In Memoriam

GILES.—In loving memory of our dear little son, Arthur Percy, who passed away one year ago—February 4th, 1922.

We often sit and think of him

When we are all alone,

For memory is the only thing

That grief can call its own.

More and more each day we miss him;

Friends may think the wound is healed,

But they little know the sorrow

Lies within our hearts concealed.

—His Loving Mother and Father, Brothers and Sister.

TOWN AND VICINITY

Winter is just one ton of coal after another, and slow at that.

The literary society of No. 7, Ekfrid, have postponed their regular meeting to February 9th.

Communion will be observed in the Glencoe Methodist church next Sunday morning at the regular service.

About the only time when the average man ever gets to feel important is when he puts on his lodge uniform.

E. F. Reyecraft was in London on Friday attending a special committee meeting in connection with county work.

One of the best ways to increase the prosperity of our town is to deal as much as possible with the business houses of the town.

Rev. A. S. and Mrs. Whitehall attended the funeral on Monday of Mrs. Whitehall's mother, Mrs. Tackabury, of London township.

These cold winter mornings are excellent for late sleeping. In this respect they are much like spring, summer and autumn mornings.

Glencoe Trail Rangers went to spin on Saturday afternoon and defeated the Trail Rangers there in a game of hockey, which ended 5 to 0.

Glencoe public school board at their first meeting for the year appointed A. B. McDonald chairman, Alex. McAlpine secretary and E. T. Huston treasurer.

At the annual meeting of the Oakland Cemetery Company John Beckon was elected president, Hercules Annett vice-president and Jas. Poole secretary-treasurer.

A good many old cutters have been resurrected from their resting place in shed and loft during the past two weeks, and more have been seen in town this winter than for some years.

A musical entertainment will be given in the town hall, Glencoe, on Friday evening, February 2nd, under the auspices of the L.O.E.E. Come and patronize your own home talent.

What beats the early robin is a furry caterpillar found very much alive on the sidewalk by Mrs. C. O. Smith a day or two ago. Some say this is a sign of an early spring, and those who are scarce of fuel will at least hope it is.

There has been plenty of good curling ice at the rink this winter and several of the primary events in the local cup competitions have been played off with a keen enjoyment of this splendid if not most popular of Canadian winter sports.

E. T. Huston, motor license issuer for West Middlesex, has been appointed issuer of professional drivers' licenses for the same district. The Motor Vehicles Act provides that all motor vehicle drivers who drive for pay shall obtain a professional driver's license.

The death occurred at Los Angeles, Cal., on Thursday, January 11th, of Miss Tena McKellar, a former resident of Glencoe. Miss McKellar was the eldest daughter of the late Donald McKellar, who many years ago established the hotel here which bears his name.

Tomorrow is Candlemas Day, when the groundhog is supposed to come out and interview his shadow, if visible. If the shadow is not there it portends an early spring, and, as a Scottish maxim has it, "If Candlemas is fair and clear there'll be two winters in the year."

Alvinston intermediate hockey team came over to Glencoe on Tuesday evening and played off with the Glencoe in the group series. Glencoe team allowed the visitors to score a goal in the last period as a consolation. The score, 15 goals to 1, was too one-sided to be interesting to the spectators.

Russo's modern shoe store, which has at all times an attractive window display, is more in the spotlight than ever these days with its big bargain offerings. Hundreds of pairs of nifty and serviceable shoes, all marked at quick sale prices, are making this store one of the busiest spots in town.

Glencoe "Outlaws" went over to Dutton on Wednesday evening and gave the hockey team of that village a fast game, which ended 5 to 5 in favor of Glencoe. At the end of the second period the score stood 5 to 1 in favor of Glencoe, but Dutton came out strong in the third period, tying the score. Ten minutes overtime was played, resulting in the defeat of the Dutton team.

A number of Dr. Freely's gentlemen friends met at his home on Thursday evening to do him honor on the occasion of his approaching marriage. About fifteen were there and presentation was made of a beautiful cut-glass water set. After acknowledgment by the recipient and a few speeches from those present oysters were partaken of. Dr. Freely has the best wishes of the community.

The Thamesville Herald says:—A miscellaneous shower was held at the home of Mrs. Wood, Dawn township, in honor of her daughter, Miss Jean Wood, when the young people of the neighborhood gathered to spend a few hours and shower some pretty gifts upon the bride-elect. Miss Wood, who has been a popular school teacher, is much esteemed. A pleasant time was spent in dancing, and during the evening lunch was served.

A huge new derrick for use on the local division of the Wabash and Grand Trunk attracted a great deal of interest while in the railway yards here one day last week as en route to headquarters in St. Thomas from the manufacturers in Bay City, Mich. It is the largest piece of machinery of its kind in Canada. One of its main features is that it is self-propelled and can travel with ease under its own power. It is operated by compressed air and electricity.

Among the friends from a distance who attended the funeral of the late Wilfrid Walker were Colin Walker, James Walker and son Griffith and Mrs. Mzie Cook, of St. Thomas; Jeffe Stevenson, D. D. At the annual meeting of the Mossa & Ekfrid Agricultural Society a ladies' committee was appointed whose duty will be to take full charge of the ladies' fancy work, fine and decorative and domestic science and manufactures departments. The committee is composed of Mrs. W. A. Currie (superintendent), Mrs. Hetley Walker, Mrs. Charlotte Craig, Miss Minnie McDonald and Mrs. J. L. Tait. With such a good committee as this there is every reason for confidence that the next fall show in these particular points at least will be well looked after.

Two cows belonging to Mrs. Quick, while drinking at the old mill pond east of the town on Sunday, jumped into the water where ice-cutters had been working. Their predicament attracted the attention of trappers on the afternoon of G. T. R. express, who, on reaching Appin, reported the matter by telephone to Glencoe. A rescue party hurried to the scene and after a couple of days succeeded in getting the animals out of the pond. The cows were so exhausted from their efforts to get a foot on the ice and from their long submersion in the cold water that they could not stand and had to be drawn to the barn on sleighs. After a good rubbing down and the application of liniment they were not long in recovering.

Best Extinguisher.

Mr. Budger and his wife were continually at variance regarding their individual capabilities of making and keeping a good fire. He contended that she did not know how to make a fire, or how to keep one after it was made.

She, on the other hand, maintained that he never meddled with the fire that he didn't put it out—in short, that he was a regular fire dumper; and, as he was always anxious to stir up things in the various fireplaces, she made it a practice of hiding the poker just before it was time for him to come into the house. One night there was an alarm of fire in the village and Budger flew for his hat and coat.

"Where are you going?" asked the wife.

"Why, there's a fire, and I'm going to help put it out."

"Well, my love," responded Mrs. Budger, "I think the best thing you can do is to take the poker with you."

Our Pear-Shaped Globe.

While Dawie insisted that the earth was flat, and his successor, Voliva, sticks to the same opinion, serious scientists now begin to hark back to the theory which Columbus formulated on his third voyage, that the earth is shaped somewhat like a pear.

The eminent geologist Sollas affirms that if the earth is tending to become round, it has not yet become so. It even appears that what is today the moon belonged originally to the stem end of the terrestrial pear, which in the course of violent rotation threw off the moon.

This, says the Petit Parisien, is a theory. It is perhaps as good as any other, but anyway it is well not to get excited over it. Men were just as well off when they believed that the earth was flat and did not suspect the existence of antipodes.

A Neater Crimson Gulch.

"What did you do with the bunch of rags who came over from Bearcatopolis and said they were going to clean up the town?"

"They had it their own way," answered Cactus Joe. "We gave 'em brooms and scrapers, and organized a posse to see that they made good."
