MADE GREAT RECORD.

At the Y. M. C. A. centres throughout Canada last May, Leaders' Exams examinations were written. These consisted of gymnasium tests and written papers in first aid, hygiene and other subjects. Twenty-five local boys took the papers at the Y. M. C. A. here and all twenty-five were successful candidates, while Montreal had three associations and only twenty-four successful contestants. It is not surprising, therefore, that the local Y. M. C. A. officials are gratified that St. John, with only one association should lead all Canada with the excellent record of twenty-five contestants all successful.

THE GREAT IMPERSONATION.

"No more successful mystery story was ever written than 'The Great Impersonation,' which bears the name of E. Phillips Oppenheim on the title page. The solution of the mystery comes at the end with suddenness as complete as the surprise which accompanies it. The tale is told so skilfully that the reader has no suspicion of its outcome as he turns the pages, yet when he knows the truth he discovers that it has revealed time after time without either him or any of the characters being any the wiser. This is indeed a triumph of construction and treatment, and Mr. Oppenheim deserves all the credit that can be given to him. It is a book that holds the attention from first to last."—Philadelphia Public Ledger.

He Pauses.

"Why ain't you hustling?" "Got to give the house a chance to catch up," explained the auto salesman. "I've booked all the orders the factory can fill for two or three years."

Clocks to the number of 260,884 were exported to this country by Germany in the first two months of the year.
