Recent Seizure May Cause Authorities Puzzled Over Passed on Second Reading Dispute With Britain

Treaty of 1818.

BOSTON, May 10.—The seizure of the Boston fishing schooner Raymah, Capt. Hogan, and the Gloucester schooner Parthia, off Cape North, Cape Breton, on Tuesday, by the Canadian cruiser Canada and the dominion service tug Gladiator, has brought about a concerted stand on the part of the Boston and Gloucester fishing inter-

The master fishermen term the selz-ure a violation of the treaty of 1818. They have taken no steps as yet in the matter and are awaiting further information from the captains of the seled vessels and are also desirous of hearing the attitude of the dominion government in the case. Although the details are yet un-

known, Boston fishermen say that if the seizure is allowed to stand it will be one of the severest blows ever dealt the codfish interests of the two From the understanding of Boston

fishermen from reports of the seizure sent from North Sydney, C. B., there is a dispute as to whether American vessels have not the right to fish near Cane North at the series of the seizure sent from the series of the seizure series of the seizure ser Cape North, at the extreme end of Cape Breton, where the seizure is reported to have taken place.

American vessels, under the treaty of 1818, have a right to secure bait at the Magdalen islands, which are only five or six hours sail from the cod-fish grounds. It is believed by Boston fishermen that Capt: William Hogan of the Raymah was on his way to or om the islands when the seizure took

That the seizure will bring the Boston and Gloucester fishing interests into international attention there is no doubt. The stern stand of the Caradian government will be met with an equally strong one on the part of Boston and Gloucester fishing inter-ests. Premier Bond's recent aggressive action in Newfoundland and the report of the arrival of the British warship Brilliant at St. John's are that the British government intends to wield a strong hand. President H. M. Nute of the Atlantic Company, owner of the schooner Raymah, said last night that no definite action would be taken until the position of the Canadian gov-

had been made clear in regard to the seizure. The schooner Raymah was built in 1901 and is valued at \$12,000. She is modern fishing craft and one of the best known of the Boston fleet.

Although Alarm of Burglars Was Given, Chancellor of Exchequer Says Govern-

NEW YORK, May 9 .- Following the funeral today of Charles L. Spier, the in his house on Staten Island Monday morning following an alarm of burglars, a second autopsy was performed and the bullet extracted. It was found to be of 32 calibre and fitted Spier's own pistol. The bullet was located in the back, under the shoulder blade. In its course through the body it had penetrated the heart. The physicians and officials at the autopsy declared themselves puzzled as to how Spier could have staggered or walked the distance he did after the bullet had pierced his heart. His body was found fully 18 feet from where the first blood spots in the hallway of his home were

It is the theory of the family that Spier grappled with the burglar he is said to have detected at work and that the marauder turned Spiers' own wea-

pon upon its owner.

Strong objections were made today by Mrs. Spier to holding of a second autopsy, which would prove nothing, but Coroner Cabill would not give a hural permit until the bullet had been but Coroner Cahill would not give a burial permit until the bullet had been extracted. Consequently the funeral went forward and the body was placed in a vault. After a short wait, it was removed and the autopsy began in the presence of county officers and representatives of the Spier family.

District Attorney Kenney expressed the belief this evening that Spier shot place.

Elizabeth Axtell and four of her children are again enjoying the hospitality of the city. Policeman White found them wandering about Canterbury street last night, and as they had no other pressing engagement they accepted the officer's urgent invitation to company him to the central station. Secretary Wetmore issued a permit for them to go to the alms house some days ago, but Mrs. Axtell thought it was too early in the season to remove to the country. As they are charged with being common vagrants and having no visible means of support they will probably spend the summer on the other side of Courtney Bay. Although they have achieved a remarkable record as long distance pedestrians, the family requested that
