HORSE RETURNS TO FAVOR WITH FARMER AGAIN

Swing from Motor Power to Animal on Farms is Pronounced.

UNDER PRESENT CONDITIONS CHEAPER

Comparing Prices of Feed and Gasoline Advantage Lies All With the Horse.

By ELLIS McFARLAND.

The whole agricultural and industrial world is returning to the draft horse. This one clear call is so distinct that there can be no mistake as to its meaning. For the last few years money came so easily people cared little as to how rapidly it was spent. For that reason farmers and city tractor men purchased tractors and trucks with little thought as to whether they were an economical purchase. They were simply stopped to figure out whether the draft horse could do their work cheaper than mechanical power. That was not the question. For many it was merely because it was the fashion to ride a tractor or a truck. In all fairness to both sides of the question, let it be said that during these abnormal times there were certain jobs that were done well by tractors and trucks. The trouble was that altogether too many people tried to make use of mechanical power when only a few had work suitable to tractor and truck use. The typical American fashion we all went pell-mell in one direction. Today, the majority have faced about and are now praising the draft horse just as strongly as they did the tractor and truck only a few months ago.

Getting Normal Again.

The cause of this complete and very rapid change in the minds of people is very easily understood. We are getting back to normal times. Most farm products are not worth half what they were six months ago. It is extremely difficult to borrow money. Unfavorable financial conditions are causing a great setback in the industrial world. Truck and tractor factories are closing down because they cannot sell their products. Farmers are holding out for their 1920 crop with the hope that prices will improve. They see little chance of breaking even because it cost a great deal more to produce last year's crop than it would cost at present valuations. Therefore, everyone, whether rich or poor, whether farmer or city business man, must cut down expenses. And it does not take a banker or an expert accountant to figure out that at present prices of grain, hay and gasoline a draft horse will do one's work cheaper than will any truck or tractor.

Hardy Annuals For The Flower Garden

Beautiful Blooms Soon After Planting and at Small Cost.

Annuals are satisfactory crops in any flower garden, since the yield is beautiful flowers soon after planting. Many of the varieties can be grown in limited space and the cost of seed and growing is trifling compared with the results obtained where reasonable care is taken at present valuations. Therefore, everyone, whether rich or poor, whether farmer or city business man, must cut down expenses. And it does not take a banker or an expert accountant to figure out that at present prices of grain, hay and gasoline a draft horse will do one's work cheaper than will any truck or tractor.

STEAM BOILERS

We offer "Matheson" steam boilers for immediate shipment from stock as follows:
NEW
1—Portable on wheels, 20 H. P., No. 10, 48" dia., 18" high, 125 pounds, W. P.

FARM BUILDINGS CHEAPER

In paints, oils, turpentine, etc., one will see a decided drop, which should stimulate a big painting programme on farm buildings where painting has been neglected for some time, says Mackenzie Hall in an article in last week's issue of Farmers' Magazine. Building hardware is also lower. Tar paper has advanced, but ready roofing material is stationary.

HALIFAX IMPORT CO.

CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freemore" on an itching corn, instantly that corn drops hurting, then shortly you lift it right off with fingers. Truly! Your druggist sells a tiny bottle of "Freemore" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.
