filipinos are a heart rebels against the United States, and that they merely need opportunity to become active enemies. We have statements made from time to time that the end of the war is near, but it is deserving of notice that these statements are commonly made during the hot and wet season of the year, and that, with the return of the relatively cool and dry season, there are renewed outbreaks among the insurgents. One of the latest reports is to the effect that, while every effort has been made to decrease the expenses of the American army in the Philippine Islands, a reduction can hardly be hoped for because of the activity of the insurgents in a number of different places, and also the necessity of sending troops to preserve order in many towns where municipal governments have been established. Gen. Chaffee, speaking of the island of Samar, has said that the situation there demands a policy of rigid starv-

health, but the change proved unavailing. The annual meeting of the citizens of Ken-sington for the transaction of civic busi-ness was held on Tuesday. The following officers were elected for the current year:-Wardens, R. T. Moase, H. A. Leslie, C. A. McNutt, Chas. Doyle, H. R. Moase. It was agreed to ask the legislature to pass an act of incorporation at the coming session. Fred Heartz was fined \$100 and costs Wednesday for a violation of the prohibition act. About \$1,000 was collected in fines last week in consequence of the act being sus-tained. Wm. Power's leg was amputated at the week in consequence of the act being sus-tained. Wm. Power's leg was amputated at the thigh on Wednesday. The bullet, which re-mained in the stump, has been located. He is suffering greatly and growing weaker. Col. McLeod died at Hunter River on Tuesday after a lingering illness. He spent the summer in the Royal Victoria Hospital at Montreal. The funeral took place on Thursday afternoon with military honors. The Foresters of Mt. Stewart held a ban-quet and installation Thursday night. The following officers were installed: C. R. Jas. D. McIntyre; Court Physician, J. G. Toombs; Fin. Sec., B. W. McLeod; Rec. Sec. B. S. Egan; Woodwards, James Mc-Laughlin; Wm. Affleck; P. C. R., Murdoch McLean; C. D., James Partridge; Orator, H. D. Coffin; Beadles, Mont. McKay, Jonathan Affleck. ation, and giving of food only to those who surrender, or who will stay in the towns. There is nothing to make a policy of this kind any more justifiable than that which Gen: Kitchener has adopted in South Africa. It is cruel, it may even be called inhuman, but it is probably the only policy that can be adopted if popular resistance is to be crushed out, and another and better form of government established. If we are justified in adopting these methods against those whom we term rebels in the Philippine Islands. then Gen. Kitchener is justified in adopting them against those whom he calls rebels in South Africa. It would be absurd for us to condemn in others a course of action which we are finding it advisable to practice on our own account.

Let us hope that hereafter war, with its attendant horrors, may be prevented by arbitration; but in all our doings in regard to the present evils of war, let us at least be consistent.

Since writing the foregoing a Blue Book has been issued on the subject of the concentration camps in South Africa, which contains detailed explanations from Lord Milner, the British high commissioner, and Lord Kitchener, as to the causes of the high death rate in the camps. They confirm the report of the army physicians referred to above, and refute the charges of cruelty. Lord Kitchener emphatically denies Commandant Schalk-Burger's allegations of the forcible removal and exposure of women in a delicate condition, and as emphatically he denies the accusation of rough and cruel treatment of women

It had a brass letter "C" on a black base, and three broad-arrows, which signified that it was the property of the admiralty of Great Britain. The big hotels were crowded. At the 'Halifax" the officers were bidding good bye and having the last handclasp with many of their friends. the rectum, bladder and uterine organs, ovarian tumors and nearly all diseases of the liver are followed by piles, and they are liable to appear during pregnancy and im-mediately after child birth. In bleeding piles the hemorrhage is some-times so profuse as to cause death, but pro-truding piles are probably more dreaded, because it is believed that nothing short of a surgical operation will cure them. As a rule every form of piles becomes at times acutely inflamed, and extremely painful. The itching and burning usually increase at might, and the misery which many people endure is beyond description. It has a wonderrul soothing and healing effect, and wherever applied to burn-ing, itching, inflamed skin it affords almost instant relief, cooling the fires of disease and healing the raw ulcerous skin. Ask your friends and neighbors about Dr. Chase's Cintment. It is recognized by a sur-prisingly large number of people as the only actual cure for piles. It will not fail you. Sixty cents a box at all dealers, or by mail postpaid on receipt of price, by Edmanson, Bates & Co., Toronto.

MISS STONE.

VIENNA, Jan. 28 .- A telegram has een received here from Sofia saying that the brigands wish the liberation of Miss Stone, the captive American missionary, to take place upon Turkish territory, but that the Turkish gov ernment will not consent to this arrangement unless it be advised of the time and place of the passage of the brigands across the frontier. The Turkish government requires also that a neutral escort shall accompany the brigands.
