ROTTEN STRUCTURE COLLAPSES, NONE HURT

"Sproule Bridge", at Portage, Example of Work Done by Old Government—Cows Injured.

Portage Vale, N. B., May 7.—A few days ago the bridge known as the "Sproule Bridge" went down with a number of cows owned by Henry Jonah. Mr. Jonah was on the bridge when it started to go and had a very close shave, as one of the pieces of the frame work nearly struck him. Some of his cows were badly hurt and had it not been for the stream drivers, who were working near by, when the crash came, a larger amount of damage would have been done. The cattle were taken out of the water before they had time to drown.

The structure which went down was not an old one. It was built about ten years ago, when large expenditure and poor quality of material was the order of the day. Your correspondent is not a bridge builder, but it is a proper kind of lumber had been used the structure would have been a good and strong bridge for a number of years, instead of being a heap of rotting lumber. A good substantial structure will soon be under way.

R. C. McQuinn, who has a crew of men at work on the river getting lumber down for J. D. Laitseau, will soon finish.

Smith & Brook's mill is now being set up, and the sawing of the lumber will soon begin. The cut is quite a large one.

The roads are now in splendid shape. Bliss Teakles informed your correspondent some time ago that he never saw the roads better in the parts of Albert county where he has resided for years.

A Man With Piles Cannot Work

The depressing, undermining influence of piles tends to affect mind as well as body until the sufferer from this annoying ailment feels miserable and utterly cast down.

The itching, stinging sensations which accompany piles are bad enough. The search for cure and thought of a surgical operation do not tend to cheer one up. Many get discouraged and allow their futures to be ruined by this wretched ailment. It is so easy to relieve piles by the use of Dr. Chase's Ointment that it seems strange that anyone should neglect to give this treatment a thorough trial. If you could only read some of the letters from cured ones who had suffered ten, twenty or thirty years you would no longer doubt the effectiveness of Dr. Chase's Ointment as the relief and cure of piles.
